## M. Ward Fleming, Candidate for Judge, Speaks of the Canons of the American Bar Association, of which he is a Member.

In discussing his candidacy for Judge of the Courts of Centre County, M. Ward Fleming speaks with approval of canons of the American Bar Association, of which he is a member, the spirit of which suggests a proper guide and reminder for Judges, as indicating what the people have a right to expect from them. Mr. Fleming pledges a strict observance of these canons if nominated and elected. In part they are as follows:

1. The assumption of the office of judge casts upon the incumbent duties in respect to his personal conduct which concern his relation to the State and its inhabitants, the litigants before him, the principles of law, the practitioners of law in his courts, and the witnesses, jurors and attendants who aid him in the administration of its functions.
2. Courts exist to promote justice, and thus serve the public interest. Their administration should be speedy and careful. Every judge should at all times be alert in his rulings and in the conduct of the business of the court, so far as he can, to make it useful to litigants and to the community. He should avoid unconsciously falling into the attitude of mind that the litigants are made for the courts, instead of the courts for the litigants.
3. It is the duty of all judges in the United States to support the Federal Constitution and that of the State whose laws they administer; in so doing, they should fearlessly observe and apply fundamental limitations and guarantees.
4. A judge's official conduct should be free from impropriety and the appearance of impropriety; he should avoid infractions of the law; and his personal behavior, not only upon the bench and in the performance of judicial duties, but also in his every day life, should be beyond reproach.
5. He should be temperate, attentive, patient, impartial, and, since he is to administer the law and apply it to the facts, he should be studious of the principles of law and diligent in endeavoring to ascertain the facts.
6. He should exhibit an industry and application commensurate with the duties imposed upon him.
