Bellefonte, Pa., December 5, 1930.

## NEWS ABOUT TOWN AND COUNTY.

Richard J. Detwiler, of Smulton, has been made a major in the R. O. T. C. unit at the Pennsylvania State College.

At the State farm show in Harrisburg, January 19 to 23, Centre county 4-H Club members will show thirteen pens of lambs.

Dr. J. Coburn Rogers entertained the members of the High school team at a banquet at the Penn Belle last evening. Forty-three guests were present.

Jury commissioners J. C. Gates, of Pine Grove Mills, and J. C. Condo, of Spring Mills, have started work on filling the jury wheel for 1931.

The annual fair of the Bellefonte Presbyterian church will be held in the chapel the afternoon and evening of Thursday, December 11th, beginning at 3 o'clock.

Rev. Clarence A. Adams, who for nine years has been in charge of the Baptist church at State College, has accepted a call to the First Baptist church at Clarion, and will take charge of his new pastorate on Sunday.

On Tuesday evening a specially built truck passed through Bellefonte with a load of eighteen bodies for Austin cars. The bodies were built at the Mifflinburg carriage works and were being taken to the Austin plant at Butler, Pa.

It cost Congressman J. Mitchell Chase \$1463.35 to be elected to his third term in Congress, according to his expense account filed. He received contributions of \$165.00. Senator Harry B. Scott spent \$2522.12 and received no contributions. In his campaign for Assembly John G. Miller spent \$128.25.

Roy E. Morgan, of State College, has been named as one of the twenty-five seniors at that institution eligible for a fellowship or scholarship. The senior class has named twenty-five of their classmates, the deans of the college will name ten more and from the group the winners will be selected.

Owing to the fact that the annual conference of secretaries and managers of the Pennsylvania Motor Federation will be held at the Hotel Dimeling, Clearfield, today, president Harry B. Scott, of the Centre county Motor Club, has issued a call for the regular monthly meeting of the board of directors of the club to be held at the same place at 5 o'clock this (Friday) evening.

Nelson D. Zimmerman, son of A. J. Zimmerman, editor of the State College Times, and the youngest member of the Centre county bar, turned down an appointment as master in a divorce action, last Friday. His declination of the appointment was not because he didn't like the work but because he had decided to accept an appointment in the bureau of investigation, Department of Justice, in Washington, where he reported for duty on Monday. If the work is congenial he will remain there, and if it isn't he will return to State College and re-enter the law. His work in the Department of Justice will have no connection with liquor law enforcement.

One of the most novel Thanksgiving day dinners and family reunions held in Bellefonte was that of the John Hartwick family. As three of Mr. and Mrs. Hartwick's children live in Pittsburgh it has been their usual custom to go out there for the day but this year they decided to have them all in Bellefonte. As their home is not large enough for such a crowd they had their dinner in the Odd Fellows hall. In addition to Mr. and Mrs. Hartwick the gathering included their four children and thirteen grandchildren, Mr. and Mrs. Millard Hartwick and three children, of Bellefonte; Mr. and Mrs. LeRoy Hartwick and two children, Mr. and Mrs. Harold Hartwick and six children and Mr. and Mrs. Glenn Sutherland and two children, all of Pittsburgh. As guests they also had with them Rev. and Mrs. Robert Thena and family. After the dinner had been eaten the children had a delightful play hour in the main hall.

From the Scranton Republican of Nov. 27, we learn that D. Elywn Thomas, young baritone of that city, has reached the semi finals in the northern district radio audition sponsored by the Atwater Kent foundation. The district comprises thirteen States. The finals will determine which five young men and young women all over the United States are to win the cash prizes ranging from \$5,000.00 to \$500.00 and the two year musical scholarship offered by the Foundation. Bellefonte friends will be interested and very much pleased to know that Mr. Thomas is a pupil of and was trained for the contest by Dr. Lee Woodcock. It also follows that if the Scranton singer reaches the finals there will be a large local audience listening in when they are given audition by the Atwater Kent Foundation on December 14. The awards are made on a basis of the judgment of the radio listeners and noted artists in the ratio of 60 per cent for the former and 40 per cent for the latter. The contestants sing, however, as numbers, their names not being announced.

## THOUSANDS OF HUNTERS IN MOUNTAINS FOR DEER.

### Bellefonte Man Bags His Before Nine O'clock Monday Morning, One Hunter Killed.

Despite the cold and inclement weather of the latter part of the week and the rain and slush on Sunday thousands of hunters went into camp in the Centre county mountains to be on the trail bright and early Monday morning. Just what luck they had has yet to be demonstrated by actual reports, but so many of the hunters are deep in the mountains that it has not been possible to get word of their kill.

The first deer brought into Bellefonte was landed here before noon, on Monday, by Torrence M. McAlarney. He, with Sam Poorman, and Leslie Thomas went out day hunting on Bald Eagle mountain, near Port Matilda. They drove up in a car and McAlarney was sitting on the running board when a big buck trotted down the mountain in plain view. One shot and the buck stopped its flight. It proved to be an 8-pointer and dressed 175 pounds. McAlarney brought the carcass home while Poorman and Thomas continued their hunt. They saw several does but no bucks within shooting range. Thomas saw a pure albino but it was so far away he could not tell whether it was a buck or a doe, so he did not take a shot at it.

Probably the luckiest hunter of the day was George McGargie, of Pleasant Gap, a guard at the penitentiary. He walked up into McBride's gap, shot his buck and was back home in less than an hour.

The Hecla gun club got a 4-pointer, on Monday, hunting over in Sugar valley. Henry Brockerhoff, of Bellefonte, is hunting with this club.

Some four or five deer strapped onto autos were taken through Bellefonte, on Monday, by hunters from a distance who made their successful shot and returned home.

A four point buck was brought in, on Tuesday, by John Junison, of Bellefonte.

Automobilists coming through the Woodward Narrows, Monday afternoon, counted over thirty deer hung up at various camps along the road. At the camp of the Woodward Rod and Gun club twelve deer were strung up by Tuesday evening five bucks and seven does. The does were killed the latter part of the week over the line in Union county. One of the bucks, a 9-pointer was shot on Tuesday afternoon by Hugh M. Quigley, of Bellefonte.

Among the lucky shots in Ferguson township who got deer, last week, were Will Cori, Charles Louck, Harry Gearhart, Will Dreibeis, Ralph Judy, John Dreibeis, Theo. Judy, Wilson Weaver, G. W. Rossman, S. H. Tate, Clair Meyers, H. L. Harpster, C. D. Todd, Ed Hefferan, Robert Campbell and son Fred. Some of them made their kill in Mifflin county and the others in Huntingdon county.

So far few bucks have been killed in the Pine Grove Mills section this week. E. B. Holobaugh was one of the lucky day hunters bringing in an 8-point buck by 10 o'clock the first day. H. S. Elder and Warren Gummo each had the good luck to kill a buck.

## BERKS COUNTY HUNTER SHOT.

The first fatal hunting accident in Centre county occurred in the Barrens, near Scotia, on Tuesday afternoon, when Robert D. Fidler, of Sinking Springs, Berks county, was accidentally shot by a fellow hunter, Adam Sphon, and died while being brought to the Centre County hospital. The two men were walking Indian file along a path in the woods. Fidler was from eight to ten feet ahead of Sphon and going down hill. Sphon had his rifle under his arm when the hammer caught on the underbrush and the gun was discharged the bullet hitting Fidler in the back between the shoulders, passing close to or through the top of the heart.

The ambulance was summoned from Bellefonte and the wounded man started for the Centre County hospital but he died on the way and was taken direct to the Harris mortuary. Coroner W. R. Heaton was notified and came to Bellefonte but after hearing the story of the shooting decided that an inquest was not necessary and exonerated Sphon of blame. Fidler was about thirty-five years old, and leaves a wife and one child. The remains were shipped to Sinking Springs for burial.

Other hunters who were brought to the Centre County hospital for treatment for slight gunshot wounds were Howard Stine, of Waddle; George W. Grove, of Spring Mills, and Claire W. Brower, of Unionville.

## TYRONE HUNTER DROPS DEAD

While hunting on Warriors Ridge, Huntingdon county, about eight o'clock on Monday morning, John B. Grazer, of Tyrone, dropped dead from a heart attack. He was past 70 years of age and a retired railroad employee. He is survived by his wife and four children.

## FINED FOR ILLEGAL KILLINGS

Eight men arrested by game warden W. C. McClarin, of Saladasburg, for illegal killing of deer, last Saturday, were fined \$2,400, on \$1,100 of which there will be no refund.

## PUBLIC MEETING TO CO-ORDINATE CHARITIES.

Burgess Hardman P. Harris has issued a call for a public meeting to be held in the court house next Monday evening, at 8 o'clock, to take concerted action in the matter of extending aid to those in need, both in Bellefonte and community as well as the traveling wayfarer who may reach Bellefonte in his search for something to do to tide him over the present depressed condition. The latter number is larger this year than ever before. There is hardly a night that there are not one or more lodgers in the lockup, and the number has run as high as seven.

The meeting, on Monday evening, is not so much for the purpose of raising money as it is to co-ordinate all charities under one head, with one committee in charge. Every Christmas season the Elks, Kiwanis, the churches and various societies contribute baskets to families who otherwise might have a cheerless holiday. It has frequently happened that some families get two, three and even four baskets, while others equally deserving get none. It is to prevent such occurrences that it is deemed desirable to have an established head, or centre, to which all applications for aid can be referred, and from which all help can be extended.

It is to perfect such an organization that next Monday evening's meeting has been called. Representatives from all organizations, societies and churches should be present and co-operate.

## XMAS SAVINGS FUNDS SENT OUT BY BANKS.

The Bellefonte Trust company mailed checks, last Saturday evening, to its Christmas savings fund depositors for a total of \$21,000. The First National bank sent out checks totaling \$12,400, and the Farmers National added \$3,000, more which makes \$36,400 that these three institutions have distributed for Christmas shopping. Last year the amount distributed was \$42,000, which was \$5,600 more than this year. Scarcity of work and general depression are no doubt the contributing causes in the shrinkage of the saving funds.

Centre county had a real touch of winter during the past week. Starting on Thanksgiving day the temperature dropped until it touched zero, Saturday morning. During Saturday it moderated a little and on Sunday morning it began to rain, and as it was still quite cold it was not long until pavements and streets were sheathed in ice. Sunday afternoon, however, it became warm enough that the rain melted the ice and by Monday morning the ice hazard had all disappeared.

The new cafeteria being operated by the Pennsylvania State College in new "Old Main," is reported as being a strong competitor to the various restaurants in that town. The charges at the cafeteria are only about 65 per cent of the prices charged at the restaurants and it is only natural that the bulk of eating is done there. The cafeteria is open to the members of the faculty, students and the public at large. Last Friday one restaurant there was sold out by the sheriff after a test of three days showed it was running behind at the rate of about \$30 a day.

The men are: John T. Hoover, owner and driver of the truck in which the deer were found; James H. Hoover, F. E. Newcomer, and Warren Bailey, all of Uniontown; Raymond Tackentine, of Bradford; John Lilley, of McClintocktown; Frank Bohnert, of Morris, and Reuben Thompson, of Lloyd. The deer were killed in Brown township, in Lycoming county.

## BUSINESS TRANSACTED BY BOROUGH COUNCIL.

### Kiwanis Wants Council to Take Care of Penniless Floaters.

A. C. Hewitt was again before borough council, at the regular meeting on Monday evening, to emphasize the protest of citizens of east Curtin and east Linn streets against the proposed milk station of Raymond Brooks, at his home in that section of town. Mr. Jodon, of the Fire and Police committee, stated that the borough solicitor had advised that council keep out of the fight, and that the residents in that locality assume the burden of it by bringing injunction proceedings to restrain Mr. Brooks from operating the station. So far he has not opened his proposed station and president Walker stated that until he does so there is nothing the borough can do.

A communication was received from the Kiwanis club calling the attention of council to the large number of penniless floaters who come to Bellefonte almost every day and appeal for something to eat and a place to sleep. As Kiwanis has no fund to care for them it was their request council make some provision. President Walker stated that any aid that council could give ought to go to home relief first. Burgess Harris stated that he will this week issue a call for a public meeting to be held in the court house at 8 o'clock next Monday evening for the purpose of organizing a Board of Associated Charities and take action towards collecting a fund to take care of all deserving cases. The Gamble mill was suggested as a place where sleeping quarters might be fixed up to house the floaters.

A communication was received from the Association of Boroughs calling the attention of council to the fact that with the induction of Pinchot into the office of Governor municipalities will have an opportunity to get relief from the oppression of all public utilities and asked for a contribution of from \$10 to \$25 to defray the expenses of the associations' legislative committee to look after necessary legislation. No action was taken.

Burgess Harris called attention to the deplorably filthy condition along the banks of Logan Branch from the Phoenix mill dam to its intersection with Spring creek, caused by residents in that section making it a dump for ashes and all kinds of refuse. The matter was referred to the Street and Sanitary committees.

The Fire and Police committee reported that traffic policeman George Glenn is badly in need of an overcoat, and has agreed to pay half the cost of one if council will pay the other half. On motion council voted to purchase the coat at the expense of the borough.

Dr. Nissley was present and called the attention of council to several nuisances that ought to be abated and he was advised to see property owners and try to have them abated amicably. If owners refuse then further action will be taken.

The Street committee reported the extension of the Lamb street sewer as far east as the Musser property. The committee also reported that the cesspool for east Howard street has been blasted down to a depth of 24 feet and it is still solid rock. President Walker suggested using an air drill to test the depth of the rock.

The Water committee reported various repairs and the collection of \$1300 on water tax and \$47.20 on rent of garage space. The committee also reported the 1930 water duplicate has been completed and amounts to \$12625.75.

The committee also reported that Mr. Hornberger, district engineer for the State Department of Property and Supplies, insists that the meter on the water line to the army buildings be placed in the basement of the army and not within the borough. It was finally decided that the president and secretary of council take the matter up with Benson E. Taylor, head of the department.

Mr. Cobb brought up the matter of repairs and improvements to the reservoir and suggested that if council contemplates doing anything next summer plans and specifications, with costs, etc., ought to be made now so that they can be carefully considered beforehand. The matter was referred to the committee with power.

The Finance committee reported a balance in the borough fund of \$2744.92 and the water fund of \$1,880.20. Borough notes totaling \$6500 and water note, for \$1500 were renewed. On motion the committee was authorized to make a loan of \$5000 from the Centre County hospital at five per cent and pay another loan of \$5000 drawing six per cent interest.

The Fire and Police committee submitted another lot of recommendations as to what the borough ought to do to secure a reduction of rates in the deficiency charge. Referred back to the committee.

The Nuisance committee submitted the report of Dr. S. M. Nissley in which he stated that during the month he had put up nine quarantines for chicken pox and two for scarlet fever. Four of the chicken pox quarantines have already been removed.

## NEWS PURELY PERSONAL.

## COUNTY HIGHWAY WORK IN PROSPECT FOR 1931.

Many farmers in Centre county who voted for Gifford Pinchot for Governor, at the November election, are wondering if he will make good his campaign promises to pull them out of the mud on the hundreds of miles of township roads, most of which are dirt highways, and some of them pretty sticky dirt, at that.

While most of the main roadways in the county are either No. 1 State highways or improved roadways in the secondary class, there are still a number of stretches awaiting favorable consideration by the Highway Department. Two of these will probably be built during 1931, according to information obtained at the county commissioners' office. One of these is the continuation of the highway through the Barrens from State College to Buffalo Run valley from its present terminus at the latter point across Bald Eagle mountain to Martha.

Another stretch is that from Tusseyville to Boalsburg. Efforts are also being made to have this road rebuilt clear through to State College. Much of the right-of-way for this road has already been secured and this, it is believed, will have considerable influence with the Highway Department in securing the construction of the road clear through.

A move is also on foot to change the location of the State highway from Pleasant Gap to State College along in the neighborhood of the penitentiary buildings. The proposed route will be between the railroad and the buildings. Should this change be made it will mean new construction of from half to three quarters of a mile of new highway.
