PLEASANT GAP.

Bert Fulton, of Harrisonville, moved to Bellefonte. Miss Pearl Irwin returned from her vacation at Punksatunway.

The bad as well as the good are strengthened by organization. Mr. and Mrs. Patterson and son Robert, of Chester, are visiting at the Millward home.

Miss Christine E. Weaver, after spending a week at Lewistown, has returned to her home. Humanity will go farther to see a game of baseball played than to see innocent lambs play.

A smile on the face is like the sun in the heavens—gives life and light to all it shines upon.

Mr. and Mrs. Samuel Weaver spent the week-end with the Lee Brooks family, adjacent to Spring Mills.

Miss Margaretta Keller is now a student at Pot's Business College, at Williamsport. Margaretta is on business bent.

Mrs. Parker Washburn, of Nanty-Glo, and Mrs. E. H. Saponta and daughter Mary, of Cresson, spent a half week very pleasantly at the Frank Barnes home. Incidentally, they took in a day at the Grange picnic, while here.

The employees of Whiterock are elated since business is improving. Instead of laying off a day or two a week they are now required to work ten hours regular, with favorable prospects of a continuation of conditions for some time to come. The pay envelopes are fattening from time to time.

Deep, thorough plowing, with a good point, is the initial act in the business of every farmer; and to make his vocation a success, this signal instrument needs not only to run into the soil of his field but must also be made to run through every area—social, political, financial and commercial—that bears any relation to him.

Harry Crissman, our first-class tonorial artist, agrees to disagree with other barbers so far as pertains to raising the price for hair cuts, shaves, etc. He thinks this is not the time for an increase, so he will hammer away at the same old prices. Mr. Crissman conducted a first-class shop in the 31st ward, Pittsburgh; moved to Pleasant Gap and is succeeding admirably well, and says he can exist without raising prices. His sentiments are endorsed by his many patrons.

When erecting a house it pays to build a good one. Doc. Stover is about finishing his model residence down at the forks of the state road. Nothing but the best material obtainable was used, and none but practical mechanics employed. Doc. and a brother did the carpenter work while the invincible Otto Hile did himself proud doing the stone cutting. The handsome structure is a monument to Pleasant Gap. As a result Mr. Stover has three substantial purchasers, and about fifteen would-be renters as applicants for the premises.

Our public schools opened on Monday; our boys and girls were anxiously awaiting the happy occasion. The youngsters will look back to their school days in after life, not as a place of penance but as a scene of mental enjoyment, where the paths of learning were strewn with flowers; and when memory recalls our school-days our hearts will warm up to a realization "That tall oaks from little acorns grow." Years hence this multitude of school children will be mingling with the great world, helping forward, in one way and another, life's good work. It is to be hoped that our youngsters' lives will be made a great success, and they may be admitted to a higher school in the life to come.

Blessed are they who have good manners, even at home. Blessed are all considerate, thoughtful, obliging and agreeable people; blessed are they who have a sense of humor; for they shall inherit the earth. That is the true reading for a good wife; not the keenness of the folded hands and downcast eyes, but the meekness of a cheerful countenance and a ready wit. These are the real souls who have already entered upon the inheritance of the fair earth and are rejoicing in it. When they go to heaven, they will

find themselves quite at home, their epitaph will have no reference to damning stockings; it will be in the words of the most touching obituary sentences: "She was so pleasant and agreeable."

D. B. Allison, of Altoona, delivered a very forcible address at Noll's hall last Sunday, at 2:30 p. m. Mr. Allison is a representative of the International Bible Students' Association, who claim that "millions now living will never die." They allege that the world's war did not make democracy safe. That all nations are again preparing for war; that civilization is now terribly shaken up by labor troubles, official lawlessness, profiteering, Bolshevism, revolution and anarchy. The cause of the world's distress and the answer to the above questions were very ably handled by the speaker; the attendance was quite large, and much interest was manifested by all present. The Divine plan was entered into in detail.

Rev. M. C. Piper, of Milesburg, filled the pulpit in the Methodist church, Sunday. He had a very creditable attendance. The Rev. has a great many friends here and no known enemies. He has fought the devil for almost like time and although he is retired, he delights in aiding in the good work that he has been studiously engaged in for, you might say, a life time. Nature having endowed him with a strong mind in a strong body, he bears the burdens of toil that would crush smaller and weaker men. His temperament is happily combined, so that he has endurance associated with energy, and his brain, while great in power, is fine in quality. The face shows courage, calmness, self-poise, firmness and force of will, over which plays the light of tenderness and benevolence. He seems to have been endowed with genius for analysis, and combative courage for decisive action. Notwithstanding Rev. Piper's life long labor for righteousness, his satan's majesty is apparently still in evidence or I would at least think so, from the actions of a few pretenders who reside in this vicinity.

Care in choice of words is a great requirement as we journey on the voyage of life and should attract the attention of all. Your first care in the choice of words should be that they shall express precisely your meaning. Words are used so loosely in society that the same word will often be found to convey half a dozen different ideas to as many auditors. Even where there is not a conflict of meanings in the same word, there is usually a choice of words with meaning sufficiently alike can be used indiscriminately, without subjecting the user to a charge of positive error. But the cultivated taste is shown in the selection of such as express the most delicate shades of difference. Therefore, it is not enough to have abundance of words; you must learn the precise meaning of each word, and in what it differs from other words supposed to be synonymous; and then you must select that which most exactly conveys the thought you are seeking to embody. There is but one way to fill your mind with words; that is to read the best authors and acquire an accurate knowledge of the precise meaning of their words.

AARONSBURG.

Only Three Books Worth While Says Legislator.

Representative Hal Wimberly, who helped influence the Georgia Legislature to defeat a bill intended to allow counties, school districts or municipalities to establish libraries, either by taxation or donation, told the House he was opposed to all libraries, that only three books in the world were worth reading. "Read the Bible. It teaches you how to act," he said. "Read the hymn book, it contains the finest poetry ever written. Read the almanac; it shows you how to figure out what the weather will be."

A Talk With a Bellefonte Man

Mr. Nighthart Tells Something of Interest to Bellefonte Folks.

There's nothing more convincing than the statement of some one you know and have confidence in. That's why this talk with Mr. Nighthart, of E. Bishop street, should be mighty helpful here in Bellefonte.

Charles Nighthart, 331 E. Bishop St., says: "I became run down with kidney trouble and felt tired and worn out mornings. I could hardly get to work. There was a steady, dull ache across my back and when I stooped or lifted, sharp catches took me. I also had dizzy spells and my kidneys acted irregularly. I used Doan's Pills from the Mott Drug Co. and they strengthened my back and kidneys."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Nighthart had. Foster-Milburn Co., Buffalo, N. Y.

pealer granting the right to fish on Sundays in this State. Other sportsmen clubs throughout the State are being solicited by that club in an effort to secure their co-operation in such a drive.

But until the repealer is passed or rejected, the Berks County Club is asking all sportsmen to observe the law and refrain from fishing on Sunday.

The club takes the view that Sunday fishing is no worse than Sunday golfing or motoring and that it is the only day that thousands upon thousands of men can go fishing.

A similar repealer was before the Legislature six years ago but failed.

BOALSBURG.

Willard Rocky secured a position in a garage at Petersburg.

Harvest Home service will be celebrated in the Lutheran church on Sunday, at 10:30 a. m.

Makes 10¢ Swell with Pride

BEECH-NUT chewers don't switch. The next batch of BEECH-NUT Chewing Tobacco will be like the last—the same quality and quantity of pure, sweet, waxy tobacco—the same bully flavor—the same super money's worth.

Lorillard's have been making chewing tobacco for over a century—upholding standards and following blending recipes that still give their products the widest sale in the world.

No pipe scrap and factory hash in BEECH-NUT. Never cheapened and bulked by rancid, bitter ground leaves, disguised with heavy flavorings.

The same quality and the same weight in 1924 as in 1915, despite increased taxes, overhead, wages and tobacco prices 10c swells its chest every time it buys a package.

Is it any wonder that over 250 million packages are sold in a single year?

Both our Great Political Parties Stand for the Present Social and Economic System

Other parties advocate radical changes that lead to socialism. The last of many experiments in socialism is Russia. There we have its practical results. Let us see what advanced socialists have to say about Russia. Emma Goldman was the most pronounced anarchist in the United States; so violent that she was deported. She went to Russia with high hopes for a new social order. She left that country sad and disillusioned. Bolshevism, she says, "has built up a state as capitalistic and militaristic as was ever the Russian Czars, but which allows considerable less individual freedom." Fanny Hurst is another advanced communist. This is what she says after a visit to Russia. "Sovietism is a great beast, half-stupid, half-mad, on its back in death agony. "In every one's face you see nothing but fear, overwhelming fear. "Russia is still chaos, with poverty among the bourgeois as well as the professional classes, and squalor and filth everywhere." And yet at one time both were ardent supporters of Sovietism. What a pity it is that those who are advocating socialism here cannot spend a little time in Russia. Not in Moscow, their show city, but in the real Russia.
