Miles E. Ethers, Howard, and Grace A. Lyons, Curtin.
John Japko and Mary Welschko, Munson.
Irvin E. Knepp and Clara E. Houtz, Lemont.

Water Lily Eighteen Inches Across.
Perhaps the most remarkable of the aquatic plants is the giant water lily known to science as the "Victoria regia." It is a native of Guiana and Brazil. Large, spreading leaves seem to float on the water, though in reality their vast green surface is supported by a strong underwater framework of twisted tissues. The leaves, which are often over six feet in diameter with a rim of three to eight inches high, can support considerable weight. The plant bears immense white flowers, often measuring 18 inches across, which greatly resemble a huge daisy. They open in the evening. The seeds of the Victoria regia are edible. For this reason it is extensively cultivated in the Amazon valley.—Detroit News.

She Might Be Right.

"Children do make the most amusing errors," chirped Miss Amanda, a school marm of the old school. "I requested my children to state in writing what sort of houses they live in. This little girl says she lives in a compartment house. What a quaint mistake, to be sure."
"I wouldn't be too quick about calling that a mistake, Miss Amanda," counseled a younger teacher. "At least I would inspect the house before marking that little girl's paper."

Sure Sign.

Samuel, at the ribbon counter, noting that the floorwalker was wandering through a maze of refrigerators called over softly to Johnette amid the hosiery.
"Hey, dearie!"
"Yes?"
"I think Haroldine is seriously in love this time."
"Impossible," said the other.
"Fact, dearie. She has cut out all but three fellas."

Takes What She Can Get.

"Darling!" exclaimed the happy husband after the minister had pronounced the fatal word, "I am not worthy of you."
"Of course you are not," she replied, "but after a girl has celebrated her twenty-fifth birthday for five consecutive years she can't afford to be too particular."

Migratory Habit Still Exists With Americans

A young man in Europe looks forward as a rule to spending his life in the city of his birth and, very likely, in the profession or business pursued by his father. But in the United States, for 200 years, a large part of each generation has moved West and created new homes for itself. Nothing could more effectively foster individualism of the type advocated (and typified) by Herbert Hoover.

This migratory habit persists to the present day even when it has lost much of its economic justification. Americans are forever on the move; the man who lives in the house where he was born is almost a curiosity.

The sense of transience thus created leads also to a certain looseness of community organization, and specifically to a toleration of corrupt practice in business and politics. The mayor of your town may be a boodler; but after all, since you are thinking seriously of moving to Austin, Tex., next spring, what does it matter?

The departure from the old Americanism which was created so largely by the existence of the frontier, has naturally gone further in the Eastern states than in the West, which is, even today, much closer to pioneer conditions. As regards the career of the young man, for example, New England today resembles France more nearly than the Far West.

Beyond the Mississippi, eyebrows are still raised when young George elects to settle down in old George's business instead of striking out for himself. In most Western communities any healthy man who elects to live on his income without working at something will find himself most unhappily isolated—so much so, indeed, that almost invariably he is forced to flee to New York or Paris. When he does this he finds himself for the first time placed in a society which demands from him a definite degree of sophistication.—New Republic.

No Venomous Snakes on the Isle of Pines

There are no venomous reptiles or insects on the Isle of Pines. There are four varieties of the smaller snakes. The most formidable reptile is the maja—a constrictor. One of the largest known specimens perhaps is the one killed near Nueva Gerona some years ago in a manger while enjoying his siesta after having dined upon a brooding hen and her eggs.

It measured twelve feet in length and was approximately six inches in diameter except through the part distended by the hen. Its skin, cured, looked like the souvenir of some heroic encounter, but the truth is that the noncombative nature of the maja is so ridiculously at variance with his dreadful aspect that his name is applied as a term of contempt to blusterers and swaggers. Dr. Luz Hernandez in his book, "The Salubrity of the Isle of Pines," recommends the white meat of the maja to his patients.

The lacertilla are represented by a few harmless lizards, a plenty of pretty chameleons and a variety of the iguanas, rarely seen, whose flesh is esteemed as a food. Specimens have been found three feet in length, but its innocuous nature is evident from the fact that it makes a very well-behaved family pet.

Don't Shed Tusks

Among the Indian or Asiatic elephants only the male has the tusks, but they are found on both the male and female of the African species. Sometimes these tusks weigh from 150 to 200 pounds.

The tusks of the elephants are merely projections of the incisors of the upper jaw and are never shed, although they are sometimes broken off. In other words, the tusks are part of the elephant's teeth. However, the milk teeth, which precede the tusks, come out at an early age.

The tusks of the elephant supply the ivory which is so highly esteemed the world over for ornamental purposes.—Detroit News.

From X to O

A colored mammy came into the office of the estate for which she worked to receive her monthly wages. As she could not write, she always made her mark on the receipt—the usual cross. But on this occasion she made a circle.

"What's the matter, Linda?" the man asked. "Why don't you make a cross as usual?"

"Why," Linda explained earnestly, "Ah done got married yesterday and changed mah name."—Dry Goods Economist.

Expensively Good

A matter-of-fact father of an embryo poet handed some of the lad's efforts to a distinguished author of verse, and asked for his opinion.

"Well, what's the answer?" queried the successful stockman.

"Alas!" sighed the real poet, "those things are so good, I'm afraid you'll have to support Henry the rest of his life."—Writer's Monthly.

Walking Again

John—I hear Charlie's on his feet again.
Mach—Yes, poor boy, his creditors took his car.—Boys' Magazine.

Scraped It Off

Crimp—Aren't you losing flesh late?
Stimp—What's the trouble?
Stimp—I bought a safety razor last week.—Boys' Magazine.

RADIO PROGRAMS

Monday, February 18, 8 p. m.—Music by Penn State Mandolin Quartet; Farm and Garden Night—"Community Organizations in Pennsylvania," by R. H. Bell; "Caring for the Spring Lamb Crop," by W. L. Henning; "The School Lunch for Health," bi-weekly home economics talk by Miss Helen Rogers.

Wednesday, February 20—Music by Penn State student orchestra; "What is Industrial Engineering?" by J. O. Keller, of the college industrial engineering department; "How Modern College Students Govern Themselves," by D. V. Bauder, president of the Penn State student board and council; musical program by orchestra, followed by a one-act play staged by "The Penn State Players," student theatrical organization, "The Importance of Being a Roughneck."

Candidate Holmes Has Been Seen.

The committee authorized at the Centre County Citizenship Conference to interview candidates for the Legislature visited Mr. John Laird Holmes, of State College, who has announced himself as one. He satisfied the committee as to his attitude upon dry enforcement measures, favoring laws strengthening the 18th Amendment.

Too Busy Giving Advice.

Governor Pinchot, who has just explained four ways of helping the farmer, would find greater favor if he would demonstrate even one way of helping the consumer of anthracite, which is a Pennsylvania monopoly.

—It will be worth the price of admission to see Chairman Baker draw the halter on Pinchot if he threatens anything during the convention.

Two Weeks-Ahead Program

SATURDAY, FEBRUARY 16:
BUCK JONES in "NOT A DRUM WAS HEARD," is a good little western picture with an appeal running through it. Cowboy and his pal fall in love with same girl. Pal gets her and later tries to save him from murder for her sake. Also, 2 reel Century Comedy.

MONDAY, FEBRUARY 18:
THEO KOSLOFF in "CHILDREN OF JAZZ," a six reel comedy melodrama with Ellen Percy, Alex Francis, Frank Currier and others. A jazzy, peppy play all through that will interest most everybody. Some spectacular stuff and many varied scenes. Also, Pathe News and Review.

TUESDAY AND WEDNESDAY, FEBRUARY 19 AND 20:
CONSTANCE TALMADGE in "DULCY," is a seven reel story of a heroine who thinks she is a clever business woman meddles in her husband's affairs but puts her foot in it and spoils some deals. She leaves her husband but in the end is forgiven. Also, 2 reel Century Comedy.

THURSDAY, FEBRUARY 21:
WALLACE REID in "CLARENCE," is a wholesome seven reel comedy drama by this late star in which a whole lot of romance comes, and is a feature that will please everybody. Also, Pathe News and Review.

FRIDAY, FEBRUARY 22:
BOY STEWART in "PURE GRIT," a story of a romance of a Texas ranger and girl he rescues from impostor. Has a few thrills where heroine is rescued from runaway and a fight. Also, 12th episode of "THE STEEL TRAIL."

OPERA HOUSE.
FRIDAY AND SATURDAY, FEBRUARY 15 AND 16 (Saturday Matinee at Scenic).
CULLEN LANDIS in "PIONEER TRAILS," is a seven reel melodrama, with Alice Calhoun, of days of '49, and will please all who like good scenery and acting. Also, 2 reel Comedy.

FRIDAY AND SATURDAY, FEBRUARY 22 AND 23:
HAROLD LLOYD in "GRANDMA'S BOY," is a scream of a comedy of how a coward was made a hero by aid of a fetch. Also, Semon Comedy. Saturday Matinee at Scenic.
