Opportunity Day Made Big Business in Bellefonte.

Every Bellefonte business man whom we interviewed yesterday reported that "Opportunity Day" had proven a very gratifying success. While Wednesday is ordinarily a good business day in town it was evident from the appearance of the streets that there was more than the customary activity. Most of the interest was centered in the awarding of the valuable prizes offered by the Associated Business Men. The drawing was made in the Diamond shortly after 9 o'clock. Three strangers, guests at the Brockerhoff house that night and entirely disinterested, were induced to do the drawing. All of the "Opportunity" tickets were sealed in a box and the

THOMAS A. EDISON VISITS BELLEFONTE.

The Electrical Wizard Spent Monday Night Here. His Visit Recalls

Interesting Incident.

Thomas A. Edison, the electrical wizard, with Mrs. Edison and the latfonte, on Monday night. They had been at Chautauqua, N. Y., and were motoring to their home in Orange, N. by Mr. Edison's friend, Henry Ford. During his brief stay in town burgess bed cold in death. A physician was Hard P. Harris took him out to see Bellefonte's renowned spring and he was also shown the big fish in Spring creek. About the only person in Bellefonte who had an interview of any length with "the Wizard" was the bell boy at the hotel and Mr. Edison did most of the talking. He told the lad that he placed the first electric

lights in Bellefonte over forty years ago then asked him what kind of industries we have here, etc. The dismorning on their journey home.

Anent the visit of Mr. Edison it might be of interest to some of Bellefonte's newer residents to know that this was the second town in the United States to have municipal electric lighting. Sunbury was the first. On July 25th, 1883, a charter was granted to the Edison Electric Illuminating Company of Bellefonte. W. D. Rich, who was vice president of the parent Edison Co., came here from Sunbury after having installed the first Edison plant in the country, and interested enough local gentlemen to start an organization in Bellefonte. They were George Valentine, president; James Harris, secretary; James Sommerville, W. R. Jenkins, Lawrence L. Brown, John I. Olewine, W. R. Teller, Geo. L. Potter, J. Howard Lingle, Adam Hoy and Frank McCoy; every one gone now.

On the night of February 4th, 1884. the lights were turned on for the first time and the event was celebrated with a banquet at the Bush house, then run by Col. Teller, who advertised his hostelry as "the only second class hotel, run by a first class fellow, in the world." It is interesting to note that this paper, in its story of the momentous event, reported that 'the great dining hall of the Bush house was brilliantly illuminated with thirteen ten candle power lights" and that there was one on the table in front of the president that could actually be moved around.

That night was a notable one in Bellefonte. The business houses of A. J. Cruse, tobacconist; Charley Rine's stand, which was a little place where men drew but the prize winners as Robert Roan's store is now located; D. Garman and Son's store, the F. C. Richard jewelry, the Brockerhoff house, the James Harris hardware store, Doll and Mingle's shoe store, John Sourbeck, Blairs and the Bee Hive "were all brilliantly lighted." It has been reported that the first light actually flashed was in the law office of Gen. Beaver and the second in the windows of Blair's jewelry. Be that as it may, the first actual subscribers to the service were Harry Hicks, who then ran a hardware store where F. W. West and Co., are now located; F. X. Lehman who ran the Butts house, now the Brant; D. Garman and Son; Isaac Guggenheimer, the Brockerhoff house, John Anderson and the Garman house. The original company had a contract with Mr. Edison that permitted his death and ever since has worked it to use his patents for a certain time for Mr. and Mrs. G. Murray Andrews. without charge. After that it was required to pay his parent company a trustworthy and worked to the advanroyalty. When the time came to pay tage of his employer. He was a memthe royalty the infant industry was already nearing the rocks. The Bellefonte Gas Co. was functioning efficiently under the management of Robert McKnight and few people had liam Stewart, of East Orange, N. J.; faith in the endurance of "this new lighting contraption." The company of Montclair, N. J.; Harvey, of Bellestruggled along but found the load fonte, and Charles, of Atlantic City. too heavy and then sold out to the He also leaves five grand-children and Bellefonte Electric Company and thus six great grand-children. ducked the royalties to Mr. Edison. For some years it hung on by its eyelashes when, suddenly, the com- J. Collins, after which burial will be munity discovered that electric light was a real and useful commodity and not the machination of the devil. But just before this turn some of the canniest business men in the organization sold their stock in disgust for whathind one caught in the dark of the bit twenty-penny nails in two when ever they could get for it and later the "flop" turned to be a "wow" and Undine picnic, at Hecla park on declared a one-hundred per cent stock dividend on which it paid mighty handsome interest up to the time it was taken over by the present owners.

Bellefonte Ball Team Wins Two More.

Lady luck was with the Bellefonte ball team last week; in fact so much so that it looks as of each of the players is carrying a rabbit's foot, the left moon, in his pocket. Down at the Thursday, they almost obliterated the Williamsport P. R. R. team, and on Hughes field on Saturday they defeated the Renovo bunch, all of which would indicate that the hoodoo has been lifted and the Governors have struck their stride.

They are now third in the league standing, being topped by Jersey of the second period of the season they may be able to do it again the next time they meet. Here's hoping. The standing of the clubs to date is as follows:

and a second and the second of the second	W	L	PC	1
