

MIGRANTS.

The birds set forth on their migrant flight. A living cloud on the darkened night; So swift their pace as they hastened on The world rolled under their echelon. They steered with never a guiding line But found their way by a chart divine. A wondrous map that their fathers knew When earth was young and the first birds flew.

A lighthouse stood on their pathway clear. A man-made warning of danger near; The rays with a blinding brilliance shone For perils never a bard had known. They breasted the storm and sea in vain To dash their wings on the lighthouse pane.

Poor feathered fools—they were not to blame; The migrant angels have done the same.

GRAIN CONDITION LOWEST IN 6 YEARS.

Harrisburg, Pa.—The condition of winter grains and pastures in Pennsylvania is the lowest this spring for and April 1 period during the last six years, according to the monthly crop report issued by Paul L. Koenig, agricultural statistician for Pennsylvania. He said the winter weather, until the last week of February, was not favorable to the best interests of grain growers in this State, but that March conditions were more favorable because of the protective snow covering which served to check any further damage from alternate freezing and thawing.

On April 1 the wheat crop was estimated to be 83 per cent. normal, as compared with 84 per cent. in April, 1923, and 88 per cent. the average condition for the past ten years. It was announced the principal factors responsible for the low condition were dry weather last fall, the consequent late seeding, and the lack of snow covering when the crop most needed protection. The condition of wheat in the entire United States on the same date was 83 per cent. normal, compared with 75.2 last year and 82.5 per cent., the ten-year average for April 1st.

The condition of rye on April 1st was 86 per cent. normal as compared with 89 per cent. last April, and 90 per cent., the ten-year average for conditions on the same date. While it was considered early to gauge the actual condition of pasturage, and in many cases snow prevented an accurate report, the condition was reported as being 82 per cent. normal.

It is estimated there are 129,000 breeding sows on Pennsylvania farms as against 137,000 on April 1 last year, a reduction of 6 per cent. In the United States, there are 11,751,000 breeding sows, or 89 per cent. of the number in 1923.

The farm labor supply was reported as 79 per cent. normal in Pennsylvania on April 1, and the demand 89 per cent. normal, the supply therefore being 89 per cent. of the farmers' needs. Average wages paid by farmers were reported to be \$39.50 per month with board, \$59.00 without board.

Why She Wept.

"Let me kiss those tears away, sweetheart," he begged tenderly. She fell into his arms and he was very busy for a few minutes. But the tears flowed on. "Can nothing stop them?" he asked breathlessly.

"No," she murmured, "It's hay fever; but go on with the treatment."—Everybody's Magazine.

Her Number!

On his tour of the district an inspector of city high schools came before a class of girls. He wrote upon the blackboard, "LXXX." Then, peering over the rims of his spectacles at a good-looking girl in the first row, he asked:

"Young lady, I'd like to have you tell me what that means."

"Love and Kisses," the girl replied.

The Other Fellow.

"I hear you've had a fight with the Brown boy. Didn't I tell you I'd punish you if you fought again?" asked the father sternly.

The son looked up nonchalantly. "Dad, you'd better take a look at what I did to that Brown kid before you start anything," warned the youthful warrior.—Everybody's Magazine.

Eggs Drop so Cheap Farmers Wont Waste Time Gathering Them.

Mayville, Ky.—Eggs have become so cheap in this section that farmers have quit taking time from their planting to gather them, according to reports. When the quotation dropped to 10 cents a dozen farmers began giving them to produce drivers if they would gather them.

MEDICAL.

Get at the Cause!

Many Bellefonte Folks are Showing How to Avoid Needless Suffering.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys—have brought peace and comfort to many Bellefonte people. Profit by this Bellefonte resident's experience:

Mrs. Mahala Kreps, Phoenix Ave., says: "My kidneys were in wretched condition and I suffered a lot with dull, nagging backaches. At night the pains were so severe I couldn't rest. My kidneys acted too often and I had dizzy spells and headaches. Doan's Pills helped me from the first and four boxes cured me. I have had no return of the trouble."

Care of the Feet

Foot Trouble is Unnecessary, unless caused by some Physical Ailment.

The trouble with the average person is that they do not give foot trouble the proper attention. Ill-fitting shoes usually cause foot trouble—and fitting feet is a profession. Thirty-seven years at the game of fitting feet eliminates all guess work as to our proficiency in that respect. Mr. Wilbur Baney, our clerk, has had twenty-five years experience. We do not guess. We know how to give you the proper size, and the kind of shoes that your feet need.

The Next Time you are in Need of Shoes, and your Feet are in Trouble—try Yeagers
