GOVERNOR FISHER DOES WELL BY STATE COLLEGE.

The Governor's bills for appropriation of \$6,211,000 for the Pennsylvania State College were introduced in the Legislature last week, Senator Harry E. Scott sponsoring the Senate measure and Representative J. L. Holmes, Centre county, that in the House.

Compared with a total appropriation of \$4,000,000 from the 1927 Legislature, the Governor's budget provides \$2,250,000 for new buildings, would pay off an accumulated debt of \$711,000, and give \$3,250,000 for maintenance as compared with three million for the 1927-29 period. Of this latter amount \$400,000 would be used for agricultural research, \$650,000 for agricultural and home economics extension, and \$2,300,000 for general maintenance.

The only part of this proposed appropriation that would be applied to needs for which the \$8,000,000 bond issue defeated by voters in November was intended, is the item of \$2,250,000 for buildings. Had the bond issue been approved, a million dollars a year for eight years would have been available for college buildings. The two and a quarter millions in the Governor's budget would be available for use in the next two years.
