Mrs. Kathleen Wagner, of Bellefonte, was discharged on Monday, after having undergone medical treatment.

Mrs. Rosie Immel, of Bellefonte, was discharged on Monday, after having undergone medical treatment.

There were a total of 43 patients in the hospital at the beginning of this week.

POLICE NAB CHECK KITER IN BELLEFONTE FRIDAY.

Three men were arrested in Bellefonte, last Friday, by sheriff Harry Dunlap and chief of police Harry Dukeman, for attempting to pass worthless checks. The men were Harry Ritter, Harold Wright and William Griffith, of Lewistown. They came to Bellefonte by automobile and in the short time they were here before being picked up visited at least five places, the First National bank, John Gross' grocery store, Sim, the Clothier, Harold Cowher and Katz's store.

They were arrested at the latter place. Police investigation disclosed the fact that Ritter was the only one of the three who made any attempt to pass checks, and as there was nothing on which to hold the other two men they were discharged after spending several hours in the Centre county jail. The sheriff of Mifflin county was notified of the arrest and as Ritter was also wanted over there for passing worthless checks he came over and took him back to Lewistown. It is also reported that he is wanted in Clinton county for check kiting.

Only ten more days after today and trout fishing will be a sport of the past for this year.

WHAT ARE WE DOING FOR CRIPPLED CHILDREN.

The eighth convention of the International Society for Crippled Children held in our own county this spring revealed the unprecedented work which is being carried out in the interest of cripples in an ever increasing number of States and countries. Work is being done by the Rotarians, Lions, Kiwanians, Red Cross Societies, Elks, Masons, Shrine and other lodges, Parent-Teacher Associations and Women's Federation of clubs. Canada is attacking the problem with spirit. The work has developed rapidly in the Central European countries. Norway has a system of devoting one national holiday a year to the crippled children's work. On this day throughout the country, national sports and games are played and the proceeds devoted to crippled children's work.

On the subject of the "Crippled Child and the Spirit of America" one speaker stressed the fact that the wide-spread, growing movement for the rehabilitation of crippled children, which has taken possession of our minds and hearts must, if it is to realize all that it hopes to accomplish for them, be founded on some fundamental social philosophy and for this philosophy he quoted from one of President Hoover's addresses; "The social force in which I am interested springs from one source of human progress—that each individual shall be given the chance and stimulation for development of the best within which he has been endowed in heart and mind; this is the sole source of progress; it is American individualism."

For the crippled child this means giving it the best possible approach to the equality of opportunity of the normal child, as complete equality of opportunity for a certain proportion of the crippled children is unattainable. This means remedying, or remedying as far as possible, the physical defect, educating the child, especially vocationally, and lastly, finding for the child a position in the kind of work for which he is fitted and under the employment of a person on whose sympathetic interest he can count.

To carry out this program the first necessary step is the location of the crippled children and this means interest and effort from the public spirited citizens and from the service clubs of the communities.

In Centre and Clearfield counties the program for the carrying on of the crippled children's work will necessitate the redoubling of efforts to locate and bring in as many children who need care as possible, since the lowered appropriation for the crippled children's work will necessitate lengthening the intervals between the clinics. The officers of the Centre-Clearfield Crippled Children's society earnestly solicit the interest and cooperation of the citizens of the community in forwarding the work.

RECLAIMING BARREN SOIL IN SNOW SHOE TOWNSHIP.

Today July 19th, the farmers from Clearfield and western Centre counties will visit the soil fertility and pasture plots at the Snow Shoe experiment station. Specialists from State College will be on the ground to explain the treatments which the plots have received and the crops secured, and to discuss farmer's fertility problems in an informal manner. One series of plots is now in corn, another in pasture, and two in clover. The clover crop will be cut and weighed and left on the plots in cocks until after the 19th.

These experiments were started in 1916 on a field which is typical of Clearfield county soil, but which was so poor that no one had attempted to farm it for many years. The object of the experiment was to see how best this land could be brought back to the profitable production of pasture grass and farm crops. Lime alone and in combination with different fertilizers and moderate amounts of manure was applied. After the first crop of clover, the plots receiving lime, 400 pounds of superphosphate (acid phosphate) and 100 pounds of muriate of potash, produced 37 bushels of shelled corn per acre and 38 bushels of oats. While the unfertilized and unlimed plots produced only 2.3 bushels of corn per acre and 5 bushels of oats. Three complete four-year rotations of corn, oats, wheat and clover have been grown since the experiment was started.

FORMER FILLMORE BOY TO TEACH AERONAUTICS

Right in line with its advanced standing in having beaten many large cities to the goal of having a modern airport Centre county has started furnishing qualified instructors for colleges that have added aeronautics to their curriculum.

Sherman Lutz, a son of Charles E. Lutz, of Fillmore, has been made instructor in the mechanic's division of the staff at Beckley college, Harrisburg, which institution announces the inauguration of a regular two-year course in aeronautics. He will be chief of the division.

Mr. Lutz has been at the Gettysburg airport for the last year and was associated with the Berliner Aircraft Corporation at Alexandria, Va., and with the National Air Transport.

BUCK DEER ONLY WILL BE LEGAL KILL THIS YEAR.

At a meeting of the State Game Commission, last week, it was decided to make buck deer the legal game this year, instead of does, and hunters will therefore have to confine themselves to the male of the species with two well defined prongs on each antler; that is if they can find any to kill. The commission also decided to restore the six days a week hunting season owing to the many protests filed last year against the three days a week plan, which was not only unpopular but proved a real hardship on hunting parties going out on camping expeditions.

Blackbirds may be hunted this year when the hunting season opens on August 1. These birds may be shot until November 30.

The season for other game and birds follows:

Wild turkey and ring neck male pheasants, November, 1 to 15.

Bob-white quail, squirrels, rabbits and hare, November 1 to 30.

Bear over one year, November 1 to December 15.

Male deer with two or more visible antlers, December 1 to 15.

Male elk, December 1 to 15.

Raccoon, no bag limit, November 1 to January 15.

All fur-bearing animals, except muskrats, November 1 to February 28.

Muskrats, December 1 to February 28.

The season on migratory and wild water fowl will conform with the federal regulations, which have not yet been made public.

Approval of the purchase of more than 27,500 acres of land adjoining existing game preserves was announced at the close of the all-day session. The purchase price was \$175,000. Efforts are being made to acquire 159 more acres in Limerick township, Montgomery county, next to the John S. Fisher game farm.

WELL KNOWN YOUNG LADY MEETS TRAGIC DEATH.

Miss Lilly May Johnson, daughter of Mr. and Mrs. Geo. B. Johnson, of Beaver Falls, was killed in an automobile accident near that place on Sunday afternoon, July 7.

Both of her parents are natives of Bellefonte and resided here until the time of their going to Beaver Falls. She is a niece of Miss Emma Jayne Aikens, formerly of Bellefonte, but now living in Cleveland.

The tragedy occurred on the Elwood City—New Castle road, near the Lawrence county poor home. It had rained and the road was slippery when attempting to make a sharp turn near the Lawrence county home the car skidded and plunged into a ditch.

Two of the occupants of the car were killed outright. Miss Johnson from a fractured skull and Donald C. Johnston, of Elwood City, from internal injuries when he was crushed by the steering wheel. The others, Miss Jean Johnston, of Rochester and Ray Johns, of New Castle, were only shocked and bruised. They were occupying the rumble seat.

While three of the young people bore the same name they were no relation to one another.

Miss Johnson is survived by her parents, two brothers, John T. Johnson, of Beaver Falls, and George B. Johnson, of West Bridgewater; and three sisters, Mrs. Harden Green, of Cannonsburg, Margaret A. Johnson and Elizabeth Johnson at home.

Interment was made at Beaver Falls last Wednesday.

A PRACTICAL SUGGESTION FOR HOME MERCHANTS.

"Business Builders," a new publication to be issued monthly by the West Penn Power Co., makes a suggestion to home merchants that seems to us to be freighted with potential possibilities.

The idea is not original with "Business Builders." It has been in application out in Sheridan, Wyoming, and because it is getting results there the West Penn Power organ suggests its use generally as helpful in keeping the good will of the home buyers.

It is a thrift plan sponsored by a combination of merchants who give 2% of the amount of every cash purchase a customer makes to the children of the customer. It is given in the form of a "Percentage Scrip" which is good only for deposit at a local bank, where a child holding certificate aggregating a stated amount can open a cumulative, interest bearing account. This account can be added to as more "Percentage Scrips" are received at the stores.

Not until the child has reached the age of fifteen years can it draw on or withdraw the entire account.

It is an interesting suggestion because it has so many possibilities. It encourages thrift, stimulates a disposition to buy at a store issuing the "Scrip" and holds the trade there because the growth of the little bank account becomes a matter of family pride and concern.

—Dr. Wilson, chairman of the Board of Temperance and Public Morals of the Methodist church, wants the army and navy to shoot "the fear of God" into "the minds of prohibition violators." That would be different, anyway.

BRADFORD MAN TO BE SUPERVISOR OF CENSUS.

It is reported that Congressman J. Mitchell Chase has recommended the appointment of William Freemyer, of Bradford, McKean county, as supervisor of census for the Twenty-third congressional district, composed of the counties of Centre, Clearfield, Cameron and McKean, and it is expected that his official appointment will be made in the near future. It is quite likely that the supervisor's headquarters will be established in DuBois, as it is more centrally located in the district.

The law provides for a census taker in each election district, which will mean sixty-seven in Centre county. Already, it is said, there are quite a number of anxious ones in Centre county, and it is quite likely that as soon as Mr. Freemyer has been officially appointed and has opened headquarters he will be besieged with letters from applicants, even though the start on taking the census will not be until April 1st, 1930.

—If he lives until November, G. W. Rees, of Reynolds Ave., will cast his fiftieth annual vote in the West ward of Bellefonte. For half a century he hasn't missed an election and has never voted in any other precinct than the West. Mr. Rees is a candidate for assessor.
