Oscar Rishel, of Wilkes-Barre, was a visitor with his brother, N. J. Rishel, at this place, on Friday. Mr. and Mrs. Earl Ross, of near Linden Hall, were recent visitors at the W. E. Homan home, at this place.

Our Country Not Doing so Bad.

Here are ten production records that have been established in industry during the last few months: The largest pig iron production; The largest cotton production; The largest steel ingot production; The largest crude oil production; The largest automobile and truck production; The largest residential construction; The largest construction of locomotives; The largest volume of mail-order sales; The largest volume of retail sales; The largest volume of railroad car loadings; Important changes that have taken place in the United States since the pre-war year of 1913 are: The population of the United States has increased fourteen millions of people, with their enlarged requirements. The annual national income has increased from thirty-four billion to fifty billion. The aggregate savings deposits have increased from six billion to fourteen billion dollars.

Motor Safety Code.

In line with their safety campaign, the Chicago Automobile Dealers' Association has issued the following code of rules for pedestrians: 1. Be on the alert at all times. 2. Don't be in a hurry to cross the street. Wait until the road is perfectly clear of traffic. 3. Remember that it is better to be a few minutes late than to never arrive at all. 4. Don't cross the street in the middle of the block. 5. Don't dart out from in front or behind a car parked at the curb. 6. Don't depend upon the motorist to see that he does not hit you. This is a fifty-fifty proposition. Don't "stargaze" while crossing the streets. 7. Remember that you have your share of responsibility in the present safety campaign. 8. Also remember that the court does not always decide in favor of the person injured. A great many times his injuries are due to nothing more than his own carelessness.

SIX HUNDRED MILES OF ALPS.

It takes an express train five hours to travel from Lucerne to Como, or from Lausanne to Arona. When, therefore, Edward Whymper, the hero of the Matterhorn, described the Canadian Rockies as fifty Switzerlands thrown into one, this certainly was no exaggeration. The Canadian Pacific Rockies stretch from the Gap practically to Vancouver—nearly six hundred miles of Alpine scenery. Snowy peaks, glaciers, rugged precipices, waterfalls, foaming torrents, canyons, lakes like vast sapphires and amethysts set in the pine clad mountains—these have been flung together in unparalleled profusion on a scale which Europe has never known. The Canadian Pacific route through these mighty mountain ranges is in itself a visualization of human triumph over nature. From Calgary, to which it has been steadily climbing since it left Lake Superior, it climbs another three-eighths of a mile to the Great Divide. Thence, following the narrow Kicking Horse Pass, it dips down to meet the already majestic Columbia river on its way north in a big horseshoe bend; then it recends another quarter of a mile to the summit of the Selkirk Range before beginning its three-quarter mile drop to the Pacific. The Spiral Tunnels through the Kicking Horse Pass, the Connaught Tunnel through the Selkirk, the engineering feats of a magnitude matching the apparently insuperable obstacles opposed to the passage of the railway.—Ex.

355 Training as Teachers at State.

The new School of Education at the Pennsylvania State College has justified the recommendation of president John M. Thomas for its organization last summer, for it has a total enrollment of 355 students, all of them preparing for positions as teachers.

College enrollment figures, just announced show that the new school ranks fourth in the matter of enrollment in the six undergraduate schools of the college. Engineering, liberal arts and agriculture are the only schools with greater enrollments. The new school gives courses in agricultural education, home economics, teacher training and vocational home economics, and is the result of combining these previously existing departments. Dean Will Grant Chambers states that there is an almost even distribution of students in the four classes. There are 73 seniors, 91 juniors, 95 sophomores and 96 freshmen. The entire college enrollment this year will reach 3200, it is thought.

College Beef Herd Wins Honors at Syracuse Fair.

That the beef herd at The Pennsylvania State College is one of the best in the east is evident from the prizes awarded to the herd at the New York State fair at Syracuse. The grand champion steer of all breeds, a junior yearling Angus, came

from the College herd. This animal also captured a blue ribbon in the junior yearling class and won the money offered in the Aberdeen Angus special class. The other winnings of the herd were: Second on senior yearling steer; second on steer herd; third on senior steer calf, and third on senior yearling heifer.

Penn State Emergency Fund now \$1,335,000.

The emergency building fund campaign started last fall by The Pennsylvania State College, after a practical stand-still during the summer months, is becoming active again in various parts of the State where alumni are endeavoring to complete the work by the first of the new year. A total of \$1,335,000 has been achieved towards the goal of \$2,000,000 for student health and welfare buildings. More than half of this has been pledged by alumni and the students in college last year. The balance came from over 10,000 friends of the college, a majority of them potato growers, poultrymen, livestock raisers, dairymen and other farmer friends of State College. These groups are still contributing to the fund. Construction work on the first campaign building is progressing rapidly. It is a men's residence unit to be known as "Varsity Hall" and will be under roof before snow flies.

—American tourists will spend \$700,000,000 in Europe this year.

MEDICAL.

Of Local Interest

Some People We Know, and We Will Profit by Hearing About Them.

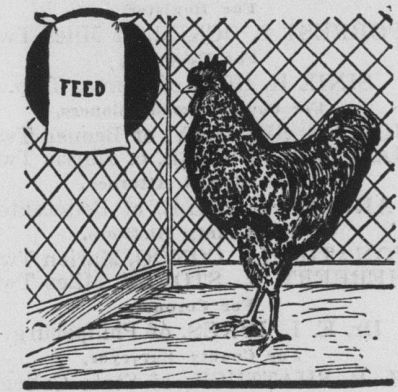

This is a purely local event. It took place in Bellefonte. Not in some far away place. You are asked to investigate it. Asked to believe a citizen's word; To confirm a citizen's statement. Any article that is endorsed at home is more worthy of confidence than one you know nothing about, Endorsed by unknown people. H. C. Young, S. Water St., Bellefonte, says: "Some time ago I was in a bad condition with kidney trouble. My back ached and gave out so I couldn't do a day's work. I was a constant sufferer. When I stooped I had dizzy spells and a swimming sensation in my head. My kidneys acted irregularly. I read of Doan's Kidney Pills and used them, getting my supply at the Parrish Pharmacy. They soon fixed me up in good shape. The aches and pains left. The dizziness didn't trouble me and my kidneys were regulated." 60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 68-39
