Clevenstine, H. E., merchant.....Bellefonte  
Lucas, Wilbur S., laborer.....Gregg  
Gates, W. B., salesman.....State College  
Fletcher, Charles, laborer.....Boggs  
Thomas, John, farmer.....Worth  
Limbirt, Herman S., farmer.....Gregg

### TO BE WELL SHAKEN.

A prominent city man who is as mean as he is wealthy, relates an English paper, is fond of getting advice for nothing. Meeting his doctor one day, he said to him, "I'm on my way home, doctor, and I feel very seedy and worn out generally. What ought I to take?"

"A taxi," was the curt reply.—Boston Transcript.

Insurance Agent: "So you want all your office furnishings insured against theft?"

Manager: "Yes, but you needn't include the clock. Everybody watches that."—Brooklyn Eagle.

"Petticoat rule," about which we used to hear so much, is now more appropriately referred to as "Invisible Government."—Everybody's Weekly.

The best reducing exercise consists in moving the head from left to right and back again when asked to have some more.—The Baptist.

Personally we crave luxury, but we have never seen a \$5,000 funeral that we wanted.—Dallas News.

There doesn't seem to be much trouble meeting expenses—one meets them everywhere.—Wall Street Journal.

## PATIENTS TREATED AT COUNTY HOSPITAL.

Mrs. I. W. Wright and child, of Spring township, were discharged on Tuesday of last week.

Robert Hasek, ten-year-old son of Prof. and Mrs. C. W. Hasek, of State College, who had been a surgical patient for the past seven weeks, was discharged on Tuesday of last week.

Mrs. Helen Maben, of Bellefonte, was discharged on Monday of last week, after receiving medical treatment.

Harry Grubb, of Port Matilda, was admitted on Wednesday of last week to undergo medical treatment.

Chester Billett, of Coleville, was admitted on Wednesday of last week for medical treatment.

Mrs. Margaret Swabb, of State College, was admitted on Wednesday of last week for medical treatment.

John Zelesnick, an employee of the White Rock quarries, at Pleasant Gap, was admitted on Tuesday of last week for surgical treatment.

C. Arthur Thomas, of Bellefonte, was admitted on Tuesday of last week for surgical treatment, having broken his right arm when he threw a baseball to some boys who were playing near the office of his coal yard.

Mr. and Mrs. Albert Knisely, of Bellefonte, are receiving congratulations over the birth of a son, on Tuesday of last week, whom they have named Richard Knisely.

Mrs. John Fishburn, of Benner township, who had been a medical patient for the past sixteen weeks, was discharged on Friday.

John G. Hackenbrach, of Williamsport, who had been a surgical patient for the past nine weeks, was discharged Saturday.

Mrs. Eliza Meiss and infant, wife and daughter of Frank Meiss, of Spring township, were discharged on Saturday.

Mrs. Harry Martin, of Bellefonte, was discharged on Friday after undergoing surgical treatment for four weeks.

Mrs. John Barnes, of Spring township, who had been undergoing medical treatment for the past four weeks, was discharged on Thursday of last week.

Ozar Hanscom, of Unionville, was discharged on Thursday of last week, after having undergone surgical treatment.

Daniel G. Peifer, of Williamsport, was admitted on Friday for medical treatment.

Philip McCandless, of Philadelphia, a student at Penn State, was admitted on Friday for surgical treatment. He is a member of Tau Phi Delta fraternity.

Samuel Roberts, of Shenandoah, Pa., a student at Penn State, was admitted on Friday as a surgical patient. He is a member of the Sigma Phi Epsilon fraternity.

Cecil Collingswood, an employee of the Titan Metal Co., was admitted on Saturday for medical treatment.

Philip O'Leary, son of Mr. and Mrs. Daniel O'Leary, of Bellefonte, was admitted on Saturday for surgical treatment. It is likely that an appendicitis operation will be performed.

Mr. and Mrs. Kurt Mahnke, of Bellefonte, are receiving congratulations upon the birth of a daughter, Carolyn Dorothy Mahnke.

Mrs. Frederick Cox, of Ferguson township, was admitted on Sunday for surgical treatment.

Mrs. Della Gates and infant, wife and daughter of Charles Gates, of Walker township, were discharged on Sunday.

Charles Isenberg, of Harris township, was admitted on Sunday for medical treatment.

There were forty-one patients in the hospital the beginning of this week.

## GRANGERS ARE PREPARING FOR ENCAMPMENT AND FAIR

The committee having in charge the Grange encampment and Centre county fair, will meet on Grange Park, Friday evening, May 3rd, at 7 o'clock, when definite plans will be made for 1929 season opening Saturday, August 24th, and continuing one week.

The outlook is bright for a successful fair and a big camp and already much work has been done to the grounds in preparation for the big event in the planting of a large number of shade trees on a plot west of the present camp.

Tents have again been purchased and a greater number than heretofore in an effort to supply the applicants, who are interested in this growing and popular feature distinctive at Centre Hall.

A new poultry building constructed along best modern lines will be erected and repairs and improvements to buildings in general will be undertaken and completed in time for the fair.

The Pennsylvania and New York Central Railroad companies have entered protests against the proposal of the State Highway Department for the elimination of a grade crossing and the improvement of two bridges over railroad tracks in Snow Shoe township. The companies claim the improvement is not necessary and protest against paying any part of the expense of same.

Brass beds may be easily cleaned by rubbing them over with a woollen cloth moistened with olive oil.

## BELLEFONTE AND STATE COLLEGE DEBATE HONORS

The series of debates, sponsored by the State College Parent-Teacher Association in competition for a silver trophy presented by that organization, ended on Friday night, April 19, with State College and Bellefonte tied for first place.

State College, Bellefonte, Phillipsburg and Tyrone High schools were represented in the debates.

When the first debates were held on April 5, Bellefonte defeated the Phillipsburg affirmative team and the Tyrone negative. That same evening State College won from the Phillipsburg negative and the Tyrone affirmative, thus making a tie between State College and Bellefonte.

The following week B. H. S. affirmative team defeated State College negative but at the same time State's affirmative defeated our negative. As a result and the two schools were again tied for first place.

Last week our negative journeyed to Tyrone where they lost by a narrow margin. At home our affirmative won a victory over State. At the same time State College won a victory over Tyrone but lost at Phillipsburg, thus making the score again tied.

The league, which was organized through the efforts of the State College Parent-Teachers' Association, has been in existence for four years. State College won the trophy for four years and had the honor of seeing her name hold first place. The following year Bellefonte and State College tied for first place and divided the honors by having both names engraved on the trophy. Last year Bellefonte succeeded in attaining first place and the privilege of having her name engraved alone.

As yet no decision has been made, but doubtless the plan of two years ago will be followed and the two schools will again share the honors by having both names placed on the cup, which will be kept in State College during one semester and in Bellefonte during the other semester.

The debaters deserve a lot of praise for their efforts to bring honor to their Alma Mater. Debating requires hard and persistent effort not for a few days, but for weeks. Mastery of the subject as well as knowledge of the art of persuasion is necessary, both of which require much solitary effort. The athlete, who brings honor to his school, is urged on by pep-meetings and the cheers of his schoolmates, but the debaters must "go it alone."

The high school looks forward to a good season next year, as two juniors were on the first team while five other juniors were members of the club and have had the advantage of a year's experience.

## JUNIOR ORATORS CHOSEN FOR BELLEFONTE HIGH.

That the school term in Bellefonte is drawing to a close is evidenced by the fact that the speakers have been chosen for the junior contest which according to custom will be the opening event of the Commencement activities.

In this contest which is held in competition for a prize offered by Colonel W. Fred Reynolds, ten contestants will compete. A prize of \$7.50 will be awarded the boy and a similar amount to the girl who delivers the best declamations, according to the opinion of the judges.

So much talent has been displayed in the Junior Class that it was a hard task to select these contestants. A process of elimination was used. Eighteen boys and girls were first selected. In the second try-out, the five boys and an alternate were chosen, but it was necessary to hold a third try-out for the girls, so that all was as fair as possible.

Those selected in the final try-outs were as follows:

Boys—Paul Taylor, Samuel Brickner, Harry Beck, Earl Heverly, Reynolds Shope, Alternate—William Zerby.

Girls—Beulah Harnish, Barbara Rhoads, Jane Musser, Jean Haupt, Christine Smith, Alternate—Eleanor Hill.

## TWO DEATHS AMONG INMATES AT ROCKVIEW.

Harry D. Ludwig, of Clinton county, died in the institution hospital, at Rockview, on Wednesday of last week, after four days' illness with lobar pneumonia, the result of a heart affection. He was 41 years old and is survived by his wife and two children; his parents, two brothers and four sisters, all of Clinton county. The remains were taken to Lock Haven where funeral services were held on Saturday and burial made in the Dunnstown cemetery.

The other death occurred on Saturday, when Anthony Skates, of Pittsburg, passed away as the result of a severe attack of erysipelas. His body was also shipped to Pittsburg for burial.

## CHARGE GOLD THEFT.

For 15 years Elijah Pierce, 64, of Westmount, N. J., worked in the United States Mint amid stacks of money amounting to millions of dollars. Today he was accused by Secret Service men of stealing 11 gold discs valued at \$200.

Pierce worked in the \$20-gold-piece department. He helped wash discs of gold before they were stamped into coins.

Debts piled upon Pierce, Capt. William H. Houghton of the Secret Service said, and early in March, it is alleged, he slipped a gold disc into his pocket daily for 11 days.

The loss was discovered in the annealing division and Pierce was arrested. It was reported he confessed.

—Now that the Legislature is no longer "on his hands" Mr. Grundy can give his entire attention to bossing Congress.

# LUMBER? Oh, Yes! Call Bellefonte 4 W. R. Shope Lumber Co.

Lumber, Sash, Doors, Millwork and Roofing

## PHOTOGRAPHS AND LETTERS TO BE SENT BY RADIO.

Transmission of a photograph or letter to friends in Tokio, Paris, Buenos Ayres or Timbuctu in less than a minute will probably be possible within the next few years, according to Dr. V. Zworykin of the Westinghouse Research Laboratories in East Pittsburgh, Pa.

Apparatus that will make possible transmission of documents and photographs is being perfected by Dr. Zworykin. The device which effects picture transmission will send and receive a picture in black and white or half tones of a size of five by eight inches in about 48 seconds.

With written messages Dr. Zworykin said, transmission is accomplished at the rate of about 630 words a minute. The received messages and pictures are reproduced on photographic paper directly from the original picture or message.

Dr. Zworykin's method is radically different from all other present methods of picture and message transmission. The scanning of the original picture or message is done by pencil of light with very sensitive instruments to utilize and interpret the light reflected from the object to be transmitted.

The original source of the light is then focused in a diaphragm to make first size of the spot independent of the size of the source. The image of the diaphragm, with necessary reduction is then focused on the surface of the picture.

The light reflected from the picture is gathered by means of a curved reflector, the focus of which coincides with the illuminating point. Part of the reflector is cut away to allow passage of the light.

In this way practically all the reflected light is collected, projected as a more or less parallel beam by the reflector. A flat mirror with a small hole for passage of the illuminating spot intercepts the reflected light at an angle of 45 degrees and diverts it to the photo-cell.

A standard bromide photographic roll is at the receiving end of Dr. Zworykin's apparatus. The roll is wrapped around a recording cylinder and a special helium glow lamp furnishes the light for making the reproduction.

One-tenth of the world is still unexplored.

## CERTAIN CREATURES KNOW WEATHER.

Certain creatures anticipate changes in the weather by strange actions, says the Washington Star. They seem to feel uneasy and then take necessary precautions. When they foresee bad weather, bees go out very early in the morning, keep near their hives, return suddenly with partial loads of nectar and become easily irritated, attacking those who approach. The garden spider turns its head toward the interior of its hole and strengthens its web with numerous extra threads.

Ducks raise themselves on their toes, make a great outcry and seem to be excited. Roosters crow at evening or at other unaccustomed times. Oxen raise their muzzles into the air, as if to sniff the wind, and then huddle together. The mule appears sad, the jackal whines. Ants stop work and retire to their underground galleries. Swallows skim close to the ground and snails come from their holes.

## ANTARCTIC ICE.

If Commander Byrd's expedition to the Antarctic answers but one question it may prove of the greatest value to the world. That question is: Is the Antarctic ice cap melting? If it is then the seacoast cities of the world might better begin now to move inland to high ground, for the complete melting of the Antarctic ice would release enough water, now stored as ice, to raise the level of the whole ocean by 50 feet, says Sir Edgeworth David of Sydney, Australia, a distinguished explorer and geologist, in Popular Science Monthly. There seems ground for belief that the tradition of world-wide flood, persistent among all ancient people, may have originated in the rise of the oceans when the Arctic ice cap melted at the end of the last Ice Age, about 20,000 years ago.

## 666

is a Prescription for Colds, - Grippe, - Flu, - Dengue, Bilious Fever and Malaria. It is the most speedy remedy known.
