Mr. and Mrs. Miles Bartley and daughter were Sunday visitors at the J. A. Bartley home.

Mr. and Mrs. Harry Bartley, of Olean, N. Y., are visiting at the J. A. Bartley home this week.

Visitors at the Joseph Neff home, on Sunday, were Ray Ishler, of Pleasant Gap, Mrs. B. F. Neff and daughters, Ella and Ruth, of State College.

Willard Weaver narrowly escaped death late on Sunday evening, at Bellefonte, when his and another car were badly mixed up in a collision.

The cars were badly demolished and Mr. Weaver was taken to a doctor to have his injuries dressed.

The Ladies' Aid society met at the home of Mrs. C. N. Yearick, on Saturday evening, and transacted business. Those present were Mrs. N. H. Yearick, Mrs. William Dixon, Mrs. Harry Hoy, Mrs. John Condo, Mrs. James Bartley, Mrs. Homer Yearick, Mrs. George Rogers and children, Miriam, Lee and baby; Mrs. Willis Bathgate and daughters, Pearl and Emeline; Mrs. Joseph Neff and son Joseph Jr., Mrs. W. E. Weight, Miss Alta Yearick, Mrs. John Beck and daughter, Barbara Ann, Mrs. C. N. Yearick. The society recently installed a piano in the church, and now will hold a chicken supper on October 30th, in the Grange hall, to reimburse the treasury department.

An Open Winter is Altman Prophecy.

Mild weather until the first of December and then only six weeks of rough weather, with an early spring are the predictions of William Altman, Kane's weather sage, who has issued his predictions for the fall and winter of 1926-1927. Prophecies by the well known woodsman are always looked forward to by the nation as a whole, as well as Kane and vicinity.

"Bill" believes that the south will bear the brunt of the cold weather this winter and that the north will escape it. He bases his predictions on his knowledge of wood lore and the experiences of many years with the signs, which he says, are indications of the coming weather.

Mr. Altman has been remarkably accurate in his predictions in the past. Of course he errs at times, but when it comes to predicting the weather in a general way there are few amateur prophets who can equal the Kane man.—Allegheny Reporter.

Important School Laws are Proposed.

Laws which if passed will revolutionize the rural school system in Pennsylvania will be proposed to the next Legislature by a committee of the State School Directors' Association who have been working with Dr. Francis Haas, State Superintendent of Public Instruction, according to an announcement made at Easton by Dr. F. C. Sandt, president of the directors.

The recommendations of the State directors, according to Dr. Sandt, will be to put the rural schools on a par

with schools of the third class. This will require the teacher to be at least a normal school graduate in education, with an annual minimum salary of \$1,000, with increases of \$100 a year up to \$1,400.

OAK HALL.

Mr. and Mrs. William Korman and family, of Tyrone, spent the week-end with relatives about town.

Mr. and Mrs. Carl Zong and young son, of Pleasant Gap, spent several days last week at the Edward Zong home.

Mr. and Mrs. Howard Frazier, of Bellefonte, visited with the latter's parents, Mr. and Mrs. Jacob Zong, on Sunday.

Walter Corman, who has been a victim of typhoid fever for the past few weeks, has recovered so as to be about his work again.

Edward Zong and Ralph Dale motored to Mifflinburg, Friday, and enjoyed the evening as guests of the I. O. O. F. lodge at that place.

Clayton Etters was laid up several days last week as the result of a fall through the breast of the dam at this place. At this writing he is speedily recovering from the effects of the fall.

Mrs. Nannie Gilliland and daughter Eliza, accompanied by Mr. and Mrs. J. Elmer Campbell, motored to Unionville, Friday, and spent the day with Mrs. Gilliland's daughter, Mrs. Joe Alexander.

The farmers in this locality have been busy this past week threshing their grain. Waldo Homan holds the distinction of having the bumper crop of the season, having threshed 3000 bushels of wheat.

Another delicious egg drink, also easily made, is grape egg-nog.

To a well-beaten egg are added the juice of one lime and one tablespoonful of powdered sugar. This is poured into a tall glass half filled with cracked ice, and the glass is filled up with grape juice. The mixture is stirred well and then served very cold.

SLEEP ALL NIGHT NOW

Says Pennsylvania Man. Not Bothered by Bladder Weakness at Night.

A. C. Smith, 41 W. Broad St., Bethlehem, Pa., says, "I now rise in the morning refreshed and feeling fine. Will gladly tell my experience by words or letter. Getting up nights for bladder relief is nature's warning of danger ahead. Lithiated Buchu cleanses the bladder as epsom salts do the bowels, driving out abnormal deposits, neutralizing excessive acids, thereby relieving the irritation which causes getting up nights. The tablets cost 2 cents each at all drug stores. Keller Laboratory, Mechanicsburg, O."

Keep Eliminative System Active

Good Health Requires Good Elimination

ONE can't feel well when there is a retention of poisonous waste in the blood. This is called a toxic condition, and is apt to make one tired, dull and languid. Other symptoms are sometimes toxic backaches and headaches. That the kidneys are not functioning properly is often shown by scanty or burning passage of secretions. Many people have learned the value of Doan's Pills, a stimulant diuretic, when the kidneys seem functionally inactive. Everywhere one finds enthusiastic Doan's users. Ask your neighbor!

Celotechnic Institute Studies Home Builders' Problems

The Celotechnic Institute of America was recently established, with headquarters in Chicago, to study the problems of American home builders and to place at their disposal the latest discoveries in scientific construction.

It is the aim of B. G. Dahlberg, its founder, to delve into all home building problems and to give to the American public the benefit of its research work and to supply the very latest data on most modern building practices.

It will be a veritable laboratory of building facts including structural problems, modern plans, roof and floor insulation, building trends, analysis, laboratory tests, experimentation in refrigeration, sheathing and interior finishes.

"Important discoveries are constantly being made which practically revolutionize previous home building methods," declares Mr. Dahlberg. "In all the facts we give the public we will have an eye on economy, as well as utility, comfort, health and beauty. It is the aim of the Institute to help the home builder build better homes without any material increase in the cost of construction. It will be a real service bureau for the home builder."

Mr. Dahlberg is among the youngest of America's captains of industry. Born in Sweden, the early part of his life in America was spent in railroad work, a good portion of it as an associate of the late James J. Hill, the great empire builder of the Northwest. In more recent years he has been prominently identified with a number of large construction projects. A vision of great efficiency and economy in building, growing out of his experience, finally led to the decision to establish the Institute.

Hospital Color Scheme.

An ideal color scheme has been worked out for the different rooms at the new medical school and hospital at the University of Denver.

The X-ray room has walls of violet red, which has great light absorption power, yet exerts a quieting influence on the patient, and is slightly stimulating to the operator.

In the operating room a soft gray is used. The wards for disturbed patients have yellowish green walls, because this color has been found to have a tranquilizing and cheerful influence.

Rooms with a northern exposure have yellow walls, and those with a southern outlook have sunshine gray walls and furnishings.
