-The Centre County Lime company and the Chemical Lime company have joined with two other lime companies and three glass manufacturing companies in a complaint to the Public Service Commission against the Pennsylvania and Baltimore and Ohio railroads, alleging an unjust and unreasonable tariff on shipments of ground limestone and fluxing stone to points within the State.

**COUNCIL URGED TO PASS** A MILK ORDINANCE.

#### Board of Health Alleges Milk Sold in Bellefonte Impure.

Three members of the Bellefonte Board of Health appeared before borough council, at the regular meeting on Monday evening, to urge the passing of an ordinance regulating the sale of milk in Bellefonte. John G. Love, secretary of the board, presented the draft of an ordinance prepared and sanctioned by the board at a meeting on November 7th. It is a voluminous instrument and provides it is taken from the cow until it is consumed by the purchaser. Mr. Love also presented as Exhibit A a quart

bottle of milk alleged to have been unsanitary bottling.

John Blanchard Esq., president of the board, emphasized the importance

Dr. J. L. Seibert added his bit by stating that seventy-five per cent. of glandular trouble in children and at called children's diseases are directly traceable to infection from impure Bellefonte, and there has been one death from this disease, all caused by impure milk.

George C. Morris, a representative of the State Board of Health, who recently spent some time in Bellefonte examining the sources of the town's milk supply and how the product is handled, stated that it is not what it should be by any means. He further stated that it would not work a hardship on any dealer to equip himself to handle the milk in a thoroughly sanitary matter. In fact he estimated the expense at anywhere from \$50

to \$150. The ordinance, if passed, would place the entire regulation of the sale of milk in the hands of the local Board of Health, which would be empowered to employ an inspector for part time at an estimated cost of from \$30 to \$45 a month. Every dealer would be required to secure a permit for the sale of his product which

permit will cost two dollars for every hundred bottles of milk sold daily, the permit to be good for one year. The ordinance was referred to the Special committee and borough solicitor.

The Street committee reported goneral repairs on various streets in town.

John Klinger, who farms on the ighway just west of Lemont is out a farm hand and a \$200.00 pure bred calf he recently bought, all because 'calves is calves."

With the idea of improving his dairy herd Mr. Klinger recently purchased a very promising pure bred heifer calf. At the time he had a gade calf of about the same age and markings in the barn. He sold the rade to a butcher. Several days ago the butcher called at the farm for his alf and as the owner was away at the time the farm hand gave him the \$200 animal.

It was not long until Mr. Klinger discovered that the wrong calf had been taken. You know it is not long, either, that a calf has to live after a butcher gets hold of it, so it was veal when the unhappy owner tried to recover his costly live stock.

Citizens to Buy New Armory Site.

At a meeting of business men, held in the grand jury room in the court nouse, last Friday evening, the committee appointed to secure an option on a site for the proposed new armory for Troop B, reported that they had taken an option on ten acres of ground on the Harry Lutz farm at purchase price of \$2500. As this ite has been approved by the State armory board it was deemed the best hat could be obtained in this vicinity, and it was decided to exercise the option and raise the money to pay for the site by public subscription. Twenty per cent. of the money is to be paid by December 12th, and the balance three months hence. This should give ample time in which to raise the funds. The purchase of the new site will eventually mean that the school board will come into ownership of the present armory.

-"Uncle Tom's Cabin," the screen version will be shown at the State theatre next Monday, Tuesday and Wednesday nights. It is a marvelous presentation of Harriet Beecher Stowe's immortal drama and is rated as one of filmdom's greatest productions. It is said to run true to the book, as well as the stage productions, though so vastly more elaborate than the latter could be that one has never really seen "Uncle Tom's Cabin" as it should be if he has not seen the screen version.

> State Farm Show.

Provision for the construction of a building to house the annual State Farm Products Show will be included in the budget recommendations which the Governor will make to the next session of the General Assembly. Since the first show was held in

Harrisburg the various organizations interested in it have urged that provision be made to house the exhibits under one roof. In past years it has been necessary

temporary use of auditoriums and galages in scattered sections of the city. For a visitor to see all the ex-hibits and attend a small part of the meetings it was necessary to travel to separate buildings. The largest building formerly used for the annual show is now occupied by the bureau of publications, and part of it will be used for the storage of State records.

Two sites, one of them on the ground owned by the Harrisburg State hospital, are under consideration.
