BURGESS HARD P. HARRIS VICTIM OF AUTO WRECK.

Burgess Hard P. Harris has been housed up at his home, on east Howard street, as the result of injuries sustained on June 26th, when the personal car of Charles E. Dorworth, Secretary of Forests and Waters, and driven by himself, was wrecked on the Nittany valley highway at the junction of the road leading into Hecla park.

Neither of the men have been able to explain just how the accident happened. They left Bellefonte at 2:30 o'clock in the afternoon, expecting to drive to Fishing creek and from there to Williamsport. A hard rain storm had passed over Nittany valley a short time before and the road was wet and slippery. As they neared the park road the car skidded, struck a telephone pole and rebounded into the bank on the opposite side of the road.

The crash threw Secretary Dorworth from his seat behind the steering wheel against Burgess Harris and the combined weight of the two men broke the door from its fastenings and Harris fell out, alighting on his head. Dorworth fell out on top of Harris. The car came within an ace of toppling over on them. Dorworth escaped with minor injuries but Burgess Harris was not so fortunate. He was brought to the Centre County hospital where it was found that no bones were broken but he was badly bruised and suffered from shock.

He was left at the hospital until Monday of last week when he was removed to his home at his own solicitation and is now able to be around but not quite as spry on his feet as he generally is.

FARMER'S NATIONAL NOW A DIVIDEND PAYER.

At the July meeting of the directors of the Farmers National Bank it was unanimously decided to disburse some of the earnings of the institution in the form of a dividend. Accordingly, a dividend of \$1.00 per share was declared payable July 31, 1930, to stockholders of holders of record on June 30, 1930. This puts the Farmers in the dividend paying class after only two and a half years since its opening, which is a decidedly creditable showing.

The bank was started modestly, it has made no drives for business, and yet has had a most encouraging natural growth. At present its resources aggregate over a quarter of a million dollars, and they have been increasing steadily in the face of the evident slowing up of business. This, in itself, is a significant matter, for it shows that the Farmers National is being recognized in the community as a sound and courteously conducted banking institution that is gaining public confidence.

NEW STUDEBAKER PRICES EFFECTIVE YESTERDAY.

Yesterday, July 10, prices on all models of Studebaker made cars were reduced, so that the line of champions, from "the President Eight" down to the "Studebaker Six" offer a most unusual price range.

"The President" and "The Commander" are two cars that have proven their greatness, both as to performance and appearance, and when it comes to buying a car that will compare with any that cost twice as much they rightfully command the attention of prudent buyers.

"The Dictator" and "The Studebaker Six" are in the class of more popular priced cars ranging from \$1415 down to \$795. The latter should be especially attractive to those who want to keep under a thousand dollars in their motor investment, for it presents the opportunity to own a Studebaker, with all its proven qualities of durability, at very little more than that of the lowest priced cars on the market.

A DELIGHTFUL TRIP AT LITTLE EXPENSE.

A most alluring summer trip is offered the public on page 5 of this issue. It combines water and land travel in such a way as to offer the advantages of rest, recreation and sight-seeing in Florida and Texas under the most favorable conditions.

When one comes to think of three days at sea, aboard a great passenger steamer, a day in Miami, Florida, a sail clear through the Gulf of Mexico, nearly a week in the wonderful Rio Grande Valley, a visit to old Mexico and a return by rail almost clear across the continent all for \$165.00 it is alluring. One can't go to Atlantic City and stop at a good hotel for two weeks for such a sum.

Of course the objective of the trip is to sell land along the Rio Grande, but what of that? The land is all that it is claimed to be an great investment possibilities await those who buy it. People who take the trip are not obligated to buy nor are they embarrassed in any way if they don't. All the company that sponsors these trips wants is to help people to get there and see for themselves and in doing that they are offering an opportunity that no one who wants a delightful summer adventure should fail to thoughtfully consider.

The price includes everything, car fare, steamer fare, meals, lodgings, Pullman service, sight seeing trip and all from the time you leave Altoona or Tyrone until you return.
