Buy Your New Ford Now.

Important among other indications that the new year will see a vastly in-creased demand for automobiles is the "Buy Now" campaign which has

tached to this, coming as it does at the very start of the year, for no company in the industry is better situated to sense future conditions in the motor car field nor keep more closely in touch with the temper of the mo-

Even with that deliveries were extremely slow.

were extremely slow.

In this connection an interesting feature is the already noticeable increase in enrollments under the Ford weekly purchase plan. More than 200,000 have enrolled, for everywhere more and more using the plan as a sure means of arranging car delivery sure means of arranging car delivery at the time desired and as a result there has been a noticeable growth in the number of enrollments, particu-
