

**PENN STATE GRADUATES
43 CENTRE COUNTIANS.**

In the largest class ever to be graduated from the Pennsylvania State College were students from all but one county in the State. The convocation was held Tuesday morning, June 10, in Recreation Hall, the only hall on the campus large enough to accommodate the large number of applicants and their relatives and friends. The Hon. Franklin Spencer Edmonds, of Philadelphia, was the commencement speaker.

Almost 700 degrees were awarded by President Ralph D. Hetzel, 641 of them being granted to seniors and 50 to advanced students. Two of the advanced degrees were for the doctorate, and there were seven technical degrees. Of the bachelor degrees awarded, 433 were in science and 208 in arts. Seniors from this county who were graduated include:

Gladys Alexander Armstrong, State College, home economics, School of Education.

Mrs. Carrie Holter Baker, State College, home economics, School of Education.

Ella Tamson England, State College, home economics, School of Education.

Helen Elizabeth Fowler, State College, bachelor of science in education, School of Education.

Caroline Salisbury Haller, State College, arts and letters, School of Liberal Arts.

Sue Kern, State College, arts and letters, School of Liberal Arts.

Ora Walker Kirby, State College, arts and letters, School of Liberal Arts.

Ellen Jeannette Mitchell, State College, bachelor of arts in education, School of Education.

Mary Kathryn Mitchell, State College, bachelor of arts in education, School of Education.

Margaret Elizabeth Moore, State College, bachelor of arts in education, School of Education.

Mary Elizabeth Sheehan, State College, bachelor of arts in education, School of Education.

Kathleen Teresa Sheehan, State College, bachelor of science in education, School of Education.

Mary Elizabeth Stiffler, State College, bachelor of science in education, School of Education.

Miriam Elizabeth Thompson, State College, bachelor of science in education, School of Education.

Laura Kempton Wilde, State College, bachelor of science in education, School of Education.

Donald L. Black, State College, landscape architecture, School of Agriculture.

Robert P. Campbell, State College, arts and letters, School of Liberal Arts.

Charles L. Eisenman, State College, civil engineering, School of Engineering.

William Frear, State College, electrical engineering, School of Engineering.

Archibald W. Johnston Jr., State College, bachelor of arts in education, School of Education.

Frank P. Kinson, State College, mechanical engineering, School of Engineering.

John O. Kline, State College, poultry husbandry, School of Agriculture.

Hubert C. Koch, State College, industrial education, School of Education.

Edward S. Mairs, State College, electrochemical engineering, School of Engineering.

Ralph W. Miller, State College, chemistry, School of Chemistry and Physics.

Kenneth R. Mohnkern, State College, horticulture, School of Agriculture.

Adrian P. Murtorf, State College, chemical engineering, School of Engineering.

Kenneth F. Waterbury, State College, bachelor of science in education, School of Education.

Robert H. Jackson, Philipsburg, industrial engineering, School of Engineering.

Caleb H. Smith, Philipsburg, pre-medical, School of Chemistry and Physics.

Elmer B. Decker, Bellefonte, industrial engineering, School of Engineering.

John S. Dubbs, Bellefonte, bachelor of arts in education, School of Education.

Albert W. Grove, Bellefonte, landscape architecture, School of Agriculture.

Michael F. Hazel Jr., Bellefonte, mechanical engineering, School of Engineering.

Harold G. Hoag, Bellefonte, civil engineering, School of Engineering.

Charles A. Mensch, Bellefonte, arts and letters, School of Liberal Arts.

Donald H. Osborne, Bellefonte, arts and letters, School of Liberal Arts.

John G. Shope, Bellefonte, architectural engineering, School of Engineering.

Ruth Smith, Bellefonte, bachelor of arts in education, School of Education.

Mary Cruse Woodring, Bellefonte, arts and letters, School of Liberal Arts.

Jack Yeager, Bellefonte, arts and letters, School of Liberal Arts.

John R. Neff, Centre Hall, electrochemical engineering, School of Engineering.

Cornelius P. Smith, Fleming, pre-medical, School of Chemistry and Physics.

Byron L. Richards, Martha Furnace, arts and letters, School of Liberal Arts.

Clyde Herr, Milesburg, electrical engineering, School of Engineering.

Paul W. Waite, Port Matilda,

dairy husbandry, School of Agriculture.

Randall E. Brungart, Smuliton, chemical engineering, School of Chemistry and Physics.

Emma Kathryn Walker, Spring Mills, arts and letters, School of Liberal Arts.

CENTRE COUNTIANS ON THE HONOR ROLL.

Those students from Centre county who were awarded first honors were: Caroline S. Haller, State College; Archibald W. Johnston Jr., State College; Ora W. Kirby, State College; Laura K. Wilde, State College; and Ruth Smith, Centre Hall.

Only one Centre countian was awarded second honors: Byron L. Richards, Martha Furnace.

DIAMOND ANNIVERSARY OF THE COLLEGE TO BE CELEBRATED.

At the opening of activities last Saturday, President Hetzel announced tentative plans for the celebration of the seventy-fifth anniversary of the granting of the institution's charter next fall. A three-day observation of the occasion was set for October 23 to 25, the concluding day falling on Alumni Home Coming day and the final official event being the dedication of the rebuilt Old Main in the presence of the graduates and friends of the college. At a great convocation on Friday, October 24, Governor John S. Fisher will be the principal speaker and will officially present the college with the eight new buildings erected on the campus from State funds during his administration.

Alumni were told of the coming celebration at their dinner on Alumni day, Monday. On the same day seniors held their Class day ceremonies. The salutatorian of the class, Robert P. Campbell, of Pennsylvania Furnace, gave the address of welcome, and the valedictorian, James T. Wolfe, of Sewickly, delivered the class farewell. At the baccalaureate service on Sunday Dr. W. O. Thompson, president-emeritus of Ohio State University, was the speaker.

The Alumni reunions, which were started Saturday with class dinners, were featured by the return of three of the seven men who composed the graduating class of 1880 for their fiftieth anniversary. Louis E. Reber, formerly head of the ex-

tension service of the University of Wisconsin, came from Paris, France, where he has been living since his retirement for the occasion. The others were James J. Hamill, an attorney of Columbus, Ohio, and Dr. George Rishell, a practicing physician of Philadelphia.

HUBBY DOES SOME BACK SEAT DRIVING IN KITCHEN.

What's the trouble, anyhow, aren't you going to get any dinner tonight? You sure are getting a late start. Watch out there, can't you see you have the gas turned too high? Why don't you put some water in that teakettle or else take it off the fire? Hey, you, don't shake that sifter so hard, you are getting flour all over the floor. My goodness alive, that bread won't be fit to eat if you put all that salt in it. Look out, you came very near cutting your hand severely with that can opener. What's the special attraction outside; don't you realize that you can't look out the window and scramble eggs at the same time? For pity's sake, are you blind! Look at that oven thermometer, over 50 degrees too high. Why don't you turn off those jets when you have nothing cooking over them? No wonder the gas bill runs over \$10 every month. Holy smokes, turn that meat over before it burns to a crisp. I don't believe you would ever get a meal ready if I didn't come out here and help you.

DUTIES OF HUNTING DOG.

A dog should not be taught to bring in the game to his master, says an expert. The reason for this is that when the dog points where the hunter gets the game, it is extremely annoying to have the dog dashing back and forth looking for the game and bringing it to the master. In the case of birds, if the dog goes after the first bird killed he will usually frighten the rest of the flock, giving the hunter a poor chance of bringing down a great number.

"Do you really think that college develops the mind?"
"I certainly do. Who but a college boy could think up so many different ways to ask for money!"

**CLEARFIELD LEGION
PLANS BIG 4th OF JULY.**

Each year Clearfield John Lewis Shade Post, No. 6, of the American Legion has put on a celebration that has gained state-wide recognition for its tremendous size and elaborateness. Thirty-five thousand people have traveled from all over the State to enjoy this gala event, and from headquarters comes the news that this year's program will surely dwarf any previous attempts by this splendid organization, already famous, nationally and internationally for its Legion band.

A famous feature of this celebration is a mammoth industrial parade, featuring dozens of costly floats. The parade committee plans this year call for a parade of such magnitude that it is bound to gain state-wide comment. Popular news reel photographers are already arranging to take pictures of it. This feature alone will draw thousands of people from all over the State.

The fireworks display will be the affair of splendor. New displays never before used in Pennsylvania will be shown. And so it goes—Polo matches, baseball side shows, concessions, exhibitions, bands, drum corps, horse races, airplanes, dancing—and a Marquette sedan to be given away free—these are only a few items of this stupendous Legion undertaking.

Many men of national and international fame will speak in Clearfield on this date, making it truly and in reality "Pennsylvania's Greatest Celebration."

**TRIM OUT FOLIAGE AT
CROSS ROAD SECTIONS.**

An appeal to local property owners and police authorities to cooperate in a safety movement of utmost importance to motorists is made by the Keystone Automobile Club.

Pointing to the hazard of road and street intersections screened by high hedges and trees, the club urges upon owners of property the necessity for trimming the foliage so as to afford a view of the roadway by approaching drivers.

"Many accidents occur every summer at road crossings where the view is obstructed," said Edward P. Curran, safety director of the club, "and our investigation covering the State indicates that conditions are particularly dangerous at this time. Countless intersections are screened by high growths, making it impossible for motorists to see cars on the intersecting highway until they have actually entered the intersection."

"A danger not readily appreciated by local authorities is the presence on the highways of thousands of motorists unfamiliar with local conditions. In many cases they are unaware of the existence of a cross road until they are upon it. Even the most careful driving by local motorists is apt to go for naught if they are unable to see around the corner and 'nose' their cars into the intersection at the moment a stranger, unaware of the danger, approaches at a fast rate."

"By trimming hedges and removing obstructions property owners will be contributing greatly to the safety of the highways. Incidentally, they will at the same time improve the appearance of their property."

ATTORNEYS-AT-LAW

S. KLINE WOODRING—Attorney at Law, Bellefonte, Pa. Practices in all courts. Office, room 15 Crider's Exchange. 57-58

The meter entrance for your electric range now installed FREE

You no longer have to count on spending \$50.00 or more to install an electric range . . . or every time you move! For we now put in adequate meter entrances as part of the company's equipment. It doesn't matter from whom you purchase the electric range or where you got it . . . This is another striking example of our constant effort to make all the advantages of electricity available at the lowest possible cost.

These 3-POINTS remove every obstacle to owning an electric range

Now—Now low rate after you use 150 kilowatt hours in a month.

CURRENT COST 13 1/4

REDUCED

Now—Three leading makes—greatly reduced price—\$119.50 installed.

RANGE \$150.00

REDUCED \$119.50

INSTALLATION COST 0

Now—adequate meter entrances (were \$50.00 and up) put in free.

Your choice of an Electrochef, Westinghouse, Hotpoint . . . a 1930 model, all white electric range as low as \$119.50 installed. Other models in these three leading makes equally reduced.

At the new low rate of only 13 1/4 cents for every kilowatt hour over 150 a month, electric cooking is economical for everyone. In addition, you can use current freely for water heating, additional appliances, more and better light.
