Two Surprise Parties.

A surprise birthday party was given G. Oscar Gray Wednesday evening, by Mrs. Gray at their home on west High street. Forty of their friends were their guests, cards being the entertainment of the evening.

Mrs. Gilbert Boyer was hostess last night at a surprise party given for the school set, in celebration of her daughter, Elizabeth Labe's, sixteenth birthday. Being of the enthusiastic dancing age, the time was spent principally in dancing.

-On Wednesday afternoon, Miss Caroline M. Valentine gave an exhibition of forty of her paintings, in her studio, at Burnham. They were chiefly her last winter's work done at Taormina, Sicily, where she and her horses and sheep. sister spent the winter. Street scenes, Mt. Etna, the Greek Theatre, the Mediterranean coast, Almond orchards in bloom etc. Also several pictures done while at Pau, France, of the snow capped Basses Pyrenees; others of Capri, Burmuda and Ogonquit, Maine. Miss Valentine considers Taormina the most beautiful spot in the world. There will be another exhibition to-night.

-Only thirty-one days of the trout fishing season remain and so cold has been the weather up to this time that there really hasn't been any ideal fishing since the opening of the season on April 15th. Of course a few persistent fishermen, who have haunted the streams day after day, have been fortunate in landing some trout but very few have reached the limit on any one day.

Centre county won the distinction of placing second in the general livestock judging contest at State College last week. The team was selected from the members of the Stormstown Poland China pig club by an elimination contest conducted by R. C. Blaney, county agent.

The team was made up of the following members: Harold Bullock, Lester Casper and Isabelle Way, all of Port Matilda. First prize was won by the Columbia county team with a total score of 969, while the Centre evening of July 3rd. county team placed second with a total score of 968.4 points or a difference of .6 of a point.

Harold Bullock, a member of the Centre county team, placed first as an individual. In doing this Bullock placed first over a group of thirty boys representing different parts of the State. In this contest the boys and girls judged four classes of livestock, including beef, cattle, hogs,

Ninety Pounds Pasture Daily, is Cow's Limit.

A cow giving an average of 35 pounds of milk a day would have to consume 175 pounds of good pasture every day to maintain her yield and keep in good condition, according to the Larrowe Institute of Animal Economics. Since few can eat more than 90 pounds of grass in one day even from the most luxuriant growth, a big portion of the 35 pounds of milk she gives comes right off her back unless the pasture is supplemented with

or location, is well over one-half water," states the Institute. "In ordinary field grasses this percentage runs from 53 to 77. Sweet clover is 75 per cent. water, Alfalfa ranges from 70 to 80 per cent. water. From any pasture a cow gets not more than 2 to 5 per cent. of protein and a fraction of 1 per cent. of fat; and of all the grasses she eats, only 15 to 30 per cent. is made up of the very necessary carbohydrates. Because grass does not contain enough of the feeding elements a cow needs in proportion to its bulk, the cow cannot keep on producing to the limit of her capacity on pasture alone. Supplementing the grass with a grain ration, however, keeps her from using up her bodily reserve.
