

Union Township Has Poor Farm but No Poor.

Talking about taxes and centralization of government in Harrisburg a resident of Union township, in Bellefonte several days ago, voiced the opinion that if boroughs and townships were not so completely dominated by government officials at Harrisburg they would be far better off. He cited as an example the fact that twenty years ago Union township was collecting a rather heavy poor tax in order to care for its poor, until finally the poor board decided to buy a farm and convert it into a poor farm where all who needed or demanded assistance could be taken care of.

They did so and in due time the farm was paid for and the taxes then gradually decreased. But it also became noticeable that the number of dependents was also decreasing, and today they have the poor farm and no poor to keep on it. They also have no poor tax, while the farm is rented and bringing in an annual income to the poor department which is being accumulated against the time when there may be some unfortunate who will through force of necessity be compelled to become inmates of the poor farm.

The gentleman in question believes that if every borough and township were permitted to conduct its own affairs and not be regulated by law or dictation from Harrisburg regarding taxation, etc., they would be far better off.

In Behalf of Fresh Air Fund.

There was a meeting last week, of "The Tribune Fresh Air Fund," which is finding homes for tenement children of New York for a two week's vacation here. Chairmen of the different churches reported places for over fifty children. Mrs. Mary Brouse has found places for twenty-seven children among members of the Roman Catholic church. We hope the other churches will respond liberally.

At the next meeting of the committee the final reports are asked for. This will be at three o'clock, at Petrikin hall, Monday, July 6th. All chairmen please be present.

ELIZABETH B. BEACH, Vice Chairman.

William Wallace, son of Mr. and Mrs. H. F. Wallace, of Clearfield, is in the Centre County hospital with a broken leg sustained in an automobile accident on Sunday night. The young man was returning from a motor trip to Lock Haven and nearing Bellefonte he turned out to pass another car and collided with a telephone pole. The young man had only recently recovered from a broken ankle sustained at a fire in Clearfield.

Wheat has slid off to \$1.50 in the local markets and that price will likely not improve until the new crops are harvested, if then.

Supreme Court Ruling Delays Soldiers' Bonus Until 1928.

Before adjourning for the summer holiday, on Saturday the Supreme court of Pennsylvania handed down its decision in regard to the constitutional amendment providing a loan of \$35,000,000 for paying soldiers' bonuses, the opinion being that the amendment cannot be submitted to a vote of the people until 1928. The decision is based on the provision of the Constitution that it cannot be amended oftener than once in five years and the last amendment was adopted in 1923.

The decision practically knocks out proposed amendments for loans totaling \$273,000,000. Among the other loans which it was intended to have authorized were \$50,000,000 for highway work, \$100,000,000 for construction of State institutions, including a memorial bridge; erection of buildings for penal and other institutions; \$5,000,000 for State armories; \$8,000,000 for buildings at State College, and \$25,000,000 for reforestation.

The appeal was based specifically on the proposed amendment to authorize the soldiers' bonus loan. Under an agreement with the State administration a suit was instituted in the Dauphin county court to compel the Secretary of the Commonwealth, Dr. Clyde L. King, to publish this proposed amendment and submit it to the people at the next election. Following a recent decision by the Supreme court the Dauphin county tribunal held that the submission of the loan amendment at the forthcoming election would be contrary to the Constitution. An appeal was taken, and it was on this the Supreme court handed down its ruling.

A Card to the Public.

To those who are sincerely interested in the success of the swimming pool on east Bishop street, who like to enjoy the pleasure it affords, and who really appreciate the fact that it cost a large sum of money to build it, let me say that the water at the present time is as fine as the best pools in the country can afford, and that it is kept in its present splendid condition by the stream of fresh water that empties into it from the water pipe at the east end of the pool.

The stream passing through the pool, generally during the night hours, when the pressure is high, drives whatever impurities might exist to the surface whence they find their way into the borough sewer through the outlet at the west end of the pool. Young girls and others whose parents are just as particular as can be as to their children's health and cleanliness, take their daily baths in the pool and enjoy them to the limit. Let me emphasize further what I am compelled to emphasize each passing summer, that all out-door pools have a greenish hue due to reflection. Some observers who are not well informed think that because the water has this greenish hue, it is dirty and not fit to bathe in. This is a very ignorant mistake. The water can have that hue and yet be as pure as the water in the drinking glass on the table at home.

I want my friends to rest assured that after all the expense incurred in establishing this pool, I most certainly will not let any conditions prevail that will invite honest and sincere criticism. Those who have the quarter to spare, and are willing to spend it in a delightful and refreshing bath, will find the facilities at the Academy pool just what they desire them to be.
