As they neared the railroad crossing Mr. Lobb's vision was obscured by the bright headlights of cars going in the opposite direction, and he failed to see or hear the train, which was running behind schedule time. The pilot of the engine struck the front of the automobile just as it covered the track.

The machine, a big King Eight car, was thrown about fifty feet and completely wrecked. The train was stopped as quickly as possible and train crew and passing pedestrians gathered up the dead and injured and conveyed them to the Cottage State hospital. Mrs. Lobb was dead when they reached there and physicians stated that she had probably met instant death. The little boy died about midnight. While all the others are painfully injured hospital authorities expect them to recover.

AMONG THE HUNTERS.

A Small Fortune Spent on the Trail of Deer.

Almost six thousand hunting licenses were issued in Centre county this year which means a preliminary expense of practically \$6,000 before the army of hunters start for the woods, and with this figure as the basis of calculation the man with a statistical mind might be able to figure out what the people of Centre county have paid this fall for a few weeks of the sport of hunting. And should he succeed in day in the stores of Altoona, doing their doing so we feel confident that the Christmas shopping. total would be of such magnitude as to make the old-time hunter gasp with astonishment.

Twenty-five and thirty years ago hunting parties consisted of from six to eight men, all expert in following the trail, and about all they took to camp was plenty of bread, bacon, sausage, a ham or two, some potatoes, and plenty of coffee. But today it is different. Take the Fisher party, of H.
