Planning for Another Classic in Altoona.

The stage is all set for the second of the two annual speed classics to be held during the 1924 season on the famous Altoona speedway. The first of the renowned drivers of the world to send in his entry blank was Tommy Milton, who officially signed Monday for the 250-mile championship event to be held on Labor day, September 1st.

Corps of workmen have been laboring since the June 14th classic to prepare the improved road system within the huge oval and in making the extensive improvements to the grandstands and other structures which were delayed by the unseasonable rains prior to the first of the season's two great events.

The speedway management has completed arrangements for two larger automobile roads outside the big racing plant, and fifty-foot parking road within the safety fence to give spectators every facility for getting in and out of the bowl easily. Changes to the mammoth main grandstand, which seats 12,000, scheduled to be completed in early spring, will be finished, and the entire infield paddock graded and sodded.

—The extremely wet weather played havoc with the strawberry crop in Centre county this summer. The crop was a bumper one but the hard rains spoiled much of the fruit. One grower claims he lost at least one hundred crates because of the rain, and as berries brought from \$4.00 to \$5.00 a crate his loss alone would be considerable. Other growers also lost heavily. Many of the early cherries were also damaged by the wet weather, one farmer losing his entire crop of oxearts, though the late cherries were not so much affected.

Almost Six Tons of Wool Clipped in Centre County.

The Centre county Wool Grower's association, in co-operation with the Farm Bureau, sold this year 11,923 pounds of wool. This was 900 pounds more than last year. The wool was graded into two grades, No. 1 and rejections. Rejections included burry, seedy, chaffy, dead wool and that tied with other than paper twine, but in the latter case the twine was changed. Side twine leaves strands in the wool which cannot be carded out and will come out in the fabric, making a defective piece of cloth.

Last year there were 398 pounds of rejections as compared with 1852 pounds this year. The percentage has increased instead of decreased as it should have done. Practically all rejections were for chaff and seeds which could have been avoided by a little care in feeding and handling of the wool. There is a difference of six cents per pound between rejections and No. 1, which would more than pay for the little special care.

The farmers of the county are well pleased with this plan of co-operative selling. It resulted in an increase of seven cents per pound on the price of wool after one cent per pound was taken off for handling. It is hoped that next year the amount of rejections will be decreased instead of increased.

Births.

The Rev. and Mrs. Wilson P. Ard are receiving congratulations on the birth of their first child, a son, Robert Wilson, who was born at the Bellefonte hospital Saturday last week.

John Wynn Jr. is the name that has been given to the little son born to Mr. and Mrs. J. W. Fredericks, in the Lock Haven hospital, Saturday, July 5th. Mrs. Fredericks is well known in Bellefonte as Miss Mabel Sheffer, the elder daughter of Mr. and Mrs. Paul D. Sheffer.

A little daughter, their first girl and second child, was born to Dr. and Mrs. Hoffer Dale, of State College, last week.

Still Winning Prizes.

Wetzler's band of Milesburg participated in the Fourth of July parade at Phillipsburg and was awarded first prize for the best playing and best appearance of any musical organization.

The prize amounted to \$50, which was in addition to the \$200 the band received for the engagement.

At a regular meeting of the Bellefonte school board, on Monday evening of last week, Miss Ellen Parsons, of Lock Haven, was elected as teacher of spelling and hygiene in both buildings, and Miss Maude Stover, of Rebersburg, was elected as teacher of geography and composition in the Bishop street building. At a previous meeting Jay M. Riden, of Mount Union, had been elected as instructor in mathematics and athletic director. This completes the list of instructors for all the Bellefonte schools.

The State cops motor patrol were quite busy on Centre county state highways on Sunday, working principally between Bellefonte and Pleasant Gap and down Nittany valley. Many motorists were stopped and asked to show their cards and quizzed generally to find out if they were complying with the automobile laws, but no pretense was made toward searching cars.

The plant of the Western Maryland Dairy Co., in this place, has been sold to the Sheffield Dairy interests, possession to be given on September 1st. Authentic notice of the transfer has not been issued, but will be published soon.

Tuesday was St. Swithin's day, and according to an old saying, rain on that day would mean rain every day for six weeks, but fortunately it didn't rain, at least in this part of the country.
