The Canny Scot.

Here is another story where a Scotchman won the galvanized tin medal of the Order of Pikers for thriftiness, as told by former Governor Sproul the other night at a banquet of the Insurance Society of Philadelphia. A Scotchman, in the company of an Englishman and an American, visited a tavern in France and in line with the French custom, each was served a decaiter of wine with his meal.

As the trio poured the wine into their glasses each found that in addition to the wine a fly had been served gratis with the beverage by the generous proprietor. The American upon seeing the fly in the wine, shoved his glass aside in disgust. The Englishman simply fished the fly out of the glass and drank the wine. The Scotchman, however, would not allow a drop of the vine rouge to go to waste. The insect, being a large horse fly, had absorbed part of the wine and the Scot first squeezed the wine into his glass, before he proceeded to enjoy the wine and the meal.

ANTHEM.

My auto, 'tis of thee, short cut to poverty—of thee I chant. I blew a pile of dough on you three years ago, now you refuse to go—or you can't. Through town and countryside I drove thee full of pride; no charm you lacked. I loved your gaudy hue, your tires so round and new—now I feel mighty blue, the way you act. To thee, old rattlebox, came many bumps and knocks; for thee I grieve. Badly thy top is torn; frayed are thy seats and worn; the crump affects thy horn, I do believe. Thy perfume swells the breeze, while good folks choke and sneeze, as we pass by. I paid for thee a price, 'twould buy a mansion twice; now every one yells "Ice!" I wonder why. Thy motor has the grip; thy spark plug has the pip, and woe is mine. I, too, have suffered chills, fatigue and kindred ills, trying to pay the bills since thou wert mine. Gone is my bankroll now; no more 'twould choke a cow, as once before. Yet if I had the yen, so help me John—amen! I'd buy a car again and speed some more.—Adapted from Bay City Motorist.

How the Republican Elephant Was Born.

A story of how the Republican party got its official insignia of an elephant is vouched for by Charles H. Sykes, cartoonist, who related the yarn before a recent gathering. "Thomas Nast, who was probably one of the greatest cartoonists this country ever produced, drew cartoons for Harper's right after the civil war. One of these pictured the Republican party as an elephant cautiously testing a bridge which represented public opinion. From that time on the party was labeled and Nast received a considerable boost for this idea, jumping to the forefront immediately as a cartoonist. Nast also was responsible for the Democrats being caricatured as a donkey, said Mr. Sykes. "There are several conflicting stories, however, as to how it came about, none of which am I prepared to say is authentic."

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

Getting Ready for the Racing Season.

Great preparation is being made by the Altoona Speedway association for the presentation of their sixth 250 mile national championship classic, Saturday, June 12th.

Aside from starting a score of world famous speed pilots, the coming event invites unusual interest because of the fact that it will be the first board track showing of the recently adopted 9 1/2 cubic inch racing motors.

The new creation now at a stage of perfection, will doubtless revolutionize the entire history of past track performances. Triple-"A" officials, the governing body of professional racing, are already astounded with reports of the remarkable development of these so-called "vest-pocket" motors. Intense interest surrounds the employment of the new speed producer. Laboratory tests have proven conclusively that with the present highly efficient super-chargers these speed units will exceed the fondest expectations of the foremost racing men.

The internationally known Altoona Speedway will be a scene of a most unusual gathering, when the new speed chariots start on their gruelling grind over the great wooden pathway. Practically every great motor industry of the country will be represented at the contest. The startling results will contribute greatly to future motor construction. Motor wizards and technical men will measure the possibilities shown at the coming meet, for

MEDICAL.

What My Neighbor Says

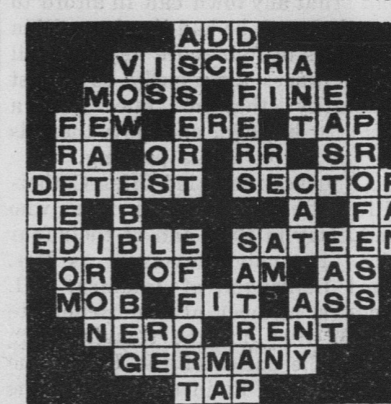

Is of Interest to Bellefonte Folks.

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills—and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Bellefonte resident. Who could ask for a better example?

E. T. Spicer, blacksmith, 222 E. Logan St., says: "Heavy lifting put my kidneys in poor condition and I had such sharp twinges across my back, I could hardly breathe when I went to straighten from a stooped position. The ache in my back often became so intense, I could scarcely move. My kidneys were weak, too and I had to get up nights to pass the kidney secretions. I became drowsy and I couldn't do justice to my work. Headaches also made me miserable. After using one box of Doan's Pills, from the Mott Drug Co., my kidneys were healthy."
