Twinkling Toes, Comedy, Song and Dance.

The joy of a story told to lilted tunes does not die easily. The motion pictures, in spite of their great popularity, have not lessened in the least the demand for musical comedy. Everywhere people are reacting to the speaking and singing stage, and seemingly enjoying more than ever the twinkling toes, the funny comedians and the glitter and holiday atmosphere that abounds in American musical comedy. One of the latest musical extravaganzas to be acclaimed a hit is the piece of Le Comte and Flesher's, known as "My China Doll," which is due at the Moose Temple theatre on Wednesday night, November 26th.

Here again will be seen a gorgeously mounted production, combining such tunes as "Winky Blinky China Maid," "How Do You Do Miss Ragtime," "Tales the Blue Bells Told," "Jazzmania," "Rose" and "The Land of Dreams," in a mirthful melange of bewildering scenic effects and novelties, with a chorus of dancing and singing girls. Here again will be seen the beauty of eye-dazzling costumes; the beautiful stage settings; the electrical effects, and all the other wonders that are part of musical comedy. Barbara Bronell heads the cast of "My China Doll." She is a finished actress, pretty, glib, artful and fond of fun. She dances and sings through the lilted songs in a way that has caused her to be acclaimed the "hit of the show."

Hinkie Haines, some years ago a star football and baseball player at State College and whose home is at Red Lion, York county, will be married on November 28th to Miss Ruth L. Oswald, of Freeporth, Long Island.

Elmer Barr, of Ferguson township, was brought to the Centre County hospital, on Tuesday, to undergo quite a serious operation.

CENTRE HALL.

Miss Myra Rocky spent several days with friends in Centre Hall. A baby boy was born to Mr. and Mrs. Steward Musser on Saturday night—the second child in the family. Mrs. Ellen Miller and Miss Caroline McCloskey, of Potters Mills, spent the week with friends in Centre Hall.

The lecture by ex-Governor Brough, of Arkansas, was greatly enjoyed by all who attended the second number of the lecture course, on Tuesday evening.

The Williamsport woman, who became ill at the home of S. F. Hennigh, several weeks ago, died on Monday. The body was taken to Williamsport on Thursday, for burial.

J. Witmer Wolf and daughter, Miss Emma, of Ardmore, accompanied by Mr. Knite, motored to Centre Hall last Friday. They returned home early this week. While here they were entertained by Mrs. Margaret Smith.

TELEPHONE PROGRESS—

The wire chief is a transmission expert. By day and night he tests the millions of miles of wire so that the service may be uninterrupted.

Transmitters are constantly being "talked to death" by phonographs in Bell Laboratories to develop the most perfect telephone instrument possible.

The enlargement of hundreds of switchboards in recent years has not retarded the development of a higher quality of service.

TODAY your telephone "talks" better than twenty or ten or even five years ago. Your voice travels with more force, greater clearness — what the telephone engineers call "better transmission."

It is apparent on local calls, and is even more noticeable on connections with distant cities. There are hundreds of the latter that couldn't be reached a decade ago, and calls to as many more were pretty much a gamble with limitations which have since been overcome.

How has this come about?

Invention and development.

During the past few years of unprecedented telephone plant expansion the solution of the great problems arising from the war-time exhaustion of telephone facilities has not left neglected the scientific development of the existing service.

There has been constant advance. Telephone transmission is an important and understandable example. And in such things there is no let-up. More and better service is the principal aim of this company.
