Regarding Automobile Operator's Licenses. Benjamin G. Eynon, registrar of motor vehicles, announced last Saturday that application blanks for 1924 operators' licenses can be secured from dealers in motor vehicles, local offices of the State Highway Department and superintendents, justices of the peace and similar officers. "Every effort possible is being made by the Automobile Division to see that operators of motor vehicles make early application for their 1924 operators' licenses so they will not be apprehended by the motor patrol on and after March 1st, 1924," said he. "Many motorists do not know that 1924 license tags and automobile certificates do not carry with them the right to operate their motor vehicle. Separate application must be made for license to operate on department form 103 at a fee of \$1.00. This blank need not be sworn to if applicant is the holder of a 1923 license to operate."

Rev. Bright is a native of this place and his many friends are always delighted to meet him. He is a remarkable man for his age. Though being blind of one eye and the other one failing, he has made a wonderful record. During this winter he has made a tour of visiting, having been in Rhode Island, New York, Maryland, New Jersey, Massachusetts, and many towns and cities in Pennsylvania. While he has now reached the advanced age of seventy-nine years, he is still alive to many good works in keeping with his ministerial life. May he live many years longer to exert his great power for good which he has always done.

"Is pants singular?" "If a man wears them it's plural." "Well, if he doesn't—?" "It's singular."

Famous Diamond, "Princess Mary," Bought by an Englishman.

Carried to England from Russia at the time of the Bolshevik revolution, the mystery diamond known as the "Princess Mary" has at last changed hands, the purchaser being a resident in the north of England. The price paid has not been divulged, but its late owner, Gordon Nathan, last year withdrew the diamond from auction, as the highest bid did not reach \$10,000. The diamond is a stone of yellow tint, with a Maltese cross on the back, and was named the "Princess Mary" because before her wedding a proposal was made to present the stone to her. It weighs 44 karats and is thus almost as large as the famous Hope diamond. Mr. Nathan thinks the value of the stone will appreciate, and says: "So long as the currencies of Europe continue to fluctuate, diamonds will remain the safest investment. Diamonds I sold 25 years ago at \$80 a karat are today worth \$350 a karat. I don't know of anything else which has increased in value to that extent."

Blowing Out Devils. In Zululand, South Africa, native doctors collect rich fees by blowing into the ears of their patients to cast out evil spirits. The medicine man seats the victim on the blanketed floor of the outdoor surgery, after announcing that he is to dispel the wicked demons causing sickness. He places a horn to the patient's ear and blows. The ill one generally makes a bad face, cries "enough," and, being convinced that he has been cured, is troubled no more. In severe cases herbs are used as a remedy, when the horn is not effective.—Popular Mechanics Magazine.
