HOW TO SOLVE A CROSS-WORD PUZZLE When the correct letters are placed in the white spaces this pussle will spell words both vertically and horisontally. The first letter in each word is indicated by a number, which refers to the definition listed below the pussle. Thus No. 1 under the column headed "horisontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.
