preacher and a man with a message. The Sunday school room was started a little over a year ago and is immediately at the rear of the church, on the same floor level and designed to be readily opened as part of the church auditorium. It has sixteen separate class rooms all designed so that they can be under the observation of the superintendent at the same time and when the enclosing glass doors are opened every room and every part of the assembly room has full view of the church pulpit. The total seating capacity is 1000.

After the dedication we will publish a full description. Suffice it now to say that the enterprise thus far has cost a trifle over \$24,000.
