FROM COAST TO COAST. Interesting Trip of the Emerick-Crawford Party on Motor Ride Across Continent.

On Saturday, June 14th, Mr. and Mrs W. J. Emerick and son Paul and Mr. and Mrs. Frank M. Crawford left Bellefonte in the former's Hudson car for a motor trip to the Pacific coast and the following very interesting letter recounts their experiences:

We did not take the mule trip down the gorge as some of the party did not feel equal to the task of riding a donkey from 8 a. m. to 4 p. m., while Mr. Crawford was afraid his feet would drag on the ground and Mr. Emerick could not find a donkey his size. The only places we stopped were at Kingman and Needles, where we stopped at the hotels to eat and drink ice water. We were all glad, however, when we reached San-Bernardino. We spent a day or two in that section, motoring through Riverside and Redlands and visiting various orange and gruit groves. We bought oranges for five cents a dozen, apricots twenty-five cents a peck and lemons five cents a dozen. There are seven thousand car loads of lemons now in storage in California, and the trees are now full as they can hang, with bushels going to waste on the ground.

Our next stop was at Pasadena, where we visited the only ostrich farm in the United States. Promptly the ladies wanted to invest in plumes but the male members vetoed the proposition. Leaving Pasadena we motored through Los Angeles to Santa Monica, on the beach, which is a beautiful place. There we met Bob Budinger, formerly of Snow Shoe, and Lew Bullock, of State College. Budinger is in the real estate and contracting business and has built some of the finest bungalows to be found in the State. Bullock has a big garage in the centre of Los Angeles and is doing fine.
