CLEAR QUESTION

ON RIGHT-OF-WAY

Court decision which seems to fix definitely the question of priority rights of automobilists at street intersections or cross-roads, was rendered by Judge William H. Keller of the Superior court recently. The decision was in the case of Lochetta vs. the Cunningham Cab company.

According to Judge Keller the car approaching from the right always has the right of way unless the other car is so far in advance as to afford reasonable time to clear the crossing and avoid a collision. This clears up a much disputed right-of-way provision of the State motor code which often has been construed that the car arriving first at an intersection has the right of way.

As it may be reasonably assumed that the Keller decision will be upheld in future cases this item may well be pinned in all motorists' hats for better memorizing.
