Last Saturday morning Mrs. Maude Decker Markle, of Altoona, started for this place in a Studebaker car and in the neighborhood of the Spruce Creek club house had a collision with car driven by Mr. Leitzel, of State College. A string of eight cars were running westward the one in the lead being driven by a woman and containing another woman and Mr. and Mrs. Randall Dunlap are a man. Just below the club house the woman suddenly stopped her car in the middle of the road without giving any warning to those following and in less than a minute all nine cars were jammed together. W. Though still confined to her bed she is progressing nicely and prospects for her speedy recovery are reported as being exceedingly encouraging. Foster Breon and Earl Barner took a run down to Williamsport to see Miss Helen, and on their return reported her as being very comfortable. It is to be hoped she will be able to return home at an early day and meet her many anxious waiting friends here.

In the morning of the second day the normal child shows a disposition to take charge of the affairs of the family. The happiness of both the parents and of the child depends upon the diligence with which this disposition is discouraged, and that means discipline. It involves some sort of punishment. Solomon said withhold not correction the child. "Thou shalt beat him with the rod, and shall deliver his soul from hell." But that was a long while ago, and many manners have changed since then; particularly, the relation be-tween mothers and children has changed. It is far less formal and distant than it used to be, and much more familiar and friendly. It may have been well enough in Solomon's time but it is apparently different

Harriet Showers, the nine year old daughter of Mr. and Mrs. George Showers, returned from a six week's visit to Indiana county, and the youngster proved that she was a game tourist. Some relatives from Indiana motored to the Showers home a few weeks before July 4th and, on returning home, prevailed upon Harriet to go with them. The girl's mother consented on condition that they would

return her in case she would become homesick, and in any event she was to Daughenbaugh and family, of Altoobe returned not later than July 4th. ful manners. Writers of eminence

and distinction have often utterly

failed when on the lecture platform,

to impress their hearers, simply be-cause they were defective in vocal ex-pression. The immortal Shakespeare

could not properly personate his own Sear, Macbeth nor his Hamlet. The

passions he so perfectly portrayed with his pen, his voice failed to ex-

press in even a slight degree. Yet

he was a professional actor as well as

a manager and playwright. It may

seem strange, yet salaries are paid persons who devote their entire time

to misinstruct public school pupils. The voice, in all such instruction, is

used too often simply as a medium of

communication between teacher and pupils without the slightest regard to

the adaptation of the intonation to the

sentiment expressed. The same monotonous tones are resorted to in ex-

pressing joy, grief, hope, fear, love,

hate,—no variety, no adaptation, no modulation. Is it not strange, therefore, that boys and girls, and young

men and young women, too, do not

express their own or others feelings
