E. Reed, at Rock Springs. She has made arrangements to enter the Huntingdon High school at the opening of the term in September.

The big storm of Saturday night badly disarranged the telephone service in this locality, so that we were practically isolated from the rest of the world. A large number of trees were uprooted and blown down and the rain descended in torrents, washing fields and roads. Quite a number of little chickens drowned in the high water. Many men worked on Sunday cleaning up the debris and putting the roads in passable condition.

Hon. J. Will Kepler and Dr. R. M. Krebs drove down the pike in a carriage and single driver on Tuesday and returning home they were the victims of a collision between their rig and an automobile with a woman at the wheel. Their vehicle was upset, both men were thrown out, the horse knocked down, harness torn and carriage considerably damaged. Fortunately the men were not seriously hurt but were compelled to walk back to town, leading the horse.

The Baileyville sportsmen's club held their second meeting last Thursday evening. The principal object the organization hopes to accomplish is the protection of small game. Rossman, president; Randall Rossman, secretary, and Cyrus Powley, treasurer. The organization starts out with a membership of thirty enthusiastic sportsmen. Regular meetings will be held on the third Thursday evening in each month.

Several weeks ago we advised the young people to keep an eye on the list of marriage licenses but our advice came to naught for the young couple we had in view, namely Willis Weaver, son of Emanuel Weaver, of Baileyville, and Miss Orpha Judy, daughter of Mr. J. T. Judy, of Pennsylvania Furnace, evaded their friends and on Monday, June 23rd, motored to Cumberland, Md., where they were united in marriage. They went to West Virginia on a honeymoon trip. The bride is one of the most popular of the younger set in her home locality while the bridegroom is proprietor of a flourishing garage and well able to provide "all the comforts of home." May happiness and prosperity be their portion through life.

Guests present included Mrs. E. R. Lucas, Mrs. George Rodgers, Mr. and Mrs. Harry Hoy, Mr. and Mrs. George Ertley, Mr. and Mrs. Linn Ertley and three children, Isabelle, Violet and Rosella; Mr. and Mrs. Nevin Yearick and daughter Norma, Mr. and Mrs. Elmer Swoope and children. A path of wreckage marked the progress of last Wednesday's high wind storm through this section of the county. In fact it was more like a tornado or huge whirlwind than the customary eastern storm. The big barn on the farm of W. E. Weight, a mile and a half south of Jacksonville, was completely wrecked, as well as all the outbuildings, and a peculiar thing about it is that each building was apparently blown in a different direction. The barn was literally lifted from its foundation, shoved toward the east and settled down over the stables, badly demolishing them. How the horses escaped being killed is a mystery though some of them were hurt bad enough to require the services of a veterinarian. The only livestock lost were two pigs and a few chickens. The poultry house was lifted from its foundation and smashed to the ground in splinters. The garage was overturned and a Buick touring car was treated likewise, while the Ford runabout was blown backwards out of the garage. Neither car was much damaged. The chimneys were blown from the roof of the house and trees and fences were leveled. Mrs. Weight was out in the yard when the storm broke. Two of the sons, George and Floyd, were in the barn and the rest of the family in the house. Mrs. Weight was compelled to cling to a clothes line post in order to keep on her feet while the first thing the boys in the barn saw was the chicken house being smashed. Then they felt the barn give and timbers began to fall all around them. How they managed to get out of the barn they were unable to say but they finally got to the house, though George got a bad bump on his head and shoulder from falling timbers. Mr. Weight estimates his loss at about five thousand dollars. Contractor Dye, of Bellefonte, is in charge of reconstructing the buildings, work on which was begun at once. The barn on the Pifer farm was also more or less damaged.

5,000,000 Pounds of Copper Used in Radio.

A recent survey of the radio industry disclosed that 5,000,000 pounds of copper have been consumed in the United States on the 2,500,000 radio sets now in use.

The survey which was made by the Copper and Brass Research Association, indicated that the number of radio sets in use would rapidly increase to equal the number of automobiles and telephones now in use. This, it was said, was likely to occur in the next five years. In such an event 5,000,000 pounds of copper would be used annually.

Smokestacks from old battleships are being used in Philadelphia for garages.

MEDICAL.

Work Wearing You Out?

Bellefonte Folks Find a Bad Back a Heavy Handicap.

Is your work wearing you out? Are you tortured with throbbing backache—feel tired, weak and discouraged? Then look to your kidneys! Many occupations tend to weaken the kidneys. Constant backache, headaches, dizziness and rheumatic pains are the result. You suffer annoying bladder irregularities; feel nervous, irritable and worn out. Don't wait! Use Doan's Pills—a stimulant diuretic to the kidneys. Workers everywhere recommend Doan's. Here's a Bellefonte case:

Mrs. Howard Shuey, S. Water St., says: "My back ached so I couldn't get a night's rest. My work tired me out and I often had to neglect it. I was hardly ever free from headaches and dizzy spells and my kidneys didn't act right, either. Doan's Pills from the Parrish drug store stopped the backaches and other signs of kidney trouble."
