Bellefonte Academy Wins in New York by Narrow Margin.

The Bellefonte Academy football team pulled down a victory over the University of New York Freshmen, last Friday afternoon, literally speaking, by the skin of their teeth. The score was 7 to 0 and the New Yorkers got the goose egg. The fame of the Academy team had preceded their invasion of Gotham and the first year men at the University, who by the way, are captained by a former Academy player, were primed especially for that game. And just how thoroughly they had been drilled is indicated in the fact that it was not until in the fourth quarter that the academy was able to break through their barrier of defense for a touchdown. Three moving picture men took the play and one of the films was shown at the Richelieu, on Monday evening, in connection with the presentation of the Red Grange loving cup to the Academy team.

BELLEFONTE HIGH OVERWHELMED MOUNT UNION.

The Bellefonte High school football team had a walkover against Mount Union High, on Hughes field last Saturday afternoon. The score of 68 to 0 tells the story of the onslaught. Early in the game the visitors started an onslaught which, coupled with penalties on the Bellefonte team, brought a touchdown almost within sight but a stiffening of the local defense saved the day and that was the only time the Bellefonte goal line was threatened.

Heverly was the leading scorer for the Bellefonte team, making six touchdowns. Emel made one touchdown on a sensational 45 yard run. Garbrick and Crust played a fine game and Katz not only handled the team well but was exceptionally good on handling punts, returning one fifty yards before being downed. Worrick was injured but stuck to his post at right guard until the end of the game. He was taken to the Centre County hospital on Sunday and is now recovering.

NOTRE DAME DOWNS STATE.
Out at South Bend, Ind., the Nitany lion roared in vain and Notre Dame chased it back to its lair with the short end of a 28 to 0 score. The Irish were surely up in arms and when they found the going easy pushed it for all it was worth. One touchdown in each period was the result and Notre Dame scrubs were used almost end without number.

Though defeated State is not disheartened and will go into the game against Syracuse, on Beaver field tomorrow, with a determination to win.

To Eliminate Diphtheria.

It is the aim of the State Health Department, with the help of local communities and physicians, to eliminate diphtheria as a health menace by 1930. It has been fully demonstrated that this can be done, just as small-pox and typhoid fever have been brought under control.

In 1921, when the State began to fight diphtheria, there were 2,000 deaths from this disease. In 1925 there were but 978, and so far this year there have only been 455. Thus, it can be seen the number of cases and deaths have been more than cut in half.

In dozens of communities and counties where diphtheria used to kill ten to fifteen children a year, there have been no deaths in two years. Diphtheria is a disease which not only can be controlled but is being controlled, and health authorities believe it will be entirely eliminated in a few more years.

A representative of the State Department of Health is working to put over a diphtheria campaign in Centre county. An opportunity will be given for all children to be protected against diphtheria by the injection of a harmless fluid called toxin-anti-toxin. Further information will be given as to time and place where clinics will be held for this purpose.

Farmers Can Easily Comply with Vinegar Law.

Farmers of Pennsylvania who sell home made cider vinegar should have no difficulty in meeting the requirements of the pure vinegar law, says Director James W. Kellogg, Bureau of Foods and Chemistry, State Department of Agriculture.

It is simply necessary that this vinegar be made in the ordinary manner from apple juice and that it contain no added water, preservatives or substances injurious to health. If care is taken in its preparation and it meets the standard of four per cent acetic acid, it can be legitimately sold.

Farmers are required by law to label their product with the name and address of the maker, clearly printed on the container so that the product can be distinguished from distilled and other types of vinegars.

Package Contained \$150 Worth of Stamps.

Philadelphia, Oct. 7.—What is believed to be a new record for high postage paid on a single parcel was established here last night when a package was sent from Philadelphia to San Francisco by air mail, carrying \$150 stamps.

Postal regulations prohibited local clerks divulging any description of the package, its contents, or recipient, but the package was nearly covered with cancelled \$5 stamps. The air mail postage across the continent is \$4 a pound.

The package went first to New York, then by plane westward.

Harry B. Scott

OF PHILIPSBURG

Solicits Your Vote for the Office
of State Senator

Men and Women of the 21st Senatorial District:

Harry B. Scott of Philipsburg has long had an ambition to serve you as a State Senator. His candidacy is not prompted by political expediency, as a means of livelihood, nor for just the honor of holding that honorable office.

His candidacy is prompted by a desire to serve in a capacity in which he is eminently fitted to serve by long training and study—training on the field of citizenship, where he occupied high rank; in the field of business, where he has been eminently successful, and in politics, the science of government, where his counsel is eagerly sought.

Mr. Scott earnestly desires to become a public servant in every sense of the word, and makes this appeal to the men and women of the District, giving his word, which is as good as his bond, that as your State Senator he will be ever your servant.
