Today Centre county owns a hospital, the grounds, buildings and equipment of which could not be replaced for \$85,000.00. It has enough resources invested to pay every dollar of indebtedness it has. And yet no one can recall any drive ever having been made to make this achievement possible. There have been benefit entertainments and catch penny schemes galore, and sporadic gifts, but never an organized campaign to raise funds for it. The hospital is the only public institution we know of in who were in Bellefonte between trains on this community that was started on nothing, has continuously given service, and can say to the people of Centre county: I am yours. I'm worth \$85,000 and so far as having been a drain on you is concerned you scarcely know where I came from.
