Decisive Victory Over Tyrone.

Showing what they are capable of result of stomach trouble and other doing, the High school basket ball team completely outclassed the quintet from Tyrone on Friday evening, winning by the score of 46 to 28. Taking the lead in the first minute they were never headed and seldom threatened. Bellefonte seemed to have everything that could be expected of a team. When they had the ball they knew what to do with it and they had the habit of getting the ball. The music for the evening was contributed by Mrs. Louis Schad, assisted by Orvis and Betty O. Harvey and, as might have been expected added materially to a pleasing program.

# Fire Destroyed Home.

Silas Reese, an aged resident of Decatur township, Clearfield county, burned to death in a fire which destroyed his home last Saturday evening. Mr. Reese occupied a small house on the property of his son Paul, not far from Philipsburg. Fire was discovered in his little home about 6.30 o'clock and neighbors entered and made a search for the aged man but failed to find him. After the building robbing the store they went up stairs had burned to the ground his charred to the Klopp apartment. Grinage and remains were found in that portion of the house where there was an unused room, and in which he had probably sought refuge from the flames when

During his life he taught school, conducted a genlumbering and coal mining. His wife and three daughters live in Philadelphia, while his son Paul lives near Philipsburg. ### Victim Turned Lure

While in the Hawaiian islands Mark Twain was assaulted unmercifully by mosquitoes. Attempting to fool them, he had a fine netting put all around his bed. In spite of this precaution, however, the pests managed to find their way inside and nearly tormented the life out of him. After careful investigation the victim decided that after they once got inside of the netting the mosquitoes were unable to find their way out. Consequently, every evening Mark would crawl inside the netting, wait patiently as a lure until he figured that all of the pests were inside, then lift the covering cautiously and sneak outside to spend the night on the floor. Moreover, he always declared that he was never afterwards bothered.

### Pat Beat the Law

The story of dogs is closely connected with the story of man. For instance, there is the legend that relates how lap dogs came to Ireland.

In the beginning Britain seems to have had a monopoly on tiny dogs, and it was forbidden to give or sell a tiny dog to an Irishman. Then parliament passed a law which

decreed that a criminal should be given to the man he had wronged. So a clever Irishman, as the story goes, succeeded in getting a tiny lap dog to bite him.

The ruse succeeded, and the dog was taken to Ireland, where all the kings fought among themselves for the possession of her, until she brought peace by producing a large litter of pupples

METHODIST HOME AT TYRONE BADLY DAMAGED BY FIRE.

Ninety-two guests of the Methodist Ninety-two guests of the Methodist Home for the Aged at Tyrone were escorted in safety from the burning structure on Monday night, after fire was discovered in the buliding. Aged men and women, practically all of them past the eighty year mark, cripples and the sick, were taken from the building through the heroic effects of building through the heroic efforts of the superintendent, matron and nurses, assisted by firemen and citizens of the borough. Damage to the home is estimated at about \$100,000 to \$125,000.

The entire fourth floor of the structure was swept by the flames, which caught in the timbers under the slate roof, making an extremely difficult blaze to fight. Smoke filled the structure during the time the rescuers were working, getting the guests of the home to safety, The fire was the fifth of a serious nature in Tyrone this month.

All of the guests had retired for the night before the blaze was discovered, which rendered the task of getting them to safety more difficult. All, however, were gotten out of the building before the flames gained too great headway and were quartered in Tyrone homes and Altoona hospitals for the night.

A silent alarm at 7 o'clock called one company of the volunteer firemen to the home to extinguish a flue fire in the addition to the rear of the building, located on Lincoln avenue. Chemical was used and the fire apparently put out. Shortly before 9 o'clock the fireman at the home banked his fires for the night and at that time everything seemed to be in

good condition. However, about 9.30 o'clock fire was discovered again near the flue on the Logan avenue side of the building. Tyrone's volunteer fire companies were immediately called to the scene and the firemen entered the building Harrisburg estimates that Pennsylvania's 1925 crop value was twelve safety. The building has a slate roof, which made it difficult to get at the flames and necessited a number of holes being broken through the slate.

The fire spread rapidly along the hallway which runs the entire length of the fourth floor and within a few minutes after it was discovered the entire floor was a mass of flames and dense smoke filled all of the lower floors. The elevator shaft caught fire and necessitated the guests to leave by means of the stairways. The fire was brought under control about

-Experts of the Animal Economics Institute say that "there is no surplus of corn" in the country, that the economic troubles of the corn situation at this time are traceable to a distinct shortage of live-stock rather: than an excess production of corn. In the last five years there has been a decrease of 7.6 per cent. in the cattle of the country, so that with less consumption on the farm there is a surplus for human consumption.
