

Vote For Pinchot For Governor Vote For Keiser For State Senator

VOTE FOR

Clarence A. Keiser

FOR STATE SENATOR

Clarence A. Keiser, of Grampian, Clearfield County, is a candidate for State Senator on the Republican Ticket at the primary election on May 20.

EX-SERVICEMAN SERVED IN COMPANY G, 314th INFANTRY, 79th DIVISION.

Keiser Supports Pinchot's Principles

KEISER stands for lifting the inheritance tax on small inheritances. For hard surfaced roads in the RURAL districts. For old age pensions for the needy. For the 18th amendment and law enforcement. For the State assisting her disabled and helpless ex-service men. Keiser is against the unfair use of labor injunctions.

KEISER IS FOR REPEAL OF THE TAX LAW THAT WENT INTO EFFECT THE FIRST MONDAY IN MAY 1930, GIVING THE AUTHORITIES THE POWER TO SWEEP AWAY YOUR HOME, IF YOU ARE UNABLE TO PAY YOUR TAXES ON ACCOUNT OF SICKNESS, UNEMPLOYMENT OR ANY OTHER CIRCUMSTANCES. MR. KEISER'S OPPONENT, SENATOR HARRY B. SCOTT VOTED FOR THIS BILL TO SELL YOUR HOME, UNLESS YOU CAN ARRANGE FOR THE MONEY TO PAY YOUR TAXES AND THE ENORMOUS COST THAT WILL BE ADDED BY AUGUST 1ST.

In standing four-square with Governor Pinchot, Keiser is standing four-square with the overwhelming Republican majority in Clearfield and Centre counties, comprising the 34th Senatorial District.

KEISER is not straddling between Brown and Pinchot as Senator SCOTT his opponent, is doing, but is out in the OPEN for and with PINCHOT.

Don't Fail to Mark Your Ballot For Keiser

PATIENTS TREATED AT CENTRE COUNTY HOSPITAL.

William D. Rider, of Bellefonte, a surgical patient for the past month, was discharged on Sunday.

Mrs. Ruth Dreibelbis, of College township, was discharged on Monday.

There were twenty-six patients in the hospital at the beginning of this week.

TOOTHPICK RESTORED TO POLITE SOCIETY.

Ye old-timers, and ye olde, bedimpled, swanky society set, the one who uses the toothpick in public, and the other who uses it within the boudoir confines, may rest at ease, at last—

The toothpick is perfectly okay to be used most anywhere.

Four out of five should use it for health's sake. Pyorrhea can be prevented and in a great many cases eliminated by its proper manipulation.

The lowly toothpick, all but ostracized from the elite society, was vigorously defended by Dr. W. J. Charters, of Des Moines, at the mid-winter clinic in Dallas. He called the toothpick a "gum stimulator" and said it should be used regularly to stimulate the flow of blood in the gums as well as to oust particles lodged between the teeth.

"At times my wife seems to be trying to be an angel."
"You mean when she wants something from you?"
"No; when she drives the car."

APRIL WEATHER WAS COLD AND VARIABLE.

April weather in Centre county was colder this year than it was in 1929, according to H. P. Parker, assistant meteorologist at the United States weather bureau, at the Bellefonte airport. Mr. Parker gives the weather summary for the entire month, as follows:

The monthly mean temperature for April was 46.2 degrees, or almost three degrees colder than April 1929. The records of Mr. Fred Kurtz for the years 1901 to 1912 inclusive, show a monthly mean temperature of almost 51 degrees for April in Bellefonte. The average daily maximum temperature was 58.0 degrees and the average minimum was 34.3 degrees. The highest temperature was 82 on the 11th and the lowest 23 on the 3rd, or an absolute range of 59 degrees.

The warmest day was the 13th with a mean temperature of 65 degrees; the coldest was the 24th with a mean temperature of 30 degrees. The day with the greatest variation in temperature was the 11th with a range of 46 degrees, and the day with the most equable temperature was the 17th with only 4 degrees range. There were 14 days with a temperature below freezing, and 3 days with the daily temperature below freezing.

The corrected sea-level barometric pressure was 30.03 inches; the highest was 30.42 on the 17th and the lowest 29.20 inches on the 7th, or a variation of 1.22 inches.

The total precipitation was 2.72 inches, of which .02 inches was from melted snow. Nineteen years of previous records kept by Mr. Kurtz and at the western penitentiary show an average of 4.01 inches of precipitation for April, and 14 years of snowfall records show an average of 3.5 inches for the month. The greatest amount of precipitation in 24 hours was 1.32 inches on the 15th and 16th.

Trace or more of snow occurred on 5 days; the last measurable amount on the 2nd. The last snow occurred on the 24th.

There were 5 clear days, 12 partly cloudy. Rain or snow occurred on 19 days with a measurable amount on 11 days. The relative humidity averaged about 68 per cent. Thunderstorms occurred on the 13th, 16th and 30th. The prevailing wind was from the west.
