**A Talk with a Bellefonte Man**

Mr. Nighthart Tells Something of Interest to Bellefonte Folks.

There's nothing more convincing than the statement of some one you know and have confidence in. That's why this talk with Mr. Nighthart, of E. Bishop street, should be mighty helpful here in Bellefonte.

Charles Nighthart, 331 E. Bishop St., says: "I became run down with kidney trouble and felt tired and worn out mornings. I could hardly get to work. There was a steady, dull ache across my back and when I stooped or lifted, sharp catches took me. I also had dizzy spells and my kidneys acted irregularly. I used Doan's Pills from the Mott Drug Co. and they strengthened my back and kidneys."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Nighthart had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 69-48

**HOW SUPREME COURT JUSTICES KEPT VIGOROUS.**

One of the most remarkable characteristics of the late Chief Justice White and Mr. Justice Harlan, was their remarkable vigor up to the very time of their death, at the ripe old ages of 76 and 78 years respectively.

Perhaps it is just coincident, but there are many who firmly believe that not the least important cause of this vigorous old age, was the noted judges' practice of chewing tobacco. To attribute long life and good health to this custom is well within the bounds of hygienic fact. For example, it is well known that tobacco chewers have better teeth, stronger digestion and sounder nervous systems than any other type of tobacco users.

The P. Lorillard company, manufacturers of Beech-Nut chewing tobacco, have recently issued figures which indicate that people everywhere now appreciate the healthful qualities of chewing tobacco. They state that in one year alone over 250,000,000 packages of Beech-Nut chewing tobacco were sold. They assert that these are a tribute not only to the benefits of chewing tobacco in general but to the high quality and big value in every package of Beech-Nut chewing tobacco in particular.

**How to Kill Moths.**

Every housekeeper is intensely interested in the problem of moth extermination. The one-time popular method of enticing a moth onto a moth ball and watching him shrivel to death is obsolete.

One of the best sterilizing agents in the world is heat, and experts say that a liberal use of the electric iron will soon eradicate the pests. Articles infested with the moth larvae may be pressed with a wet cloth and a hot iron, a treatment that will kill the insects.
