Bellefonte, Pa., June 19, 1925.

## NEWS ABOUT TOWN AND COUNTY.

The American Legion auxiliary will hold a festival on the Y. M. C. A. lawn during the afternoon and evening of June 27.

Twenty new American citizens were made at the regular session of naturalization court on Monday, two of whom were women.

The condition of Mrs. Oscar Zimmerman, who has been ill at her home in Bush's Addition for the greater part of the past year, has become extremely critical.

Blaine Port is erecting and equipping an up-to-date cleaning establishment at his home on east Howard street, expecting to have it completed and ready for operation by July first.

Word was received here Monday of this week from Washington, Pa., of the birth of a child to Mr. and Mrs. William McCoy. Mrs. McCoy is well known in Bellefonte as Miss Ethel Wetzel.

At the class day exercises at Penn State on Monday the graduating class gave the college a limestone gateway for one of the main campus entrances as its class memorial. It will be just like the gateway left as a memorial by the class of 1915.

Jay C. Storch has purchased a lot on the point just west of the James C. Furst home, on west Linn street, and contemplates building thereon a home for himself and family. The lot extends down to Lamb street on the south and north Water street on the west, and on the Lamb street end of his lot Mr. Storch will erect a garage.

The new electric pump for the water works has been received and will be placed in position as rapidly as possible. Work on the remodeling of the pump house, which has been at a standstill for a month or more, has been resumed and contractor Benjamin Bradley hopes to be able to continue without another interruption until it is completed.

The Mountain Mission Herald, edited and published by Rev. L. F. Sheetz, at Howard, will feature in its July issue the authorized report of the convention of the Sunday Schools of Centre county, held in Bellefonte last week. Any one desiring a copy can secure one by mailing ten cents in cash or stamps to The Mountain Mission Herald, Howard, Pa.

Frederick E. Rees, son of Mr. and Mrs. G. W. Rees, of Bellefonte, has been notified of a deserved promotion by the Pennsylvania Railroad company, in whose employ he has been for some years. Fred has been storekeeper at Erie but effective July first he will be general storekeeper in charge of the Grand division, with headquarters at Olean, N. Y. In his district are such important cities as Buffalo, N. Y.; Erie, Oil City, Reno and a number of other important railroad centres in that section. Mr. Rees is arranging to dispose of his home in Erie preparatory to moving to Olean.

Miss Ethel Campbell, State Health Department nurse, in charge of Tyrone and Bellefonte clinics, has been entertaining her mother, Mrs. Jerry Campbell, of Philadelphia, and her brother, Mr. Jerry Campbell Jr., and family, of Doylestown, who motored to Tyrone ten days ago and will take Miss Campbell back to Philadelphia next week when her vacation begins. She plans to spend her vacation in Philadelphia and Boston. The clinics will not be interrupted by Miss Campbell's absence but will be held as usual—chest clinic on Tuesday afternoons, well-baby clinics on Wednesday afternoons with Mrs. Pearl Meeker Hagan, former Red Cross nurse, in charge.

As a means to an end of its re-trenchment order train service on the western end of the Lewisburg and Tyrone railroad, between Tyrone and Fairbrook, has been reduced one-half. Instead of two round trips a day as heretofore, only one trip will be made, effective Monday. The train will leave Tyrone about eleven o'clock and returning will arrive in Tyrone early in the afternoon. The train crew which operated the trains on the Lewisburg branch will be done away with and the one train a day will be manned by the crew which runs the morning train from Lock Haven to Tyrone. There is also some talk of curtailing the train service on the Tyrone and Clearfield branch, but nothing definite has yet been done in this direction.

Clyde Smith, son of Witmer W. Smith, is anxiously awaiting the arrival of Mrs. Smith in Bellefonte, and her arrival is expected early next week. The young man has spent most of his life so far on the sea and in his capacity as a sailor has touched at most every country on the globe. While in Australia last March he met and married Miss Valeria Pierpoint, but owing to the regulation of the U. S. immigration laws he was unable to bring his wife home with him when he returned to the States. Application was promptly made, however, through the proper channels for her admission into this country at as early a date as possible and she arrived in San Francisco early this week and started by train on the last lap of her long journey. Clyde is now working for the Penn State Telephone company and intends settling down in Bellefonte.

## MORE WATER WANTED

### ON THE HIGH STREETS.

#### Borough Council Authorized Oiling of Additional Streets.

Only five members were present at the regular meeting of borough council on Monday evening. No verbal requests nor written communications were presented for consideration.

The Street committee reported that Spring street from Bishop to Linn; Howard street from Spring to Wilson, and north Water street had been oiled and top-dressed with limestone chips. That 8,000 gallons of oil had been used and 291 tons of limechips. The total surface fixed was 15,000 square feet at an approximate cost of 15 cents per square foot.

The Water committee presented the borough manager's report of repairs made and also a receipt for \$161.60 for junk sold from the old water pumping plant.

Mr. Brouse, of the Street committee, called the attention of council to the fact that Logan, Lamb and Curtin streets were badly in need of repairs, and that Thomas street ought to have another coating of oil to keep it from wearing. He stated that top-dressing the streets with oil and stone is the cheapest way of putting them in durable condition. Mr. Cunningham, therefore, made a motion that the Street committee be authorized to purchase another tank car of oil and repair the streets above mentioned and others as far as the oil will reach. The motion carried.

Mr. Brouse called attention to the fact that the contractor on the new Richelieu theatre has closed the pavement entirely in front of the building site on High street, which renders it very inconvenient as well as extremely dangerous for pedestrians, especially on Wednesday and Saturday nights when the streets are thronged with traffic. President Walker stated that there is a state law governing the rights of builders and the committee should consult the borough solicitor regarding the matter. It was the general opinion of council that at least a portion of the pavement should be opened to pedestrians during the evening and night.

The amended ordinance providing for the licensing of theatres and shows of various kinds, with a written opinion of the borough solicitor in regard to the legality of same, was read and held over until next meeting night for further consideration and final action of council.

Mr. Brouse stated to council that the last Legislature passed a bill authorizing boroughs to contribute money in a sum not to exceed \$1,000 for municipal amusement, and at the request of the Business Men's association he asked for an appropriation of \$250 toward the fund for the weekly band concerts during the summer season. The first of the concerts is scheduled for Wednesday evening, June 24th. The matter was held under consideration until next meeting night.

Mr. Cunningham reported that since the last meeting of council the Water committee had made an inspection of the water supply on east Logan, south Allegheny and Curtin streets, from which districts complaints have come of low pressure and insufficiency of water, and while the complaints are well founded it will cost money and very probably necessitate an increase in water taxes to remedy existing conditions. At present there is a four inch pipe on east Logan street east to about Ridge street, and only an inch and a half pipe from there out. By extending the four inch pipe a distance of 600 feet and putting down a two inch pipe on south Allegheny street, residents of those sections would receive an ample supply of water but no increase in pressure. The above work could be done for about \$700. Another plan is to replace the four inch pipe on Curtin street from Allegheny to Armor with a six inch pipe, use the four inch pipe to make the extension on Logan street and also put a loop from Linn to Curtin street up Spring street, which would almost double the supply there in case of fire. To do this would cost about \$2000. The only thing that can be done to increase the pressure is to raise the reservoir. If the big basin is raised eight feet it will increase the pressure five pounds and would probably result in giving ample service at all points within the borough limits. But it will cost at least \$5,000 to raise the reservoir, and to raise it will increase the cost of pumping. To make all the improvements above outlined will mean a total expenditure of approximately \$10,000 or \$12,000, and naturally will necessitate an increase in water tax. In other words, to afford better service to less than one per cent. of the population of the town the tax on the other 99 per cent will have to be substantially increased. Residents of Bellefonte borough are now paying 55 mills taxes, exclusive of water taxes, and it is up to the taxpayers to voice their sentiment for or against any further increase, as the Water committee made no recommendations but merely presented the above facts to get them before the public for consideration.

Bills were approved to the amount of \$4,236.99, after which council adjourned.

Bellefonte had its first rain in almost three weeks on Sunday, which was followed by a shower on Monday and a good rainfall Monday night, which put new life into vegetation of all kinds and freshened up the gardens considerably.

## Household Goods for Sale.

At 1 o'clock next Tuesday afternoon, June 23rd, the entire furnishings of the home of the late Emily Uffington Valentine, will be offered at public sale at her late home, 19 west Curtin street, this place.

Everything in the house will be sold and those interested would be well advised to be on hand at the appointed hour.

## New Aviation Field Now in General Use.

All air mail planes now use the new aviation field, the old one on the Thomas Beaver farm having been abandoned so far as the landing of planes is concerned. The office equipment was moved to the new field on Saturday and all other supplies will be moved gradually between now and the first of July, when the night mail carrying service will go into effect.

## A Regional Convention.

On Tuesday evening, June 23rd, a regional convention will be held in the Evangelical church at State College, covering the work of the Sunday school and Christian Endeavor society. The region is composed of State College, Nittany, Howard and Bellefonte, and Rev. Reed O. Stealy, the pastor of the Bellefonte church is the chairman. The principal speaker will be the Rev. W. B. Cox, of Williamsport. Last week a similar convention was held in Howard, when Rev. Zang, of Clintondale, and Rev. Hower, of State College, delivered the addresses.

## Curb Market Makes Discouraging Start.

Only two truckmen were in attendance at the opening of the curb market last Saturday morning, and the principal supply offered for sale consisted of new onions and strawberries. Quite a number of Bellefonte people who went to market with the expectation of being able to buy their Sunday supply of produce, including fresh butter and eggs, were disappointed. There is no question but that every housekeeper in Bellefonte would like to have a curb market where she can secure a supply of fresh vegetables for her table, but a few mornings like last Saturday will kill the market before it gets rightly started. Should such be the case it will not be entirely the fault of the people of Bellefonte. They will patronize the market if they can get what they want, otherwise they will naturally cease to attend.

## Deer Becoming Domesticated.

Since the law protecting deer became effective, some years ago, it has been a common sight to see them pasturing in fields at the foothills of the mountains of the county, but rarely are they seen as far away from their natural environment as Morris Miller, of this place, found two last Thursday morning.

He was driving to State College and when he had reached the old pike at the foot of "Rishel's hill" decided to go up that way just to look the country from there to Shiloh over. Imagine his surprise, when just above the Rishel farm buildings he noticed two full grown deer jump up in a grass field and start trotting off.

The spot is about equi-distant between "the Barrens" and Nittany mountain so that one guesses is as good as another as to which of the two wooded areas they had wandered from.

## Epworth Leaguers to Meet in Bellefonte Next Year.

The annual convention of the Epworth League of the Williamsport district, Central Pennsylvania M. E. conference, was held at Avis last week. An invitation from Bellefonte delegates in attendance to hold the 1926 convention in this place was accepted. Officers elected for the ensuing year are as follows:

Mellott, Morrisdale; first vice president, Miss Ruth Poorman, Renovo; second vice president, Miss Isabelle Johnson, Bellefonte; third vice president, Miss Ruth Mitecke, Jersey Shore; fourth vice president, Russell Mayes, Avis; corresponding secretary, Miss Nora Bailey, Morrisdale; recording secretary, Wilbur Starr, of South Williamsport; treasurer, Miss Ethel Eddy, Jersey Shore; junior superintendent, Miss Esther Johnson, Bellefonte.

## Yesterday Was Kiddies Day at Hecla Park.

There is no question but that the population of Bellefonte and vicinity is increasing and everybody who saw the kiddies parade on Wednesday evening will scout the idea of race suicide in this section of the country.

When the Bellefonte Lodge of Elks inaugurated the kiddies picnic at Hecla park six years ago just six hundred kiddies attended. The registration for yesterday's outing was 1,350, or more than double that of the first picnic. Preliminary to the picnic the children gave a parade on Wednesday evening, led by the I. O. O. F. band, and they were out in force.

Before seven o'clock yesterday morning they began to gather at the Elks home and auto buses and private cars were pressed into service to convey the children to the park. It was necessary to make several trips to get them all down, but the committee in charge of transportation saw to it that not a child who wanted to go was left behind.

## Dr. Thomas Resigns as President of State College.

One of the deplorable incidents in connection with the annual commencement at State College, the past week, was the announcement, on Saturday, of the resignation of Dr. John M. Thomas, president of that institution the past four years, to become president of Rutgers University, at New Brunswick, N. J., with the opening of college in September. While members of the board of trustees may have had an inkling of Dr. Thomas' contemplated action, it was not generally known and came as a shock to his co-workers at State College. In tendering his resignation to the board of trustees Dr. Thomas said:

"I have lost none of my confidence in the steady growth and ultimate development of The Pennsylvania State College, but under present circumstances I believe I can do a more constructive service in New Jersey. For many years legislative appropriations to State College have been far below the careful estimates prepared by the institution. It is not the hard work a man does which wears him out, but the good work which ought to be done and which he cannot do owing to circumstances beyond his control. Both Dr. Sparks and Dr. Atherton, my immediate predecessors, broke down under the strain before they were sixty years of age.

Rutgers University has a clear field in New Jersey as the land grant college and the designated State University. The State of New Jersey is in urgent need of greater facilities for higher education, and the opportunity at Rutgers for sound development on a large scale in the immediate future presents an appeal which I cannot resist, particularly as New Jersey is my old home State, where I began my professional work and lived for fifteen years."

Until a successor to President Thomas is selected the College will be governed by an administrative committee of senior deans following Dr. Thomas' departure on September first for Rutgers. Judge H. Walton Mitchell, Pittsburgh, president of the board of trustees, will be chairman of the committee. The deans are Dr. R. L. Watts, school of agriculture; R. L. Sackett, school of engineering; and Dr. C. W. S. Stoddart, school of liberal arts. Comptroller R. H. Smith will act as executive secretary to the committee.

## The Glorious Fourth.

Along with a lot of other things the old-time Fourth of July celebration has been relegated to the almost forgotten past. Those were the days when a celebration meant noise, and noise was meant patriotism. The cannon cracker and the anvil chorus vied with the brass band, and peanuts and pink lemonade flourished in abundance. People living in the country hitched up the old nag and drove to town for a big time, but now that the Fourth is celebrated safe and sane the people in town pile into their autos and go into the country, picking out the most secluded spot possible and have a "peach of a time" picking the ants and the bugs from their dinner and switching away the flies and mosquitos. But so long as the new order prevaleth, and there will be nothing doing in Bellefonte, make your plans to go to Hecla park and spend the day with the boys of the Logan Fire company. They are arranging a good program of sports, which will include a league baseball game, and will have band concerts and dancing all day. Meals and other refreshments can be had on the grounds.

## State College Men Discharged from Jail.

At a brief session of court, on Wednesday morning "Pinkey" Wands and James Lorrach, of State College, were paroled from the custody of the sheriff, having served their full sentence in the Centre county jail for illegal possession of intoxicating liquor. The men were not discharged outright for the reason that the fine and the costs in the case against Wands total \$75 and those against Lorrach about \$40, hence the men were placed on parole for a period of thirty days and given that length of time in which to pay the costs, or at least a portion of them.

Florence Shay, accused of stealing sundry articles of women's wearing apparel, was brought into court on the supposition that she would plead guilty to the charge but when the indictment was presented to her she refused to plead. She stated that she did not steal the articles in question; that they were in her house and she just kept them. She was remanded to jail and unless she changes her mind will likely be kept there until the September term of court.

## Carl Stamm Held for Passing Forged Check.

One day last week three young men, Carl Stamm, Earl Horner and Glenn Corman, all of Pennsylvania, went to the Oriole store in Millheim and after making a few purchases presented a check for \$18.00 in payment therefor. Manager Bond Musser accepted the paper and taking out the amount of the purchase gave them the change in cash. It later developed that the check was a forged instrument, and the three young men were arrested on Friday by motor policeman Daniels, of Bellefonte. They were given a hearing before Squire W. S. Shelton, in Millheim, who held Stamm in \$300 bail for trial at the next term of court and Horner and Corman in \$100 bail as accessories.
