## **BELLEFONTE'S FIRE LOSS** VERY SMALL FOR YEAR 1928.

## Less Than \$20,000 Though Firemen Responded to Many Calls.

The Watchman has always commended the work of Bellefonte's volunteer firemen, as they are always nut City hospital, in Philadelphia. He quick to respond to every call for saw service in most of the major their services, and the effective work battles in which the Army of the Pothey do is shown in detail in the fol- tomac took part. He was one of the lowng annual report of fire marshall detail of eight men from Company John J. Bower, as submitted to bor- G who made the successful assault ough council on Monday evening.

Bellefonte, Pa., Jan. 2, 1929 To the Officers and Members of the Town Council of Bellefonte, Pa. Gentlemen:-

Pursuant to the ordinance governing the Fire Department of the borough, I beg to herewith submit my report for the year 1928.

During the year the Fire Department responded to 59 alarms, of which 27 were general alarms, 19 united in marriage to Mary Ann dale Farms, Mor still alarms and 13 out of town calls. Cooper who preceded him to rest in of the deceased. In response to these alarms the Department laid 12750 feet of 21 inch hose, raised 270 feet of ladders, used 225 gallons of chemicals, traveled approximately 265 miles and were in service 35 hours.

ough, the value of the buildings involved was \$416,400.00, contents \$218,100.00, or a total of \$634,500.00. The insurance carried on the buildings was \$290,900.00, and on contents \$164,500.00, or a total of \$455,500.00. Loss on buildings was \$10,420 and on contents \$9,010.00, or a total loss for the year of \$19,430.00, being .0308 per cent. of the values involved. .995 per cent. of the fires were confined to the point of origin, and those that were not so confined were almost entirely involved before the alarm was turned in.

The causes of all fires in the borough were determined, as follows: Burning flues, 21; short circuits in electrical appliances, 6; cigarettes, 3; late home on Wednesday morning at spontaneous ignition, 2; undetermin- 10 o'clock, conducted by Rev. Samuel ed, 2; false alarms, 2; sparks from Martin, of State College, assisted by cupola, 1; overheated kiln, 1; incendi- Rev. J. Max Kirkpatrick. ing to Pittsburgh about eleven years Before our family left the pret-ago. She was a member of the Meth- tiest little town in the State (Bellefonte) I used to see a very poor boy driving an old horse, hitched to a broken-down wagon and altho twenty years have elapsed since we came here I remember his name as Wesley

Enclosed find my little contribu-

you called him "heroic." For, indeed, he was just that.

emetery. not turned in maliciously but by parties who had reasonable cause to believe that a fire existed.

of serviceable hose, which is near the amount required by the underwriters. A new combination chemical and hose wagon has been purchased by the with the exeception of a 50 foot ladder, which I believe unsafe and should be replaced with a modern trussed ladder. The Undine steamer should be placed in working condition so that it could be used as a reserve in an emergency. Until recently I years ago. The early years of his but that it could be placed in good the old McCafferty building on Railcondition for a very small cost.

The cost of repairs during the year has been \$334.42 and for gas and oil \$122.96, and the borough has received for out of town calls \$86.67. During the year I succeeded in securing, which will reduce the cost of gasoline to each department three cents a gallon.

While some progress has been made during the past year toward reduc-ing the deficiency charge made by the insurance comranica made by the insurance companies, yet no defi-nite action has been taken and I would respectfully urge that the matter be given attention, especially as to the Carrolltown. He also leaves two lowing a brief illness. adoption of a building code and a modern fire alarm system, so that we may be in a position to ask for a rerating of the borough. It is the opinion of the officers of the fire department that if the above and a few minor changes be made that the deficiency charge could be reduced eight or ten cents, which would mean a very material saving to the citizens of the borough.

Among the requirements of the underwriters is an annual inspection of fire apparatus and appliances, and at present we have no accurate method of determining whether the pumpers are in condition to deliver their rated capacity. This could only be accurately ascertained by the use of a nozzle gauge. Such gauge, I believe, would be a valuable addition to the department, as it would enable us to test both pumper and hydrants as to their delivery capacity, and such gauge could be secured at a cost of approximately \$25.00 or less.

I wish to express my thanks to the officers and members of the Fire Department and to the members of Council for their cooperation throughout the past year.

Respectfully submitted, JOHN J. BOWER, Fire Marshall.
