PLEASANT GAP.

It is your own fault, not the dogs nor tramps, if these pests visit you too frequently.

Russell Grove, of Lemont, has been visiting his grandma, Mrs. John Herman, the past week; a portion of his time being spent along the trout streams fishing.

Our efficiently managed tea room, adjacent to the postoffice, is now prepared to serve meals at all hours for tourists and the public generally. A capital idea since our hotel is a thing of the past.

It matters not of what people accuse you, you are not justified in hold-ing them in contempt, because that is a propensity of vicious minds, and dial way. Speaking and reciting are therefore cannot be assumed in demonstration of superior virtue.

Our postoffice still exists and our friend, George Showers, is the newly appointed postmaster. We are all satisfied that our new government of- pleases, and either restrain them from ficial will render the best of satisfaction to all the patrons of the Pleasant Gap postoffice.

People knowing their own little-ness, and surfeited therewith, cannot bear with the weaknesses of others but seek in them something better and therefore something that will strengthen instead of impair their little remaining strength.

We had a slight frost on Monday morning but from personal observation little damage was done. The plum and cherry trees are out in blossom, but the outlook for peaches in this vicinity is not very encouraging. However, they may recuperate some, as the season is about three weeks later than usual.

Billy Ross says some men would like to make sausage out of their wives, and some want to eat them raw; the same class make bologna treasured in the memory. The orator out of dogs, and corned beef out of horses and sick cows, hence it is that corpse come in play from the people who eat the production. Yes, we have a wonderful country.

Prof. Treister's High school and Harry Breon's grammar school closed last week. Our three other schools will close in a few days. Two of our teachers, Harry Breon, and that most superb primary teacher, Mrs. Grove, formerly Miss Barnhart, have each taught 24 years consecutively. Like Bourbon, they seem to increase in efficiency as time rolls by.

I was just thinking what wonderful changes take place in even a half cen-tury of time. About sixty years ago that good old citizen, the late Henry Brockerhoff, dealt rather largely in whiskey in a wholesale way. French-ville and a number of Clearfield towns were regularly supplied by him. I noticed time and again when large shipments were received that ofttimes the barrels parked reached from one end of the Brockerhoff block to day guests of Miss Edna Rodgers, the other. I remember well when the who is here again after teaching a barrels lay there for a few weeks at a time unguarded and unmolested. If such were the case now in this Volstead age how much would be remaining the morning following the day it was placed there? Echo answers none. Our present generation boast in this instance is verified-we are surely growing "weaker and wiser."
