**EQUAL SUFFRAGE FOR PRESBYTERIAN WOMEN.**

Women, after many years of struggle, have at last won equal suffrage with men in the ruling bodies of the Presbyterian churches of the United States, according to results announced following a poll of the various Presbyteries. An overture, made by the 1929 general Presbyteries for a vote. The vote as tabulated at this time showed 150 in favor of women serving as elders, or in other words, having equal rights with the men members of the governing bodies of the church.

So far 114 Presbyteries have voted against it but inasmuch as 147 votes is a majority the overture has been carried by a margin of four votes.

**SAYS IRON FURNACES PRE-DATED WHITE MAN.**

Deep in the heart of "darkest Africa" ages before the coming of the white man with his inventions and labor saving devices, iron furnaces worked full blast.

This was the conclusion drawn upon the return of Rudyard Kipling, assistant curator of birds in Carnegie Museum, from a 15-month expedition in the jungles of Africa.

Boulton brought back a reconstructed picture of dark-skinned iron puddlers tending iron furnaces years ago in the jungle, of miners taking ore from the surface and pouring the raw ore into 20-foot blast furnaces.

Wood was used as fuel to heat the furnaces to white hot pitch and improvised blowers, similar in principle to the crude blowers used in Pittsburgh's early days, were constructed.

There is no doubt that the furnaces pre-date those of the white man and were built long before the white man discovered the secret of smelting ore in this way. Boulton said. The curator brought back part of a blow pipe, some samples of ore and a finished implement product of the furnace—a hammer.

The furnaces were constructed of terra cotta and the crude blow pipes of clay.

**STATE PRISONERS MAKING NEXT YEAR'S AUTO TAGS.**

With the completion of the contract for the manufacture of 1930 automobile license tags at the Western State Penitentiary, under the jurisdiction of the state department of welfare, the tag department this month swings into the manufacture of the 1931 tags, according to a report of Harry E. Andrews, superintendent of prison industries, to Mrs. E. S. H. McCaulley, state secretary of welfare. Paints have been tested for the new tags and metals are on hand. The department of revenue has placed the order for the new tags with the division of prison industries. This virtually assures no change in the form and method of enumeration in the 1931 tags which are said by officials of the revenue to be entirely satisfactory.
