(Continued from page 1, Col. 5.)

They thought they were very good. We think our servants are pretty nice even though they do take advantage of us every chance they get. I didn't quite understand what Mr. Dome meant when he talked about the 'squeeze" in China, but I do now. It is something that is born in the race and you can't overcome it. They think it is perfectly all right and you just can't do anything about it. You give the cook the money to buy food, 2.00 and when you reckon accounts with him you know he is charging you ing. Entered at the postoffice, Bellefonte, more than he paid for the things, but even then he charges you less than you would have had to pay for the same things if you bought them yourself. We keep our coal, wood and oil, and most of our food supplies under lock and key and give out just so much each day. If we didn't do that, they would use up a great deal more than they do and would probably take some and sell it on the street. That seems to be a principle with them. Even the little street urchins who attend our Sunday school, go out from Sunday school and try to sell the picture cards that have been given to them. Poor little kiddies! Most of them are so dreadfully poor that they try to make a little money in any way they can; and no matter how they make it, just so they make it, it's all

This morning as I was going out to the country I passed a coolie who was carrying a load of charcoal. In between the sticks of charcoal he had stuck a nice big bundle of leaf tobacco. While he was walking along a ragged little urchin sneaked up behind him and removed the bundle of tobacco. Not one of the people who saw it, not even I, did anything to call the coolie's attention to the theft. Those of the natives who saw it just smiled, and I would have remonstrated but had not sufficient command of the language to do so, and also thought I might get myself into a peck of trouble if I did.

The customs out here are so strange. I heard just the other night that if I should accidentally knock a child down in the street, I would not dare to pick it up. The children have been taught to believe that if they are knocked down, it is an accident, but if the person who knocks them down attempts to pick them up, he intends to do them harm. It seems like a crazy idea to us, but when you stop to think how many centuries they have been taught to believe such things, you realize how long it will take to teach them to believe otherwise. One day Mrs. Lewis, the wife of Dr. Lewis, the head of the Language school, who has been in China forty-three years, fell in the street and sprained her ankle so that she could not get up. There wasn't a Chinese who passed

GIBSON.—The distressingly sad news was received in Bellefonte on Tuesday morning of the sudden and unexpected death of Mrs. Blanche Cook Gibson, at her home in New Orleans, La., early that morning, as the result of an attack of acute nephritis, following only a few day's illness. Her maiden name was Mary Blanche Cook, and she was a daughter of Andrew J. and Sarah J. Boak Cook, having been born in Bellefonte on December 6th, 1878. She was educated at the Bellefonte Academy and finished at Miss Shipley's school, near Philadelphia.

Speaking of Confiscation.

From the New York Commercial. It may sometimes come to a few of us that it is quite as painful to have our property taken away by taxation as it would be to lose it through outright confiscation. Perhaps it is more painful, because we are robbed by thieves but once, while the tax thieves always come back to repeat over and

over again. Ever increasing tax burdens mean added heavy units to the load of the average man's daily expenditures. The bigger the sum raised by taxation the less the size of the funds that would otherwise be on deposit in the savings banks. Also, it means less desirable things in the lives of everybody who are not on the public pay-

Boyd Bowers, who some months ago was given a suspended sentence following a hearing for desertion and non-support on condition he pay his wife \$30 a month, was brought before the court on a bench warrant because he had failed to carry out the court's order. Mrs. Bowers was unable to be in court but her father and mother, Mr. and Mrs. Harry Herr, of Orviston, were present and told the court that the defendant had not paid anything to the support of his wife and children, but admitted that he had been laid off at the Orviston brick works. They stated, however, that they had nothing against the young man personally and were willing to have the court give him another chance. Consequently the court decided to suspend sentence on condition that Bowers go to work and support his wife and two children, and failing to do so he will be brought back and sent to jail.
