An automobile which James F. Hill, of Fleetwood, Berks county, claims to have built in 1888 has been given certificate of title No. 2,916,413. The Bureau of Motor Vehicles declined to issue license tags for the old boy, however, so that while it actually will run it is too uncertain in its movements to permit its operation on the highways.

It is estimated that five hundred people, mostly members of automobile parties passing through Bellefonte, stopped on south Water street, Sunday afternoon, to take a look at the big trout in Spring creek. And from the amount of ground beef fed them during the afternoon we conclude that there will be no danger of any of them dying from hunger in the near future.

YOUNG GIRL DRIVES CAR INTO SPRING CREEK.

On Sunday evening Bessie Blair, of Buffalo Run valley, took her brother's car for a drive to Bellefonte. As she rounded the curve at the Bockerhoff mill, at Roopsburg, she was confronted by a car in front of her going slowly. At the speed she was traveling she realized she could not slow down enough to avoid hitting the car so she steered to the left and plunged down over the bank into the mill race. She was thrown through the windshield and the car, turning turtle, landed on her leg, pinning her fast beneath it.

Fortunately Charles Dawson and Blair Keeler happened to be near there and they both plunged into the creek and rescued the girl, otherwise she might have drowned. She was promptly brought to the Centre County hospital, by the two young men, where it was found that she had sustained several bad cuts on the face and head, and lacerations and body bruises, but no broken bones. It is said the girl was operating the car without a driver's license and had taken it after being told not to do so by her brother.

On Wednesday of last week, according to the State highway patrol, Charles L. Dehl, of Bellefonte, an interior decorator on the new hotel, at State College, in company with J. E. Jackson, of State College, started out to do a little celebrating in Dehl's Ford car. They had seven pints of moonshine and ended up at the Branch school house, where they were reported as being drunk and disorderly. Corp. Gross and patrolman Turner arrested the two men and placed them in the State College lockup for safe keeping. Later they were given a hearing before 'Squire I. J. Drees, at Lemont. Both pleaded guilty to disorderly conduct and Dehl to driving a car without an operator's license.

On Saturday William S. Crispin, of Clarence, was arrested by patrolmen Turner after he had collided with a car driven by W. E. Robertson, of Fleming. He was charged with operating a car while under the influence of liquor, and at a hearing before 'Squire Tressell was held in \$400 bail for trial at court, bond being furnished.

Last Saturday afternoon Charles DeHass, of Howard, reported his car stolen by Bryan Leathers and Charles Butler, and Corp. Gross went down to investigate. He discovered that there was no evidence to support the charge that the boys had stolen the car. Mr. DeHass had at various times engaged them to go over the car and tighten up the bolts and on Saturday they were merely driving the car around the town testing it out for squeaks. Unfortunately the boys ran the car onto the railroad track and damaged it to the extent of \$75. They were also operating without a license. They are now working on making the necessary repairs to the car.

Paul Biddle, of Beech Creek, was arrested, on Sunday, by Corp. Gross for driving a car in a reckless manner, after he had collided with a car driven by Hayes Strunk. At a hearing before 'Squire Tressell was held at court, bond being furnished.

At four o'clock Wednesday morning the State highway patrol received a call to investigate an accident on route 220, near Unionville. Corp. Gross responded and his investigation showed that a car driven by Dr. C. F. Krug, of Spangler, and containing in addition James Long and Herman Krug, enroute to Bellefonte, passed a Ford coupe bearing license tags NJ-786. They had not gone far until the Ford coupe driver made an attempt to pass them and in doing so collided with their car twice. The corporal discovered the Ford coupe on the highway between Milesburg and Bellefonte and arrested the driver, William H. Saunders, of Houtzdale. With him were Stanley Guilbert, Charles Jones and Edward Olson. They were taken before 'Squire Tressell and released after paying fines and costs for disorderly conduct. A charge of reckless driving was also made against the operator of the car, and he has ten days in which to pay his fine and costs on this charge.

On Wednesday of last week highway patrolmen Turner and Norris checked 125 cars on route 220, near Walker's gas station. Twenty-one cars had glaring headlights, five only one light, three illegal devices, one rusted reflectors and one no rear light.

On Thursday 80 cars were checked on route 84, near Beech Creek. Fifteen had bad emergency brakes, five bad foot brakes, one no mirror and one swinging tags.

On Tuesday 85 cars were checked on route 53, at Pleasant Gap. Thirty-nine had glaring headlights, twelve only one headlight, one no rear light and one on which the motor was not properly muffled.

On Tuesday 885 cars were checked on routes 53 and 220, seventeen of which had bad emergency brakes, four bad foot brakes and two swinging tags.

All delinquents are given cards requesting them to have corrections made within forty-eight hours.

BRIEF MEETING OF BOROUGH COUNCIL.

Seven members were present at the regular meeting of borough council, on Monday evening. Having returned from his trip to Florida president John S. Walker was in the chair, the first time in two months.

Burgess Hard P. Harris was present and informed council that he had so far withheld approval of the ordinance exercising the borough's right of eminent domain in taking a strip of land on the Island over which to lay the big water pipe line for the reason that he desired more specific information regarding the legal ownership of that much discussed piece of property. Considerable discussion followed and the matter was finally referred to the Finance and Special committees.

A written communication was received from Kofman & Co. requesting permission to trim the branches from a large willow tree standing along Spring creek, on borough property, because it obscured his sign from traffic on south Water street. No action was taken.

The Street committee reported the opening of Church alley through to Armor street, various repairs and the collection of \$30 for a sewer permit.

The Water committee reported the pipe on the ground for the 12 inch water line on Lamb street, a number of minor repairs and the collection of \$2100.00 on water taxes and \$71.70 for rent, Etc.

The Finance committee reported a balance in the borough fund of \$335.46 and \$1425.00 in the water fund. Renewal was authorized for a water department note for \$17,356.40.

The Special committee reported that officials of the American Lime and Stone company had stated, that day, that the lime dust collector will be completed this week, and they expect it to abate, to a great extent, the nuisance complained of.

Borough bills amounting to \$560.84 and water bills for \$1170.00 were approved for payment, after which council adjourned.

Information regarding a palatable form of cod liver oil concentrate can be obtained at Parrish's drug store Wednesday, April 29th. 17-11

INTERMEDIATE LANDING FIELDS AUTHORIZED.

The aeronautics branch of the U. S. Department of Commerce has announced the relocation of a number of intermediate landing fields on the midcontinental airway between New York and Los Angeles, and the interesting part of the announcement to Centre county people is that Bellefonte is specified as one of the fields on the New York to Cleveland section. This should set at rest all doubts as to the permanency of the field here. Kyertown will be the nearest field on the west and Hartleton on the east.

CENTRE COUNTY FARMERS CAN GET RELIEF LOANS.

Farmers will be interested in a recent ruling of the United States Department of Agriculture, which places Centre county on the list of counties in Pennsylvania entitled to receive a portion of the \$45,000,000 provided for drought relief by a joint resolution of Congress, approved December 20, 1930. The committee appointed by the Department to receive applications for loans from farmers is as follows:

H. L. Ebright, Centre Hall, chairman; C. E. Peters, Stormstown, president of the Agricultural Extension Association, and J. Gross Shook, Spring Mills, Master of Pomona Grange.

Application blanks can be received from any member of the committee or at the Agricultural Extension Association office in the court house, Bellefonte.

The amount loaned will be based on the requirements of the applicant for seed, fertilizer, feed for work stock, and for fuel and oil for tractors.

The applicant must give an absolute first lien on all of the crops growing or to be grown by him in 1931 in such a form as to entitle it to filing in the county in which he resides.

If the applicant for a loan is a tenant, or is farming land under contract for deed or so called crop contract; or has given a prior mortgage on his 1931 crop, he must secure the waivers of the actual owners of the land, his landlord, and all prior mortgage holders in the space provided on the mortgage form for this purpose. If the applicant is the owner of the land and farms it with tenants or share croppers, waivers of such tenants or share croppers must be secured.

The application blank requires a statement of the amount of the loan desired, the number of acres of each crop for which seed and fertilizer is to be purchased, the amount desired for feed and the number of animals to be fed, and the amount desired for fuel and oil for tractor operations. It requires a legal description of the land on which these crops are to be planted, together with a statement of the acreage of crops grown by the applicant in 1929 and 1930 and the yields obtained. The application blank also includes an agreement to use the money loaned for the purchase of seed, fertilizer, feed, and fuel and oil, and to use these supplies for crop production on the land described. It requires a further statement to the effect that the applicant does not have seed, feed and fertilizer, that he does not have and can not get funds from other sources for the purchase of supplies, and that if he does not obtain a government loan he will be unable to farm in 1931.

All loans are due November 30, 1931, with interest at 5% from date of approval of the loan to November 30, which will be deducted from the principal of the loan when the advance is made.

2 KILLED, 28 INJURED IN WRECK ON PENNSY.

Two railroaders were killed and twenty-eight people injured in a wreck on the Pennsylvania railroad, at Spruce Creek, shortly after nine o'clock last Friday evening, when Panhandle express ran head on into the wreck of a freight train. What caused the freight wreck has not yet been determined, but nine cars were piled up over all of the four tracks. Less than a minute later, before the flagman of the freight had time to flag it, the fast express rounded a curve and crashed into the wrecked freight cars. Both the engineer and the fireman of the express were killed. All four tracks were blocked until Saturday forenoon and traffic both east and west was diverted over the Petersburg branch and the Bald Eagle Valley railroad.

CENTRE COUNTY DAMS TO BE EXAMINED.

Claiming that thousands of lives are lost and millions of dollars worth of property destroyed annually through poor design and faulty construction of dams throughout Pennsylvania, engineers of the State Water and Power Resources Board will make an inspection of 230 dams during the coming summer. Included in that number are three in Centre county, that of the western penitentiary, in McBride's gap, at Rockview; the Citizens Water company dam, on Cold stream, Rush township, and the General Refractories dam, at Hayes Run, in Curtin township.

"Seas Beneath," which will be shown at the Richelieu tomorrow night, is in the nature of an informative picture. It depicts the Allied campaign against the U-boat menace during the World war. George O'Brien and Marion Lessing are featured in it. It is full of thrills and full of revelation as to the little known methods we adopted to combat the German submarines that might have defeated our cause had they not been check-mated.
