#### LOCAL LIME COMPANIES AWARDED REPARATIONS.

Six years ago when the Chemical Lime company and the Centre County Lime company filed petitions with the Interstate Commerce Commission and the Public Service Comission for a more equitable adjustment of freight rates on shipments of lime and limestone, they also filed claims for reparations totaling almost \$150,-000 on what they claimed were ex-

cessive freight charges. The two commissions granted the relief prayed for so far as ordering lower tariffs but refused to consider their ruling as retroactive and would not grant reparations. The matter was then carried to the Superior court of Pennsylvania, and that body, in an opinion and decree handed down on Wednesday of last week, considers the claim as just and right and allows the reparations.

#### TWO OCEANS VISIBLE AT THE SAME TIME.

At only one spot in the western hemisphere is it possible to view the Atlantic and the Pacfic Oceans at the same time. That is from the top peak of El Vocan, an extinct volcano rising 12,000 feet, in Panama. The peak is regarded as holy ground by the Maya race of Indians, and it is said that but two white men ever reached the top. Only one returned, John Critchlow, of Salt Lake City, Utah, having the distinction of accomplishing the unique feat. Charles Brown disappeared and is supposed to have been killed by the Indians.
