NEWS ABOUT TOWN AND COUNTY.

Members of the Brooks-Doll Post of the American Legion are making arrangements for their annual picnic which will be held at Hecla park on Labor day, September 3rd. This will be the last gathering of the kind this season at that well known picnic resort.

There was quite a heavy frost in many parts of the county yesterday morning. Out about Gum Stump the roofs of buildings were white with it. This is the earliest frost that we have ever heard of in this section and it is to be hoped that it has not seriously blighted vegetation anywhere.

Altoona expects a crowd of 75,000 or more at the opening of its motor speed bowl on Labor day when all of the great racers of the country will compete in the 200 mile championship race. It has required 3,000,000 feet of lumber to cover the fifty feet wide deck of the bowl and at the turns it is pitched at an angle of forty-five degrees, so that great records are looked for on the opening day.

Miss Mary R. Illingworth, formerly of Pine Grove Mills, who for some time has been connected with the Alice Hyson Mission of the Presbyterian church at Taos, New Mexico, has been made principal of the Presbyterian day school at Chacon, New Mexico. Miss Illingworth writes that every day the arid, cactus dotted desert about her makes her long "for Centre county and its green, cool fields and woods and blue mountains."

The big Williams family reunion drew large crowds at both Port Matilda and Martha, last Saturday, though the former place had a shade the largest crowd, according to an impartial observer who attended both gatherings. Good programs of amusements were given at both places and everybody had a good time notwithstanding the fact that the two gatherings were the result of a rupture in the committee of arrangements.

William A. Moore, so pleasantly remembered here as president and general manager of the old Nittany Iron Co., has just been made a vice president of the American Kardex Co., of Tonawanda, N. Y. For several years Mr. Moore has held the position of sales manager for the company and his new position, while a splendid promotion, retains him in the same branch of the business by making him a vice president and director of sales.

Read the scenic program published in another column and see the offering of high-class motion pictures presented for next week. Manager T. Clayton Brown keeps close tab on all the films produced and selects what he believes his patrons in Bellefonte will appreciate. Every picture is new and up-to-date. They portray real life in its various phases and in a way that holds the attention of an audience from start to finish. Get the habit and be a regular.

Col. and Mrs. J. L. Spangler went over to Centre Hall on Wednesday to be present at the ninety-fifth birthday anniversary of the Colonel's mother, Mrs. Susanna Barger Spangler. So far as the writer can recall Mrs. Spangler is now the oldest woman in Centre county. She was born in Snyder county in 1828 but came to Centre county about 1850 and has lived at Centre Hall ever since. Notwithstanding her great age she is a remarkably well preserved woman.

The DeMolay band made its first public appearance at Curwensville yesterday where it furnished the music for a big Masonic picnic. The band's first public appearance in Bellefonte will be on September 4th, on the occasion of the big ceremonial session when a large number of candidates will be initiated into the mysteries of Penn-Centre chapter Order of DeMolay. The band boys are planning a series of entertainments for the purpose of raising money with which to purchase Turkish patrol uniforms.

Mr. O. A. Bittle, who about a year ago purchased the furniture store and undertaking establishment of Frank E. Nagney, in Bellefonte, has bought a similar business in Pottsville. He and his wife are now in that city but will return to Bellefonte this week and arrange to move to Pottsville within two weeks. His business here will be in charge of George Harrison, his present assistant, until he can dispose of it at a satisfactory figure. The business he purchased in Pottsville is one he has had in view for years and it being for sale he promptly closed the deal for its purchase.

Mrs. Irving Warner, who will leave Bellefonte next month, was guest of honor at the card party Wednesday evening, given by Miss Lida Morris; Miss Grace Cook was also hostess at cards the same evening, while Mrs. H. E. Fenlon will entertain at cards tonight in compliment to Mr. and Mrs. Thomas Hamilton, of New York city. The social events among the younger set included a camp party given by Harold Hoag at "The Pines," where he entertained thirty-four guests; a bungalow party at the Kerns camp, on Spring creek, where Edward Kerns and Cameron Heverly were hosts for a party of fourteen; and Mrs. Charles E. Dorworth's annual picnic party at Hecla, at which her Sunday school class of fourteen of the younger girls will be her guests.

STATE-AID ROAD MONEY.

Amount Due Centre County as Reported to Borough Council.

A communication from the Centre county commissioners was read at the regular meeting of borough council, on Monday evening, stating that Centre county's portion of State-aid money due from the State for highway construction is \$38,887.09, which amount, when the funds are available, can be applied to the extent of not more than fifty per cent. of the actual cost of constructing certain highways in the county. The commissioners signified their willingness to co-operate to the extent of their proportionate share in the building of said highways, and the matter was referred to the Street committee and borough solicitor.

A communication was received from John G. Love Esq., secretary of the local board of health, stating that at a meeting of the board held on July 18th the salary of the health officer was fixed at \$35 per month and that of the secretary \$25 per month. Hereafter the health officer received \$10 per month and the secretary \$75 per year. The matter was referred to the Sanitary committee and borough solicitor to ascertain the legal right of the board to fix salaries.

A communication was received from the G. F. Musser company notifying council of the bad condition of the first floor in the Phoenix mill property. The matter was referred to the Water committee.

A written statement was received from the Water committee setting forth in detail the condition of the building at the old pumping station, and advocating the erection of a new building of such permanent construction as native gray limestone, with steel trusses and slate roof. Other members of council coincided in the recommendation of the committee that a new building should be erected to take the place of the present dilapidated structure, and the matter was referred to the Water committee to secure plans and estimates for a suitable pump house and report same at their earliest convenience.

The Street committee reported the receipt of \$20 for sewer permits and one dollar for cutting weeds.

The Water committee presented the report of the borough manager which included a check for \$79.62 in full for all 1921 water taxes.

The Fire and Police committee reported that all streets should be lined with white paint to show motorists just where to park and how to park. On streets that are wide enough the lines should be at an angle of forty-five degrees and on the narrower streets the line should run parallel with the curb. This opened up a general discussion on the parking situation, Mr. Cunningham stating that all parking should be prohibited for at least a space of fifty feet in front of hotels. He also called attention to the fact that several auto owners on South Potter street are using that thoroughfare as a garage to the detriment of regular traffic. The entire matter was finally referred to the Fire and Police committee.

Regarding the carting away of garbage the Sanitary committee reported only one inquiry. Mr. Brouse was of the opinion that council should not shoulder the burden of arranging for garbage disposal, leaving the matter up to the individual and draymen. The matter was left in the hands of the Sanitary committee.

Mr. Cunningham stated that residents of Halfmoon hill are complaining because the old steps have been torn away and no walk constructed to connect with the concrete steps constructed by Haupt & Brown. The matter was referred to the Street committee with power.

Mr. Hazel again called attention to the fact that property owners on Logan street have made no effort to repair their bad pavements and a motion was passed instructing the Street committee and borough engineer to go on the ground, condemn the pavements and then serve legal notice on property owners to repair or rebuild same within ten days.

Regarding the offer of D. A. Barlett and Fred Herman to contribute fifty dollars each towards the extension of the sewer to their properties on East Curtin street, council decided to accept the offer and authorized the Street committee to put down the sewer.

Complaint was made that a few property owners on Curtin and Beaver streets had failed to cut their weeds and the matter was referred to the Street committee.

At this juncture the disorderly conduct ordinance was read for the second time, following which Mr. Fauble stated that he wished to go on record as opposed to the passage of the ordinance. He stated that he had gone over it pretty thoroughly and was unable to find anything in it that is not already covered either by State laws or ordinance, the only difference being that the offense is called by a different name, and he was opposed to calling a thing disorderly conduct when it isn't. On motion of Mr. Cunningham the ordinance was tabled for the present.

The Street committee reported that two bids had been submitted for the grading of Curtin and Wilson streets but inasmuch as council is not disposed to undertake the work this fall the bids were not made public.

Mr. Cunningham called attention to the fact that quite a number of water consumers outside the borough limits are owners of automobiles and should be assessed \$2.00 for garage purposes in addition to their \$12.00 annual water rental. A motion was passed

authorizing the Water committee to make the assessment.

Bills to the amount of \$1172.66 were approved for payment after which council adjourned.

Attention, Veterans!

The fiftieth anniversary of the organization of the Centre County Veteran association will be held at Grange park, Centre Hall, on Wednesday, September 5th. Dr. John M. Thomas, president of The Pennsylvania State College, and Dr. George Becht, State superintendent of public instruction, will be the principal speakers. Though our ranks are thinning and many of our members have answered the last roll call, we hope for as full a turnout as possible of our old comrades.

W. H. FRY, Secretary. S. B. MILLER, President.

Public Service Commission Here Today.

The Public Service Commission will hold a meeting in Bellefonte today to take testimony on the application of the Keystone Power corporation for the right of eminent domain through the properties of Sinie H. Hoy, of Benner township, and Clement Dale, of Houserville. The issue involved is the right of the Keystone Power corporation to construct their high power transmission line over the farms of the above two gentlemen. A recent act of the Legislature gives public utility corporations the right of eminent domain, subject, however, to the approval of the Public Service Commission.

Successful Girl Scout Camp.

The Bellefonte Girl Scouts returned last week from a two week's stay at Camp Philips, a regular Girl Scout camp where they were under the leadership of a capable director sent from national headquarters. The girls had a wonderful time, both in the water and out, besides learning much and passing tests toward their second class badges. Elizabeth Baney finished work for hers. Marie Chandler took eight tests, the largest number taken by any girl at camp; Mabel Poorman took six; Margaret Davis and Mary Curtin 5; Sarah Bullock and Lois Kurtz 4; Hilda Reed and Margaret Monsell 3; Anna Felmlee, Dorothy Wilkinson, Emily Wilkinson and Jean Blanchard 2; Margaret Hassinger 1; while Sarah Symmonds completed her tenderfoot test besides taking some of her second class work.

Mr. Francis Will Retain Farm in Benner Township.

The Hon. John Francis, the late superintendent of construction at the Rockview penitentiary, came from Pittsburgh last Saturday to superintend the packing of his furniture and personal belongings in the warden's residence at Rockview. The fact that he has retired from his penitentiary dreamland and entered the seething cauldron of Pittsburgh politics does not seem to lay heavy on his hoary head, as he is looking more contented and self-satisfied than ever. He has opened regular headquarters in Pittsburgh and will prosecute with vigor his campaign for the nomination for clerk of the courts of Allegheny county. Being a straight organization man he naturally feels confident of success, but one never can tell until the votes are counted.

Mr. Francis stated while here that he does not intend to dispose of his farm in Benner township, but will make that his country home to which he can come for rest and recreation whenever he feels like it.

Coast to Coast Air Mail Makes Record Time.

The Postoffice Department is this week making a trial of twenty-eight hour air mail service between the Atlantic and Pacific seacoasts. Ships left New York and San Francisco at eleven o'clock eastern time on Tuesday morning on the first trip but unfortunately a terrific storm west of Cheyenne held up the flyers long enough to interfere with their time schedule, but at that the ship from the west reached New York at 4:14 o'clock on Wednesday, only twenty-nine minutes late.

The first ship west bound was piloted by C. Eugene Johnson who flew from New York to Cleveland, stopping at the Bellefonte field. His scheduled time to reach here was 1:15 p. m., but he was one minute late in hopping off at Hazlehurst field and lost seven minutes in flight, so that he did not reach here until 1:23. During the nine minute stop he made here forty gallons of gas were put into the tank, two gallons of oil supplied and a leak in the radiator repaired. It was just 1:32 when he hopped off for Cleveland.

So far as the test has proceeded there is every reason to believe that the twenty-eight hour mail can be established as an accomplished fact. The speed of the ships is not any greater than in the regular air mail schedule, the reduction in time being made by night flying between Chicago and Cheyenne.

The east-bound plane yesterday was three hours ahead of time reaching Bellefonte, landing here at 10:19. The pilot changed ships here, the cargo of mail composed of nine pouches was transferred and he hopped off at 10:21, the stop taking up but two minutes. Every connection had been made along the route and the cargo of mail that put aboard the plane in San Francisco on Wednesday morning.

AUTO ACCIDENT PROVED FATAL

Toney Rodavich Died Sunday from Injuries Sustained Saturday Evening.

Toney Rodavich, for many years a faithful employee of the American Lime and Stone company, was knocked down and run over by a Ford car, on Saturday evening, sustaining injuries which resulted in his death at the Bellefonte hospital at 9:45 o'clock on Sunday morning. The accident happened about 7:45 o'clock on Saturday evening. Toney had just come down street with a clock under his arm that he had had repaired at Frank Galbraith's, stopped a few moments in Joe Thall's store then walked down street to Willard's and went out between two cars to cross the street. Unfortunately he stepped in front of a car driven by Isaac Stine, a young man of Coleville, was knocked down and run over. The driver of the car stopped within twenty feet and jumping out ran back to the prostrate man but others had already picked him up and he was carried to the office of Dr. Dale, who, finding his injuries quite serious, sent him to the hospital. The man had several bad cuts on the head, and injuries on his left leg and back. It is quite possible that his death was the result of concussion of the brain.

Quite naturally many stories were afloat in connection with the accident and upon the advice of district attorney James C. Furst an inquest was held on Monday before S. Kline Woodring, acting coroner. The jury empaneled consisted of C. L. Gates, George T. Bush, John W. Smith, John Justice, Charles Anderson and Malcolm Jones. Eight witnesses were heard and the evidence of all of them tended to show that Rodavich met his injuries and consequent death through his own contributory negligence and through no fault of the driver of the car, who was exonerated of all blame. Two of the witnesses testified that the young man was not going over fifteen miles an hour, and the only witness who actually saw the accident stated that it was entirely unavoidable.

Toney Rodavich was a son of Evan and Helen Rodavich and was born in Austria on December 31st, 1874, hence was 48 years, 7 months and 19 days old. He came to this country twenty-four years ago, coming almost direct to Bellefonte, and ever since had been in the employ of the American Lime and Stone Co. Of late he had been engaged in loading lime at the pike kilns.

Before coming to this country he married Miss Barbara Kopie who survives with nine children, namely: Mrs. John Cushing and Mrs. George Colvic, both of Bellefonte; Frank, Margaret, Catherine, Rose, Barbara, Steve and Clara, all at home. Funeral services were held in the Catholic church, of which he was a faithful member, at nine o'clock on Tuesday morning by Rev. Father Downes, after which burial was made in the Catholic cemetery.

Skull Fractured, Young Man Dies.

Sylvester Burket died at the Bellefonte hospital early Saturday morning as the result of a fractured skull sustained in an accident at the Chemical Lime company plant on Friday. A large stone thrown in the air by a blast came down on the young man's head causing injuries which resulted in his death.

He was a son of David W. and Jennie Burket and was born in Bellefonte on February 29th, 1905, hence was in his 19th year. While a boy his parents moved to Altoona but about a year ago he returned to Bellefonte and had since been employed by the Chemical Lime company. In addition to his parents he is survived by the following brothers and sisters: Mrs. David Rhoads, of Bellefonte; Mrs. Russell Matthews, at home; Mrs. Roy Glass, Mrs. Edna Kuhn, Mrs. Robert Holton, all of Altoona; Miss Elva, at home; Lee, of Wilkensburg; Oscar, of Altoona; Kenneth and Donald, at home.

The remains were prepared for burial and sent to Altoona on Saturday afternoon, funeral services being held in the Juniata church of the Brethren at 2:30 o'clock on Monday afternoon. Burial was made in the Grandview cemetery, Altoona.

Big Festival at Milesburg Tomorrow Evening by Wetzler's Band.

Milesburg will be the Mecca for many Centre countians tomorrow afternoon and evening when Wetzler's band will be the hosts at a baseball game in the afternoon, various races and a big festival in the evening and to cap the climax will give away a Ford touring car.

The ball game in the afternoon will be between Milesburg and Port Matilda. Residents of both places sit up nights bragging about their good ball players and are willing to pit them against any team in the county. Tomorrow afternoon the two teams will try their mettle against each other and it promises to be a diamond battle worth seeing.

The big festival in the evening, which will be held on the school house grounds, promises to eclipse any similar event ever held in Milesburg. The I. O. O. F. band, of Bellefonte, has been engaged to furnish the music and will keep everything lively during the evening.

Last but not least, will be the giving away of a Ford touring car. This in itself, should draw hundreds of people to the festival as everybody will be hoping to be the lucky individual.
