

Democratic Watchman

Bellefonte, Pa., May 7, 1926.

NEWS ABOUT TOWN AND COUNTY.

Mrs. Harry Badger and Mrs. John Hartswick will entertain the thimble bee of the Reformed church, at Mrs. Badger's home on east Bishop street, Thursday afternoon May 13.

Mrs. Isaac Smith died at her home in Centre Hall yesterday just as the Watchman was going to press, but too late to give particulars. A complete obituary will be given next week.

Mrs. Harrison Kline has issued invitations for a children's party at her home on Bishop street from two to four o'clock this afternoon in celebration of her daughter Dorothy's third anniversary.

Probably the largest shipment (a whole carload) of white enameled bath room fixtures and kitchen sinks ever consigned to Bellefonte has been received by A. E. Schad. Ask for special bargain prices. 18-2t

The drinking fountain at the big spring was very much in demand, on Sunday, as hundreds of motorists stopped to view the spring in its new setting and to quench their thirst from its limpid waters.

It was just twenty-six degrees above zero at Runville on Wednesday morning. Bellefonte thermometers just touched the freezing point. Of course we make no prediction as to the fruit crop.

At a meeting of the officials of the Susquehanna baseball league held in Lock Haven, on Wednesday, a number of changes were made in the tentative schedule as published last week which will give Bellefonte more home games on Thursday and not so many Saturday games.

H. S. Ingalls, sent here from New York, is the newly appointed manager of the Bellefonte aviation field, succeeding Fred J. Gelhaus, whose resignation took effect last Saturday. Mr. Ingalls is a bachelor and will be quartered in the Brockhoff house Annex.

The annual rummage sale, for the benefit of the Centre County hospital, will be held Wednesday May 12, in the room, known as the Finklestein pool-room, in the Bush arcade. All donations should be sent there by Tuesday, or if this is not possible, call Mrs. Russell Blair, who will go after them.

Governor Pinchot's itinerary for his primary campaign, published on Sunday, does not provide for a visit to Centre county, but Mrs. Pinchot will visit Bellefonte on Wednesday of next week, May 12th, and will speak in the court house that evening. Mrs. Pinchot is taking an active part in her husband's campaign and her appearance on the rostrum at Bellefonte will mark her first visit to Centre county.

The Watson Record and Star, for fifty-six years a very creditable exposition of country journalism along the West Branch, will cease publication on June 1st. The tidy paper is dying because the merchants of Watson town haven't given it enough of the only elixir that will keep a newspaper alive—advertising. Inasmuch as it is the only publication in the town we are at a loss to understand how such a condition is possible. Watson town might not know it, but it is certainly taking a long jump toward getting off the map if it thinks it can get along without some kind of a newspaper.

State College authorities estimate that six hundred dads were present, on Saturday, for the sixth annual observance of Fathers' day. At the annual meeting of the association of parents, held in the morning, Earl H. Hewitt, of Dilltown, was elected president to succeed John S. Musser, of Harrisburg, who has filled the office ever since the organization of the association five years ago. Mrs. M. Elizabeth Olevine, of Bellefonte, was elected vice president as successor to Judge H. Walton Mitchell, of Pittsburgh. J. Orvis Keller was chosen secretary-treasurer to succeed Prof. A. H. Espenshade.

During many years of the active existence of the old steam heat and gas works A. Brittain Steele was the man behind the guns who collected in the financial provender that kept the plant in operation. The plant closed down going on nine years ago and has been defunct so long that it is falling to pieces. About all it is worth now, aside from the valuation of the ground it stands upon, is the price of scrap in the open market. But there is some good timber in the buildings, and this is now being removed under the supervision of Mr. Steele, the one man whose identity is still connected with the defunct plant.

A peculiar fatal accident happened on the highway near the Pemberton quarry of the American Lime and Stone company, last Saturday afternoon. Five people from Tyrone in an automobile were driving along the highway just as a heavy blast was put off in the Pemberton quarry. A piece of rock weighing over sixteen pounds was hurled a distance of a third of a mile, crashed through the top of the car, struck George Koehra on the head, causing instant death. The man's skull was fractured and neck broken. Koehra was 23 years old and leaves his mother, two brothers and two sisters, all residents of Tyrone.

AMERICAN LIME AND STONE CO., WINS GOVERNMENT COMMENDATION.

Big Local Industry Given Honorable Mention in National Safety Competition.

During the last decade consumers of lime have become more and more exacting in their requirements of the manufacturer. These requirements reached such a point that in order to produce a lime suitable for the industries, the American Lime & Stone company found it feasible to mine its stone thereby almost wholly eliminating contamination of its products by surface dirt and other impurities.

On August 1, 1922, the Bell-Mine was opened. The shaft was run down the natural angle of the limestone vein at approximately 60 degrees from the horizontal, and the pure Bellefonte vein was tapped 200 feet below the surface of the ground.

The Bellefonte ledge of high calcium limestone is one of the purest deposits in this country. It is approximately 75 feet wide, miles in length, and estimated to run 4,000 feet deep. The mine of the American Lime & Stone company is operated by the shrinkage stope method. The stone is brought through the drifts by electric locomotives and is dumped into the loading pocket where it is picked up by the skip and electrically hoisted to the surface. The working chambers are approximately 275 feet long, 50 feet high, and 40 feet wide, with a pillar of 40 feet of virgin rock between them. The roof of the mine consists of one hundred or more feet of the original deposit.

The entire vein is of solid limestone, no seams of any kind appear within its width or breadth. The solidness of the rock itself, and of that on either side of the vein makes the chambers far safer than a man constructed ball-room. The temperature remains consistent throughout the year at about 58 degrees Fahrenheit, making a very comfortable temperature in which to work.

Of course mining stone was for a while a strange operation to men accustomed for years to taking it from an open quarry. While at first it was viewed as probably more dangerous, experience has revealed that as a matter of fact it is the safer of the two methods. Every precaution has been taken by the American Co., for the protection of the men. All of the blasting is done at the close of work each day and after the last miner has left. There are fifty of them working hundreds of feet underground by day and twenty-five on the night shift.

Naturally all are interested in the "safety first" movement and so careful have they become to avoid contributory cause of an accident of any sort that the low casualty rate of the mine has attracted government attention. On May 1st, the Company received the following telegram commending its operation:

American Lime & Stone Co., Bellefonte, Pennsylvania.

Bureau of Mines advise that your Bellefonte underground Limestone Quarry is accorded honorable mention in National Safety Competition. Congratulations upon splendid record which placed you so near the top and brought you this well earned honor.

(Signed) U. F. Greenfelder, Editor of Explosives Engineer.

It is interesting to note that nearly 300 of the large mines and quarries in the country were observed in the competition for the bronze trophy "Sentinel of Safety" offered by the Explosives Engineer Magazine. Four didn't lose an hour during the year because of accidents. In the group of underground mines producing non-metallic minerals the Lower gypsum mine, of the United States Gypsum Co., at Gypsum, Ohio, won the trophy, with four others receiving honorable mention; among the latter being the Bell-Mine of the American Co., at this place.

Two Auto Accidents in Centre Hall.

George Reiber, of Centre Hall, had his right shoulder fractured in an auto accident, last Thursday evening. He was driving along the main street when Robert Campbell, of Penn's Cave, going the opposite way cut in right in front of his car to go into a side street. In an attempt to avoid hitting Campbell's car Reiber turned sharply to the right but one wheel struck the car throwing his machine against a tree, badly wrecking it. Reiber crawled out and walked to the doctor's office, then collapsed. He was brought to the Centre County hospital and it was some hours before he regained his consciousness. An examination revealed the fact that his right shoulder was fractured and he had a number of bruises. He was able to leave the hospital, however early this week. Reiber's car, an Auburn, was pretty badly wrecked while Mr. Campbell's Dodge was somewhat damaged.

On Wednesday morning of this week John White, of Centre Hall, was in the act of backing into the street from in front of the postoffice in that place just as Frank Klingler, of Pleasant Gap, came along on his way to work at the stone quarries south of the town. A collision resulted which upset Klingler's car and pinned him underneath. When released from the car it was found that he had suffered no serious injury.

It sure looks like a honey of a program at the Scenic and Moose theatres next week. 19-1t

An Appeal to the Good Citizens of Bellefonte.

At the foot of a hill in the western part of our beautiful town stands an edifice dedicated to the cause of Christ and humanity which is a credit to Bellefonte and to the loyal group who erected and supported it. Its members are as liberal and faithful as any group to be found this side of eternity. All the more true is this when we consider the small number of colored Americans residing in Bellefonte.

The membership of this church is only 28 in number, and the total colored population is but 75, including children, so that it is a strenuous burden for the congregation to keep up with the necessary expenses. Consequently debts have accumulated to the approximate amount of \$300.00. This does not include the shortage in the salary of the pastor and the claims to be paid to the annual conference.

It will take at least \$500 to put this congregation on a sound footing and help them face the world courageously. Knowing the splendid fellowship we have enjoyed with the white citizens of Bellefonte, and acknowledging your generosity toward us in the past, we appeal to all good citizens in the town and vicinity to kindly aid us in an effort to clear up our debts and help bring the kingdom of God to the hearts of men on earth.

St. Paul's A. M. E. church is playing her part in the promotion of this community, and the stimulation of its members and friends in the higher life.

The officials of the church pledge themselves to the public to give a faithful, accurate account of the amount raised and how expended. The funds will be banked by a committee chosen by the officials. The solicitors for this fund will be Mrs. Carrie Thomas, Thomas Trammel, James Sommers and the pastor, H. J. Collins. The banking committee will be William Mills, Mrs. Della Woodson and Alfred Stewart.

The drive will begin on Monday, May 17th, and close June 17th. Thanking the public in advance for their assistance we are yours for the cause of Christ and humanity.

H. J. COLLINS, Pastor. Wm. MILLS, Secretary Official Board.

Have You Seen the Midget Watch?

There is on exhibition in the windows of the Blair and Son jewelry store, in this place, the smallest watch that has ever been made. It is so small that the silver dime lying beside it looks quite large by contrast. The tiny time piece, the only one of its kind in the world, is of solid platinum and is studded with perfectly cut diamonds. The workmanship is perfect in every detail and it keeps remarkably good time.

It was made by the Bulova Watch Co., of New York, who have in their employ some of the finest watch makers in the world, one of whom spent more than three months in the production of this one watch. Some of the parts are so small that they can be handled only with the aid of powerful magnifying glasses. The screws are so tiny that they resemble grains of dust. These were made with the same care and precision as if they were one inch long. It is estimated that it would require more than 38,000 of these screws to fill an ordinary thimble. The hair spring in an ordinary watch is of about the same thickness as a human hair but in this watch it is about one-third that thickness.

The jewels used in the movement are made of genuine hard red rubies and are so small that it takes 220 of them to equal the weight of an ordinary postage stamp. These comparisons were cited by Mr. Culberston to give the layman, who has little or no knowledge of watches, an idea as to the marvelous construction of this remarkable little time keeper. It is valued by Mr. Culberston at \$1,000.00 and is only sent out of the factory on rare occasions.

Those who haven't seen it should call at Blair and Son's and have the opportunity before it is returned. It is really a very interesting exhibit of watch-maker's art.

Scenic and Moose Theatres Coming Attractions.

From May 15th to May 30th we will offer you the following "better class photoplays":

"For Heaven's Sake," Harold Lloyd's latest and greatest comedy success, co-starring Jobyna Ralston. 3 big nights at the Moose theatre.

"The Far Cry," with Blanche Sweet, Jack Mulhall, Hobart Bosworth and Myrtle Stedman.

"A Social Celebrity," with Adolph Menjou and Louise Brooks.

"The Untamed Lady," Gloria Swanson's latest picture, with Lawrence Gray.

"The Lucky Lady," with Greta Niserson and Lionel Barrymore.

"The Unknown Lover," with Elsie Ferguson and Frank Mayo.

"The Greater Glory," with Conway Tearle and Anna O. Nilsson.

"I'll Show You the Town," with Reginald Denny.

"Flames," with Marguerite De La Motte and Eugene O'Brien.

"Fifth Avenue," with Virginia Vallie and Allen Forest.

"Desert Gold," Zane Grey story, with Neil Hamilton and Shirley Mason. 19-1t

—It's all in the "Watchman" and it's all true. 19-1t

BOROUGH COUNCIL ORDERS STREET REPAIRS.

Other Business Transacted at Regular Meeting on Monday Evening.

At the regular meeting of borough council, on Monday evening, a petition was presented by residents of the north side of east High street, asking that the street be oiled and rolled.

The secretary presented a notice from the Forst Transportation company, of Philipsburg, that application is being made for a certificate of public convenience to operate a motor bus line between Philipsburg and Bellefonte by way of Snow Shoe. The matter was referred to the Fire and Police committee.

Communications were received from the Centre Oil & Gas company and the Sutton-Abramsen Engineering company petitioning council to put south Potter street in a state of permanent repair.

The Street committee reported temporary repairs on south Potter, east Linn and Mill streets, and the collection of \$20 for sewer permits.

The Water committee reported the laying of a two inch water pipe on Blanchard street and the collection of \$27.50 on the 1924 water duplicate. Also that borough engineer H. B. Shattuck will be here this week to start the work of making a plan of the water and sewer systems for the State Board of Health. Mr. Cunningham stated that in company with the borough manager he went out on east Bishop street, last week, and found a water pressure of five pounds at the Joseph Abt home and 12 pounds at the Orian Kline home. Residents of east Blanchard street also admit that the laying of the two inch line out that street has wonderfully improved the service.

The Fire and Police committee reported a check for \$25.00 from residents of Spring Mills for the services of the Logan Fire company on the occasion of the fire there some weeks ago.

The Finance committee recommended the approval of exonerations of 1923 and 1924 taxes requested by tax collector Herbert Auman, most of which were the result of errors and double assessments. Council approved the recommendation. Secretary Kelly presented the auditor's statement of borough receipts and expenditures for the year 1925 which was accepted and ordered printed for distribution.

Mr. Reynolds called attention to the very dangerous condition of the old buildings at the defunct steam heating plant and, as they are a menace to school children and others, was of the opinion that something should be done. It was reported to council that the school board felt the same way, and the matter was referred to the special committee with power to act in conjunction with the school board or in any manner they might see fit.

Mr. Emerick called attention to the fact that repairs are badly needed on east Curtin, east Linn, east Howard, east High, east Logan, south Potter and other streets, and stated that now is the time when repairs should be made. A general discussion followed on what should be done and when, and the matter was finally put in the hands of the Street committee and borough manager with power.

The Fire and police committee was instructed to have the streets lined and painted for parking space.

Mr. Emerick presented the request of William Tressler for a line and grade for a curb and gutter in front of his property on Howard street. At present there are three separate and distinct curb lines in the one block on Howard street between Spring and Allegheny, and inasmuch as it will require some figuring to decide which one is the right one the matter was referred to the Street committee, borough engineer and borough solicitor.

Bills totalling \$2150 were approved for payment, after which council adjourned.

Look the Scenic and Moose theatre program over for next week and read 'em and weep. 19-1t

Penn State Grange to Present Play at Unionville.

The historical drama "Seein' Far" will be presented in Grange hall at Unionville, on Wednesday evening, May 12th, by the Penn State Grange.

It will be produced for the benefit of the Grange memorial dormitory for girls at The Pennsylvania State College and is a play of such interest as should attract a large audience on its own merits, alone. It was written by Mignon Lott and Prof. W. R. Gordon, both of the department of agriculture, and deals with the origin and life of the Grange in Centre county. Its principal character is "Ed. Harrison," who tries to persuade his father that there is a need of co-operation among farmers, but the poor old man is so brow-beaten by a second wife that he can't see anything.

The play was presented to an audience of 1500 at the State Grange meeting in Johnstown last fall and proclaimed a great success.

For the Unionville showing the company will carry with them the Alpha Gamma Rho orchestra, of State College.

Gaze at the Scenic and Moose theatres program for next week and you surely will be convinced "where the better class photoplays are shown. 19-1t

NEWS PURELY PERSONAL.

—Miss Rebecca N. Rhoads has been spending the week in Washington, D. C., in the interest of her work.

—Mrs. Winifred B. Meek-Morris left here Tuesday morning to spend the month of May, at Atlantic City, following a month's visit in Bellefonte.

—Mrs. James G. Taylor was in from Pittsburgh for several days last week, on one of her occasional visits back home with her mother, Mrs. Bertram.

—Blaine Mabius and his sons drove to Danville, Sunday, to spend the day with Mrs. Mabius, a patient in the Gelsinger hospital. Mrs. Mabius' condition is now thought to be improving.

—Mrs. M. A. Landsy went down to Philadelphia, on Saturday, for a week's visit at her old home. Mrs. Landsy went down last night to spend the week-end and accompany his wife home on Sunday or Monday.

—Miss Lida Morris is a guest at the home of her brother and his wife, Mr. and Mrs. Robert Morris, on Linn street, having just returned north from a visit of several months, with the Charles A. Morris family, at Macon, Ga.

—Mrs. Jacob Gross, the Misses Anne, Christine and Sue Curry, were all at Reynoldsville last week, called there by the death of their sister, Mrs. Henry Redding, whose funeral was held from St. Mary's catholic church of that place, Saturday morning.

—Mr. and Mrs. Hugh J. Boyle, of Hazleton, and their daughter, Jane, were in Centre county the after part of last week, having driven over for a short visit with their daughter at Penn State, and with Mrs. Boyle's mother, Mrs. C. D. Tanner in Bellefonte.

—The Rev. and Mrs. W. J. Wagner were over from Boalsburg Tuesday, for a day with Mrs. Wagner's mother, Mrs. H. K. Hoy, who is ill at the home of her daughter, Mrs. Clayton E. Boyer. Mrs. Hoy's condition which is unchanged, continues critical owing to her advanced age.

—Mr. and Mrs. A. J. Cook and their daughter, Miss Margaret, arrived in Bellefonte Tuesday from Manitow, to open their home on east Linn street for the summer. The Cook family had been in Colorado for the winter with James Cook, who at present is living in the west.

—Miss Alice Tate, who had been a medical patient in the Centre county hospital since before Christmas, is now a guest at the home of her cousin, Mrs. Curtis Johnson on east Bishop street. Miss Tate is now slowly recovering from her long illness.

—Mrs. R. G. H. Hayes is home from a winter's visit with her daughter, Miss Ellen Hayes, in Syracuse, N. Y., and is now occupying her apartment, in the Eagle block, Mrs. Quigley and her daughter, Miss Henrietta, who lived in Mrs. Hayes home during her absence, have gone to their own home on east Linn Street.

—Mr. and Mrs. C. Y. Wagner departed yesterday for Macon, Ga., where they are going for a visit of two weeks with their daughter and son-in-law, Mr. and Mrs. Elbert Lyon Morris. They had expected to go earlier in the spring, but the illness of Mr. Wagner's father made his absence from town for so long a time inadvisable.

—Mrs. S. W. Kerstetter, of Curwensville, and her brother, William Furey, of Pittsburgh, were in Bellefonte, for a week-end visit with their mother, Mrs. Morris Furey. Much of their time while here was spent motoring over the country, and in visiting with other members of the family, which included Mrs. King, of Centre Hall, and Mrs. Hiram Lee, of State College.

—Miss Emily Parker, Mrs. J. P. Lyon and Mrs. James C. Furst, members of the board of the Presbyterian home at Hollidaysburg, drove over there Monday, to attend a board meeting. Miss Olive Mitchell was a member of the party, being a guest for the trip. Later in the week, Mrs. Furst went to Williamsport, for a short visit with her sisters, the Misses Harrah.

—Arthur Rote of Coleville was a Watchman office visitor Friday, having come in to transact some business for Mrs. Rote's grandmother, Mrs. H. F. Spotts, of Unionville, one of the oldest and best known women of that community. Although past eighty, Mrs. Spotts lives alone, looks after all her own household duties, takes care of her garden and has time through her reading, to keep up with the affairs of the day.

—Mrs. James B. Lane returned home last week, from Summit, N. J., where she had been for several weeks with her sister, Mrs. Charles Shafer and her daughter, Miss Anne, while Miss Charlotte Powell arrived in Bellefonte Tuesday night of this week from West Chester where she had been for a visit with her niece Mrs. Hoopes. Mrs. Lane and Miss Powell left Bellefonte the middle of February, to spend some time in Washington, D. C., later going to Atlantic City, where they had been together until leaving for their visit to Summit and West Chester.

—Mrs. John Meese and her daughter, Mrs. J. Will Conley, returned to Bellefonte this week from Pittsburgh, where they had been for the winter with Mrs. Conley's daughter, Mrs. William B. Wallis and her husband, who are preparing to spend the summer in Europe. Mrs. Meese and Mrs. Conley just before their return, were guests for a week of a brother of Mr. Meese at Northside. The Meese home on Logan street, which has been closed during the winter will be opened at once Harry F. Garbrick returning there from the Brockhoff house where he spent the winter.

Pleasant Gap Fire Company Averts Disastrous Conflagration.

Had it not been for the prompt and efficient work of the Pleasant Gap Fire Co., Tuesday morning, most of that thriving town might have been in ruins this morning.

Fire was discovered in the kitchen of the N. E. Wolford tenant house, only 16ft away from the large general store building of Noll and Bro. It was burning furiously and as that entire section of the town is frame construction, was fast becoming dangerous when the local firemen appeared on the scene and, presto, a possible disastrous conflagration was nipped in the bud. A defective flue caused it. The kitchen was practically ruined.

Missionary Activities of the Presbyterian Church.

At the March meeting of the Women's Missionary society of the Presbyterian church, held at the Manse, officers for the ensuing year were elected as follows: President, to fill vacancy caused by the resignation of Mrs. James H. Potter, Miss Anna A. McCoy; vice presidents, Mrs. John S. Walker, Mrs. C. W. Heilhecker and Mrs. J. Dorsey Hunter; secretary, Miss Virginia H. McCurdy; treasurer of foreign missions, Mrs. R. Evelyn Rogers; treasurer of national missions, Mrs. Charles Gilmore; secretary of literature, Miss Grace McCurdy; honorary vice president, Miss Ann Elmira Humes.

It was with regret that the society accepted the resignation of Mrs. Potter, who so faithfully served as president for eleven years. This society, combining the two branches of missions of the church—foreign and national—dates back to the early '70's, with Mrs. Orbison as its first president. Since then a number of honored names of women have served in that office.

The crying need of the church today of more spiritual life and vigor is emphasized in its activity in missionary circles.

The local church is well organized in this line of work, having in addition to the one mentioned above another vigorous society called the Women's Missionary Auxiliary under the leadership of Miss Anna Harris Hoy. The Westminister Guild, the organization for girls, has Miss Doris Moore as president, while the Light Bearers, just starting its second year, is for children over six years, with Mrs. Mensch and Mrs. Thompson as leaders and Virginia Beatty as president. The children under the age of six are enrolled as "Little Light Bearers," in charge of Miss Katherine Allison and Miss Grace Cook.

The finances of all local mission societies are determined by the women's boards, a budget of \$1,344,000 being the sum named for each of the two branches. Toward this budget local societies receive their apportionment which is supposed to be met in dues and free will offerings.

By far the most important branch of work for local societies is the district meeting. The Presbyterial of Huntingdon Presbytery is divided into thirteen districts. In these meetings leaders, Presbyterian secretaries and others meet and confer. Miss Mary H. Linn is president of District No. 4, having under her charge the following churches: Bellefonte, Bald Eagle charge, which includes Port Matilda and Unionville; Lick Run, Milesburg and Snow Shoe.

Bellefonte High School News.

The Bellefonte High school track team will go to State College tomorrow to contest in the annual interscholastic meet. The relay team will make a special effort to duplicate the work of last year's team, which not only won the race but did it in four seconds less time than any previous record. The Penn State—West Virginia meet will also be held tomorrow.

The annual class play will be given at the High school building next Thursday evening. The production will be "Clarence," one of Booth Tarkington's greatest successes. An excellent cast has been selected and every effort is being put forth to give a successful presentation of the play.

The 1926 LaBelle has arrived and is now ready for distribution by members of the Senior class. As the number of copies is limited the book will not be on sale generally, but must be secured from a member of the class. The price will be the same as last year, \$1.00 a copy.

Bellefonte Academy Baseball Team Has Remarkable Record.

The Bellefonte Academy baseball team defeated the Bucknell Freshmen, on Hughes field last Friday afternoon by the score of 3 to 1. Saturday morning they drove to Kingston and in the afternoon defeated the strong Wyoming Seminary nine by the score of 4 to 3. The victories added two more notches to the Academy's winning streak of two years without losing a game. The last game lost by the Academy was in Philadelphia on May 3rd, 1924, when they were defeated by the U. of P. Freshmen. Since that date they have won every game played.

Bellefonters will have another opportunity to see coach Snavely's champion team in action this (Friday) afternoon when Wyoming Seminary will be here for a return contest. Game will be called at three o'clock and every fan in Bellefonte should be on hand.

Tomorrow morning the team will motor to Jeannette for a game with the semi-professionals of that place tomorrow afternoon.

—Mr. and Mrs. Theodore Cherry, of Bellefonte, celebrated their golden wedding anniversary last Saturday evening.
