SPRINGTIME FLITTINGS

WILL BE NUMEROUS. The Usual Number of Bellefonters will Change Their Place of Residence.

There is an old-time saying that it is cheaper to move than pay rent," but these days it is not even cheap to move, and the man who does the moving must be paid. But regardless of this fact the first of April will see the usual number of flittings in Bellefonte. -some families will move in the hope of bettering their location and surroundings; others will move because their present landlord raised the rent; others will move because the houses they have been occupying have been sold or rented over their head to some one else and they are naturally compelled to get out, and others will move simply because its a habit to move every spring and they wouldn't be happy if they didn't do it. After all have moved and are duly settled it is probably only a fraction of the movers will be any better satisfied than they were in their old location. Be that as it may, however, home is what you make it. A place that looks ragged and unkept with one family living in it may present a very different aspect in the hands of some

by fire on Wednesday morning. The barn was tenanted by Irvin Robinson, who discovered the fire and with the help of neighbors attempted to extinguish it with a bucket brigade, but the flames spread too quickly and were burned to death and several horses badly burned, but all the rest of the livestock was saved.

All the crops in the barn, however, and a good part of the farming implements were destroyed. A Ford and Cadillac touring car were also burned. A call was sent to Bellefonte for help but as there was no water supply handy it was useless to send a pumper down. Both the barn and livestock were partially insured.

Bellefonte in Triple Tie for Mountain League Pennant.

By defeating Huntingdon, last Friday night, Bellefonte was placed in a triple tie with Lewistown and Mount nant, but as Lewistown has one game yet to play, and that with Altoona, there is a chance that it may be eliminated and leave as the only contenders Bellefonte and Mount Union. This tie would then, of necessity, have to be played off on a neutral floor, and as both teams are pretty evenly matched there is no telling where the pennant will finally hang.

The game with Huntingdon, on Friday night, was a real test of Bellefonte's strength, but through its general aggressiveness and superior defense it won out by a 27 to 21 victory. Concentrated team work rather than the individual efforts of any particular player was what won the game for Bellefonte. Huntingdon came here to win and was in the game every minute to obtain that end. Their star player, Cozzens, accounted for fourteen points of their score. Time and again he came down the floor with a rush in an attempt to break through to the basket but was stopped by Bellefonte's defense. His scoring consisted of four ed. long throws from the floor and six by Best, of Bellefonte, were the thrilling features of the game.

Bellefonte led in the first half 10 to not there. 4, but in the second half Huntingdon braced up and both teams scored 17 points during the second half.

Particulars of dispose of a few business matters, the accident are unknown at this time. On Wednesday Mr. Yarnell received a telegram from his son Fred, who is Mrs. Bellringer here last week, for the also employed at the Sun plant, telling that Ward had been hit on the head by an iron pipe and pretty badly hurt, and had been taken to the Chester hospital. Information of his death came in a telegram to his father shortly before eight o'clock on Wednesday evening.

Ward was the second son of George H. and Nora S. Rockey Yarnell and was born at Zion on October 18th, 1888, hence was 37 years and 5 months old. The greater part of his life was spent in Walker township, but some ten years ago he went to Chester and obtained employment in the plant of the Sun Shipbuilding company. A steady, energetic workman he was Bellefonte, and is now occupying the apartfinally promoted to the position of a foreman and of late had been in charge of a gang of twelve men. His passing away is the first break in a family of eleven children.

Mr. Yarnell married Miss Ella Pollock, of Renovo, who survives with children, Hazel, Della, Clara, Harold and Lloyd. He also leaves his parents, living at Hecla, and the following brothers and sister: W. Orvis Yarnell, of Zion; Fred, of Chester; Rush, of Detroit, Mich.; Roy, of Bellefonte; George F., of Hecla; Boyd N., of Lock Haven; Mrs. Charles E. Gates, of Bellefonte; Nevin, of Mill Hall; Earl and Philip, at home.

Definite arrangements for the funeral or place of burial are not known at this writing. Mr. Yarnell left for Chester on Wednesday night and when the Watchman went to press no word had been received as to where the funeral will be held.

Why Dye Your Easter Eggs.

Easter will be here Sunday, April 4th. The Lenten season will then be over and the celebration of the period of self denial will find expression in relaxation from the various restraints we have laid on ourselves.

For some reason or other eggs have held a very unusual place in the Easter ceremony. Just why, we shall not try to explain at this time. Suffice it to say that in the country especially, the person who could eat the most eggs-fried, scrambled, boiled, poached or raw-on Easter seems to have been entitled to a championship for something or other. We have known fellows who ate sixteen at an Easter breakfast.

While the elders have made a feature of their gastronomical propensities the children have had their enjoyment in hunting the vari colored eggs that "the Easter bunny" laid for

Long before the manufacture of candy eggs for Easter, children were happy with common hen-fruit that had been dyed while boiling so that the shells were all the colors of the rain bow. Onion skins were much in use and gave a lovely chestnut brown color to the shell. Bits of calico were wrapped about the egg before dropping it into the boiling water so that when it was dipped out the shell was

decorated with the colors of the print. Uncle Olin used to knock a little hole in the end of the eggs, suck the meat out and then the empty shell would be filled with molten maple sugar. The shell provided a protection for the sugar and we carried the Easter trophy in our pocket for weeks, licking at the hard content until tongues would be worn sore.

They were the customs when we awaited the Easter bunny.

Today its different. The candy manufacturer has stepped in to make a profit out of a good old fashioned custom-and we are glad to note that in of-and we are glad to note that in one part of Centre county, at least, a band of young women are determined to try to preserve the old fashioned Easter traditions.

The Standard Bearer society of the Unionville Methodist church is willing to dye real eggs in a real Easter way

for all who want them. The old fashioned, vari-colored, fresh hen fruit, the kind that won't make the children sick and yet give them more joy than they have ever had out of Easter, will be dyed and delivered by these young women at 5c an egg, 25c for a half dozen and 50cts for a dozen. All the colors imaginable, all harmless and eatable, eggs for rolling and every other Easter use.

Telephone Sarah Holt, 933-R-3, Unionville, just what you want and the eggs will be delivered the Saturday before Easter.

State Policemen Convicted of Voluntary Manslaughter.

In court at Ebensburg, last Friday, corporal H. R. Jacobson and private Walter J. Lyster, of the state police, Weston home, from a two months visit and chief of police Fred Lytle, of Cresson, were convicted of voluntary manslaughter in connection with the death of Tony Misoura, who it was charged, they beat up when making his arrest on a charge of breaking the Volstead law. At the trial the officers swore trip to Florida. They expect to be away they had a search warrant and read it twice to Misoura, but justice of the peace J. McGonigle, of Lilly, testified that the warrant had not been issued until after Misoura had been beaten up and arrested. Private Lyster, it will be recalled, was a member of the state police squad located at Pleasant Gap about a year ago.

> -Several months ago the floor in the basement of Harvey Schaeffer's hardware store showed every evidence of sinking. The depression finally became so pronounced that Archibald Allison, owner of the building, was notified and carpenters were engaged to make repairs. Their astonishment was great when they tore up the old floor and discovered that there was no support beneath, nothing but a yawning hole in the ground where the foundation had caved in. The hole was about twenty feet in diameter and fully twenty-five feet deep. Bellefonte is underlaid with limestone ledges which are honeycombed with old water courses, and the cavein under the Schaeffer store was probably one of the biggest of them. It required many truck loads of stone and dirt to fill up
