ates the entire field and is used in landing and taking off.

Every possible precaution has been the field is supplied by the Keystone Power corporation, but emergency lanterns have also been put up around During past month airplanes the border of the field to be used in night like bats chasing flies, all for and every ship is equipped with two the purpose of acquainting the various parachute flares suspended beneath pilots with night-flying and landing the fuselage. Should a pilot arrive preliminary to the inauguration of the and find the field in darkness he simply presses a button and releases a an established fact on Wednesday flare which is set off automatically morning of July 17th. service between New York and Chica- suspended in the air, emitting a powgo, the United States is now in the erful light and affording the pilot landing. These flares are also for use

Between New York and Cleveland there are twenty-six emergency landing fields and probably double that number of beacon lights to guide the in addition to the Bellefonte terminal field all the emergency fields and beacon lights east to and including Ringtown and westward to and including Brookville. The beacon light erected on Nittany mountain has been moved east to a point near Hecla gap, while the light on Parsons mountain above Wingate has been moved to Point Mc-Coy and another beacon light installed on the Allegheny mountain near the Reese Settlement.

As stated above the ships are equipped with every known safety device and in addition a system of signals has been arranged whereby the caretaker at every emergency landing field can signal the pilot down in case of bad weather ahead, or warn him of an approaching storm; all the fields

being connected by telephone. As another factor of safety night ships will not be heavily loaded, being confined to 250 to 300 pounds of mail matter. When there is more than this amount two ships will be used. Since the first of June one hundred and fifty night flights have been made over the division by the various pilots without an accident of any kind. The night flying schedule provides for leaving New York at 9:30 p. m.; land 2:20 and Chicago 5:45; twenty minute stops being provided at each station. The schedule east provides for leaving Chicago at 8:30 p. m., arrive in Cleveland at 1 o'clock, Bellefonte 3:30 and New York 6 a.m. The Bellefonte mail for night planes will close at 8 p. m. Ten cents an ounce will be charged for night mail. The night mail will in nowise affect the
