On the top of the mountain his car caught fire and was completely destroyed, with all the clothing.

—A letter recently received from W. H. Fishburn, out at Alda, Nebraska, informs us that in face of the fact that he reached the eighty-sixth milestone last August he still walks a lot and drives his car hundreds of miles. Mr. Fishburn is of the Centre county family of that name and has a number of relatives hereabouts who will be pleased to hear of his good health and good fortune in the golden days of his life.

—While in town last week George Gregory, head of the firm of Gregory Bros., State College, and president of the American Retail Confectioner's Corporation, informed us that his company is moving its New York offices from that city to State College. The injury was not only painful but rendered his hand practically useless for several days, although it is now pretty well healed up.

—With the coming of the new year manager T. Clayton Brown has his contracts in shape to continue giving the people of Bellefonte and vicinity the very best and latest motion pictures made at the leading studios in this country and abroad. These pictures will be shown every night during the week at the Scenic and several nights in a week at the Moose Temple theatre. When looking for an evening of entertainment and amusement go to the Scenic.

McNitt, hauling mine props from Hecla to Bellefonte, and took it onto the scales at the Nathan Kofman coal yard to be weighed. The truck was loaded to capacity but when weighed it was just fifty pounds under weight. Highway patrolman have the authority to allow a leeway of 700 pounds, if they see fit, but the McNitt truck didn't require any leeway.

New Year Ushered In With Electric Light in Zion.

Residents at Zion ushered in the New Year with electric light, a new illuminant in the history of the town. The Keystone Power corporation's Nittany valley line was completed as far as Zion last week, and on Friday evening the juice was turned into the homes and business places of twenty subscribers in that town.

The line will be completed to Hecla as fast as possible and may eventually be extended to Hublersburg, as J. Mac Davis is anxious to install the light in the Hublersburg hotel, which he recently purchased.

Mercantile Appraiser Appointed.

Guy Nolan, of Nittany, a young farmer in east Walker township, has been appointed mercantile appraiser for Centre county, his name appearing on the list of appointments announced by Auditor General Martin on Wednesday. Mr. Nolan is the district Republican chairman in his precinct and was an ardent supporter of John S. Fisher for Governor. He is an energetic and progressive young man and will without doubt make a correct and conscientious appraisal.

—On Sunday afternoon Mr. and Mrs. William S. Katz left Bellefonte in their automobile to take their daughter, Miss Mary and Miss Lois Harrington, to Tyrone to take an eastern train for their return to Sargent College. Between Bellefonte and Milesburg the car skidded and ran into a ditch. Mr. Katz was thrown against the windshield and sustained several lacerations of the face. A passing motorist volunteered to take the young ladies to Tyrone while Mr. and Mrs. Katz returned to Bellefonte.

Bellefonte Aviation Field Put in Semi-Terminal Class.

The Bellefonte aviation field has been listed on the government airmail route as a semi-terminal, which is somewhere between an emergency landing field and a regular stopping place. When the larger and more powerful planes were put into service last September the schedule provided for only one regular stop in Bellefonte, and that was the west-bound plane at 11:30 o'clock in the morning; and the mail sent out from here on that plane was the only air-mail dispatched from Bellefonte.

An order of the Postoffice Department, effective January first, abolished the dispatch of airmail from Bellefonte and cut out the regular stop of the morning plane on the schedule. But so far no order has been issued reducing the personnel at the Bellefonte field, though Forrest Tanner has been appointed manager in charge.

Until further orders a reserve ship or two will be kept at the Bellefonte field for emergencies, and while the present schedule does not provide for regular stops in Bellefonte quite a number of ships do stop, as the weather and wind must be very favorable for a non-stop flight from New York to Cleveland.

As announced in the Watchman some time ago the Postoffice Department has advertised a letting for the carrying of all airmail on the present government routes on January 12th, and it is stated on fairly reliable authority that a Chicago corporation has fully investigated the route and will be one of the bidders. According to a statement issued by the Postoffice Department last Thursday the government has airplanes, landing fields and material valued at approximately \$4,000,000, and the opinion was expressed that the successful bidder for carrying the mail will not only take over all the above but also keep in service the present landing fields and practically the entire personnel now in the government employ.

Of Interest to Depositors of Centre County Banking Co.

During the past week M. Ward Fleming, referee in bankruptcy for Centre county, has sent notices to all depositors of record of the Centre County Banking Company announcing the fact that the trustee of the Mary C. Harris estate has \$80,000 for distribution and if no objections are filed within ten days arrangements will be made for the payment of that amount on a pro rata basis. Depositors have been given until January 29th to appear and prove their claims, and to make it as convenient as possible for them to do so Mr. Fleming will be at the law library, in the Court house, Bellefonte, on Tuesday and Wednesday, January 25th and 26th, between the hours of 10 and 12 a. m. and 1:30 and 4:00 p. m., when and where all depositors can appear and make affidavit to their claims.

Ivan Walker, trustee of the Mary C. Harris bankrupt estate, instituted proceedings last week to determine the rightful ownership of the business block now occupied by the Potter-Hoy Hardware store. This building was originally the property of James Harris, who by will left it to his wife, Lavinia C. Harris, with the proviso that at her death it was to go his brother, Dr. George F. Harris, his heirs and assigns. The latter at his death left it to his widow, Mrs. Mary C. Harris, her heirs and assigns, and the action just instituted is to determine under the law if the property can be claimed as a portion of the bankrupt estate of Mrs. Harris or whether it can be claimed by her assigns, Mrs. J. Mac Curtin, of Pittsburgh, and Mrs. John M. Shugert, of Bellefonte, daughters of Mrs. Harris, who have been named as defendants in the action.

Children at Pruner Orphanage Feast on Turkey.

The eight children at the Pruner orphanage feasted on turkey, on Sunday, and as evidence that they all got plenty of it is the fact that the bird weighed 31 pounds. The orphanage is now in charge of Mr. and Mrs. Jacob Shirk and the turkey was so large that Mrs. Shirk had difficulty in handling it. And what made it more tasty and appetizing was the fact that it was a gift to the orphanage by J. C. Shirk, a successful contractor of Pittsburgh. The latter is a son of Samuel Shirk, of Bellefonte, but has been located in Pittsburgh for some years, long enough to have become quite prosperous.

Bake Sale Tomorrow.

The second division of the ladies' volunteer Bible class of the Bellefonte Methodist church, will hold a bake sale at Kissell's meat market, on Allegheny street, tomorrow. All are invited to patronize the sale and the baked articles will be good. That's assumed.

He comes to Bellefonte several times a year and never fails to dispense generously to those less fortunate than himself. This time it was the children at the orphanage who benefitted by his generosity. The turkey was purchased from a farmer near Julian. Just twenty-one people sat down at the turkey feast on Sunday evening. They included the Shirk family and inmates at the orphanage, Mr. and Mrs. J. C. Shirk, of Pittsburgh, and some of the latter's relatives from Runville.

—On Christmas eve D. M. Kline went down to the Beezer garage, bought a new Studebaker custom sedan, drove it out to the family home on Linn street and then went into the house and told his daughter and son-in-law, Mr. and Mrs. Fred Witmer, to go out and get their Christmas present.

Some Christmas Gift.

—Some present. Some father, we should say.

BOROUGH COUNCIL HOLDS BRIEF SESSION.

Cleans Up Business for Old Year with Good Start in New.

Every member of borough council with the exception of Mr. Eckel, of the West ward, was present at the regular meeting on Monday evening, the first in the new year.

Harold Benner and Malcolm Young were again in evidence to find out what council intended doing in connection with laying a sewer extension on south Allegheny street. To reach the two houses it would be necessary to put down about eight hundred feet of sewer and the expense would be \$1500 or more. Mr. Walker informed Mr. Benner that it was impossible to put down a sewer this time of year, and furthermore the expense was prohibitive for all the returns the borough would receive.

John Benner was also present and complained about lack of water at his home, which is about on a level with the reservoir. The matter was referred to the Water committee.

The secretary presented the bond of J. D. Seibert, water tax collector, in the sum of \$5,000, which was approved.

A communication was received from the Miller Construction company, of Punxsutawney, relative to a disputed bill for the use of the road roller during the construction of the road through Bald Eagle valley in 1925, and the matter was referred to the Street committee and borough manager with power.

The Street committee reported completion of the sewer on Pike alley, hauling snow off the streets and the collection of \$50,00 from Mr. Bingham on account of the sewer extension on east Curtin street and \$5.00 for clay for filling purposes.

The Water committee reported having made a new water connection on south Allegheny street, various repairs and the collection of \$361.74 on the 1923 water duplicate. Exonerations on account of errors, totalling approximately \$300, were allowed, which cleans up the above duplicate. The committee also reported the payment of \$187.50 by the G. F. Musser Co., for rent on the Phoenix mill plant to January 1st, 1927.

The Finance committee asked for the renewal of notes aggregating \$13,000, which was authorized. The committee also reported that the borough treasurer had a balance in bank on January 1st of \$7,672.

The Fire and Police committee reported the burgess' check for \$150 for fines and licenses collected, which makes a total of \$550 he turned in during the first year of his administration.

The secretary read a notice from the secretary of the association of boroughs stating that the annual meeting will be held in Harrisburg on January 24th and 25th, and inasmuch as some very important questions will be up for discussion, such as changes in the borough code, pay for councilmen, new traffic laws, etc., council was urged to send delegates to the meeting. Appointment of such delegates was held over until the next meeting of council.

Bills totalling \$4416.37, which included the \$2000 appropriation to the sinking fund and the annual appropriations to the two fire companies, were approved for payment, after which council adjourned.

Centre County Might Furnish National Guard Encampment Site.

George Stevenson, of Waddle, is our authority for the announcement that the Adjutant General of the State is looking at a large acreage at and about Waddle with the thought that it would provide the State with a very satisfactory permanent encampment ground for the National Guard.

It is said that Mt. Grotna has become too small to provide all the facilities needed for the summer encampments of the Guardsmen. This is particularly the case in the matter of artillery practice. There is not enough room there for the big guns to do their stuff without the danger of blowing over a Lebanon county house or barn. So a site is being looked for where sufficient land can be bought at a price that will not be prohibitive.

As we have been told options have already been taken on a number of farms near Waddle and on that vast "Barrens" plateau about Alto owned by Col. Theodore Davis Boal.

The topography of the section is ideal for military manoeuvres. There is plenty of flat ground for parade formations, hills and wooded lands for sham battling, water and everything else needed. A contiguous territory nine miles long is desired for the artillery work and it can be gotten there at a low price and so isolated as to reduce the civilian hazard to practically nothing.

It is the plan to ask the new Legislature for an appropriation for the purchase of an encampment site and, of course, the whole project is contingent on how it acts on the request.

Falls On Ice Pavement Cause Many Broken Bones.

Mrs. Mary K. Bowers, of the Keystone Power corporation, fell on the pavement in front of the double house occupied by Gideon Payne and Forrest S. Bullock, on east High street, on Saturday evening, and not only dislocated her right ankle but fractured two of the smaller bones therein. She was taken to the Centre County hospital where the fracture was reduced and where her mother, Mrs. Keen, was already a patient. Mrs. Bowers was coming from her home on east Bishop street when the accident occurred and failed to notice a patch of newly-formed ice on the pavement. In this connection it might be said that so far this winter there has been considerable laxity on the part of property owners and tenants in cleaning the snow and ice from the pavements, as well as the borough authorities in enforcing the ordinance requiring pavements to be cleaned within forty-eight hours after a fall of snow.

Miss Helen E. C. Overton fell on the pavement in front of the Mrs. W. H. Taylor property, on Spring street, on Sunday evening, and fractured her right arm a few inches below the shoulder. She was taken to the Centre County hospital where an X-ray was taken and was then taken to her apartment at the Bellefonte Academy.

Mrs. Robert Fry fell on Bishop street, the latter part of the week and broke her leg, and Mrs. S. I. Freed, of Bishop street, fell and fractured the bones in her right arm.

—There was a good attendance at the annual meeting of the Centre county school directors' association in the court house, yesterday, but as the Watchman went to press before the session ended we were unable to cover the same.

—At their meeting, on Tuesday, the County Commissioners decided to reduce the millage this year from 8 to 6 mills for county purposes.
