Pastor Accepts Call.

The Rev. John S. Hollenbach, who for the past two and one-half years has served as pastor of the Aaronsburg Reformed church, has accepted the unanimous call extended him by the Manchester, Md., Reformed charge, located in Maryland Classis of the Synod of the Potomac. This call came to him without any solicitation on his part. This charge had as its pastor during a period of more than twelve years the Rev. Dr. William Rupp, who shortly after taking up his work in another field was called to the chair of Practical Theology in the Reformed Theological Seminary at Lancaster.

The pastor's resignation was accepted at a meeting of the Joint Consistory of the Aaronsburg charge. The executive committee of West Susquehanna will hold a special meeting at the Reformed parsonage, Aaronsburg, Thursday, October 23, at 2 p. m. at which time the pastoral relation between Rev. Hollenbach and the Aaronsburg charge will be dissolved, a dismissal to Maryland Classis granted him, and a supply committee for the charge thus made vacant appointed.

The Manchester charge consists of three congregations. The greater part of the services are to be given to the Manchester congregation which has more than half of a total constituency of over four hundred and fifty members.

Grange Well Financed.

One of the big assets of the Grange movement of the country is the fact that it is substantially financed, which enables it to carry out many projects of rural benefit in legislative lines and otherwise on an extensive scale. The National Grange has a treasury of nearly \$150,000 and many of the State Granges are equally well financed; Michigan being a noteworthy example, with a treasury surplus of more than \$50,000. In the case of all these Grange funds a large portion is invested in Liberty bonds, purchased during the stress of the war emergency.

## Dr. POTTER'S WELFARE IDEAS FOR THE STATE'S CRIMINALS.

Harrisburg.—Removal of the eastern penitentiary from Philadelphia to a site in the country outside the city, completion of the Rockview prison to accommodate at least 1500 inmates, and erection of an institution for defective delinquents are the three major propositions in the legislative program for penal reform of the department of welfare, which the 1925 General Assembly will be asked to consider, Dr. Ellen Potter, secretary of welfare, has announced.

Doctor Potter advocated the erection of a new eastern penitentiary upon the unit plan, but only, however, "if the State commits itself to a program which will permit the establishment of three penal districts within the State."

For the eastern penitentiary the secretary advocated the purchase of approximately 2000 acres of land and the erection of an institution which would house 1500 inmates. This, she declared, would permit the prisoners to raise much of the food consumed, as well as give them the opportunity for farm life. Such an institution could be erected at a cost of approximately \$1000 a bed, whereas the Rockview prison is costing approximately \$4000 a bed under the original plans, she said.

"By dividing the State into three districts we would be following the plans of the country's foremost penitentiologists," Doctor Potter said. "The eastern penitentiary would take care of prisoners from the eastern section of the State; Rockview from the central part, and the western penitentiary, Pittsburgh, those from the western part of the State."

Laurelton village, which now houses 150 inmates, should be enlarged to care for at least 1000, with a large addition to Fairview necessary, she declared. Erection of a central reformatory for women was advocated for the reason that girls and women could be accommodated in one institution, with the various classes of prisoners segregated.

Legislation to provide proper housing facilities for members of staffs and the workers in State institutions and to provide for expansion of the institutions devoted to the care of the State's feeble-minded and insane persons also is on the legislative program of Doctor Potter. A study has shown the average annual increase of feeble-minded and insane persons in Pennsylvania is 600, she said, declaring that accommodations must be provided to care for them.

Doctor Potter said that housing conditions at many of the institutions were neither adequate nor decent for the employees, asserting that in some instances they lived in rooms in attics.

The great need in the institutions, as regards inmates, is the necessity of more beds for women feeble-minded and insane, Doctor Potter said, pointing out that the institutions' population in July was approximately 4500 feeble-minded and 22,661 insane.

"When one considers the average annual increase is 600 for these two kinds of mental disorders, you can realize why expansion is necessary," Doctor Potter continued. "We now are conducting thirty-three mental clinics which handled more than 2000 cases last year. By taking these cases in time, and administering proper treatment, we are bound to decrease the number of patients admitted to the hospitals for mental diseases."

Is of Interest to Bellefonte Folks.

The following case is only one of many thousands, but it is that of a Bellefonte resident. Who could ask for a better example?

Harry Rossman, drayman, says: "My kidneys didn't act right and I had to get up several times at night. My back was lame and ached a great deal, especially in the morning, making it hard to keep at my work. I used Doan's Pills and they quickly relieved me of all signs of kidney trouble. My kidneys were soon acting regularly."
