

**NEW CHEVROLET SIX  
TO BE READY JANUARY 1.**  
Decker Chevrolet Co., Announce Start-  
ling New Car for Next Year.

With the coming January 1 will come a new and startling Chevrolet. It is a Six with the Fisher body and all the refinements of the four and at the same price.

Passing on to the motoring public the benefits of economies arising out of tremendous volume production, the Decker Chevrolet Company of Bellefonte, today, introduces "the Outstanding Chevrolet of Chevrolet History—A Six in the Price Range of the Four."

In making this important announcement, C. G. Decker, local Chevrolet dealer, points out that the sensational public reception accorded the car in recent years has enabled Chevrolet at this time to offer the added power, speed and smoothness of six cylinder performance at practically the same prices that contributed so much to the world-wide popularity of the four.

Preparations for the greatest year in its history are now being made by the Chevrolet Motor Company. Production of the new car was started last week and the company's fifteen giant factories across the country, will be turning out cars to be shipped to dealers by December 15. Deliveries to the public will start January first.

Although no definite schedule has been set for 1929, Mr. Decker declared that production of the new car would probably exceed 1,250,000 units thereby surpassing all former records. Seven models of passenger cars and three commercial types comprise the line, which according to General Motors officials, embodies the greatest dollar value ever offered in an automobile. Included in the passenger line are five closed and two open models.

All bodies this year carry the famous Fisher stamp of craftsmanship. The commercial car line embraces a new and larger Utility Truck of one and one half ton capacity, a new light delivery chassis and the Sedan Delivery.

From an appearance standpoint as well as from inherent design, the car is completely new with a wide range of attractive colors and fine car appointments formerly found only on the more expensive makes.

Despite the score of advanced features, prices remain practically the same, chiefly as a result of the influence of tremendous volume production. The passenger car range is from \$525 to \$725, f. o. b. Flint, Mich. The prices, according to models, are as follows: Roadster, \$525; phaeton \$525; coach \$595; coupe \$595; sedan \$695; sport cabriolet \$695; convertible landau \$725. The commercial car prices are: light delivery chassis \$400; one and one-half ton Utility truck chassis \$545; one and one-half ton Utility truck chassis with cab \$650 and the sedan delivery \$595. All prices are f. o. b. Flint, Mich.

One of the body features is adjustable reclining seats. First showings of this new high class low priced car will be made in the big centres of distribution next week and it is promised that before January 1st the local dealers, the Decker Chevrolet Co. will have all of the sensational car in their show room here.

Two cars, one a sedan and the other a roadster, engaged in a speed race on the concrete State Highway between here and Unionville, about five o'clock last Friday evening. We failed to hear which one won, but what a risk the drivers took, and it was a lucky thing no cars were coming down the valley at the time else there might have been a tragic accident.

—Anglican rector in the South of Ireland, wanting to replace his old church by a new building, ventured to send his appeal to the Roman Catholic priest of the parish, with whom he was on friendly terms. His response was: "I cannot subscribe to the building of your new church, but here is two guineas toward the demolition of the old one."

—Cutting the weed trees in the farm woodlot will improve the quality of the stand in future years.
