

A live-wire salesman rushed up to the home of a doctor in a small village late one night and asked him to come at once to a distant town. The doctor cranked up his flivver and they drove furiously to their destination. Upon their arrival the salesman asked, "How much is your fee, doctor?"

"Three dollars," said the physician. "Here you are," said the salesman, handing over the money. "The blamed garage keeper wanted \$15.00 to drive me over, when I missed my train."

**Dogs That Do Not Bark.**

Siberian sled-dogs are reputed to be the best in the world, are short-haired and generally a kind of gray—might be called mouse-colored. They seem to be more wolf than dog, and never bark but howl like a wolf. Considering their short hair, I believe you will find them to average larger than the Alaskan sled-dog. Teams generally average about eight dogs and they pull sleds across the tundra in summer as well as winter. It seems to be the job of the half-grown boys to break these dogs. Their food is generally some kind of frozen fish, but in winter when food is scarce their lot is generally a hard one and they often starve. These natives seem to have no love for them. I landed on King Island one summer and found this small island infested with dogs. All the natives had left for the summer, as was their yearly habit, and the dogs were left to shift for themselves. Many were in a starving condition.—By Captain Oliver, in Adventure Magazine for March.

**Points to Remember When Buying Seed.**

Quality should be the first consideration, price second. Seeds of good quality increase farm profits. The presence of weed seeds make cheap seed expensive. It has been estimated that weeds cost the farmer \$2.00 per year for every acre of tillable land. The Pennsylvania Seed Law was made to help the farmer and the honest seedman. The Law requires that seeds sold in quantities of 10 pounds or more shall bear a label giving the analysis and germination. Never buy seeds without examining the label showing the analysis and germination. Be careful about buying seeds from mail order houses outside the State; the seed law can not protect you if you are cheated. If in doubt about the quality of seeds have a sample analyzed and tested before planting. Send samples to the State Department of Agriculture at Harrisburg.—Dr. E. M. Gress.—Exchange.

—Simmons had returned from his vacation. "I certainly enjoyed the husking-bees," he said to a friend. "Were you ever in the country during the season of husking-bees?" "Husking-bees!" exclaimed the girl; "why I never heard of that! How do you husk a bee, anyway, Mr. Simmons?"

**So Was This Bellefonte Woman Who Tells Her Experience.**

All too often women accept their pains and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Doan's Pills—a stimulant diuretic. This Bellefonte case is one of many: Mrs. J. O. Clark, Willow Bank St., says: "My kidneys were in bad condition and a bearing-down pain in the small of my back made housework a burden and I could hardly move without misery. When I did any washing or ironing, the dragging ache across my kidneys became worse. My kidneys were sluggish, too and finally I became tired and had to drag around as best I could. I used three boxes of Doan's Pills and they brought relief. Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Clark had.
