New Ford Models.

The first of the new type Ford cars, which recently arrived in this place are now on display at the show room of the Beatty Motor Co., Bellefonte, and State College Motor Co., State College, local Ford dealers.

The high radiator, now standard in all Ford types, has brought a general improvement throughout the entire line and the new radiator apron blending with similar apron effects on the fenders gives the front of the cars a highly finished appearance.

The touring car shows a decided improvement having a more stream-line effect. It is lower in appearance, a feature adding much to the attractiveness of the slanting windshield and one-man top.

The Ford runabout is likewise much improved and looks no sturdier. The coupe is entirely new in body design and construction. There is a more trim exterior appearance, more comfortable seating arrangement and greater luggage carrying capacity. From the dash there is a graceful sweep in the cowl to the radiator. The doors are wide and heavily framed. A larger compartment at the rear gives increased room for luggage and the new type rear fender is more secure. Ventilator in the cowl and a visor over the windshield add to the exterior appearance, effecting a high quality aspect.

Interior arrangement is most convenient and the upholstery is choice. The seat is deeply cushioned and the cushions are divided making it easy for filling the gasoline tank which is under the seat. A small recess shelf at the rear of the seat is handy for small parcels. The door windows are equipped with revolving type window regulators permitting any desired ventilation. Doors are provided with locks.

The higher radiator has greatly enhanced the beauty of the Ford four door Sedan. This car, highly popular since its introduction a year ago because of its low, graceful lines, now presents a more sturdy appearance.

Another feature coming as the result of the change made in the front of the car, including larger cowl, radiator and hood, is that occupants of the front seat are afforded more space, thus insuring added riding comfort.

Many other little improvements and refinements are noticeable, including revolving type window regulators for all door windows and a dome light for illuminating the interior.

Too many borough councilmen celebrated Labor day to get a quorum together for the regular meeting on Monday evening.

The week of October 22nd has been named as the date for the Centre county teachers' institute, which will be held in the court house, Bellefonte.
