Mrs. Frank Barnes, well known in Bellefonte as the former Miss Nellie Boal, has been very seriously ill at her home in Washington. The latest word from there is to the effect that her condition is slightly improved and more hopeful than it had been.

On the afternoon and evening of Thursday, July 16, Kermit Roosevelt, son of former President Roosevelt, will lecture to the summer session students at State College. His subjects will be: "Travel in Three Continents" and "The Chinese-Tibetan Borderlands."

Dale, at the Dale home on East Linn street, on Friday the 19th of June. The child weighed 11 1/2 pounds at birth. It is an only daughter and six years younger than her brother Arthur Jr., and has been called for her maternal aunt, Mrs. Miller, of Johnstown.

The Cumberland Valley Telephone company has purchased the controlling interest in the Nittany Valley and Bald Eagle Telephone companies, and took over the management last week. For the present J. Frank McCormick, of Lock Haven, will have charge of both companies. Much of the stock of these companies was held by Bellefonte and Nittany Valley residents. Nittany Valley stockholders received \$3.50 per share for their stock and Bald Eagle valley stockholders \$2.50 per share.

"The Black Camel," which will be shown both at the Richelleu here and at the Cathaum, at State College, tomorrow, Saturday night, is another one of those thrilling Charley Chan stories. The story ran serially in the Saturday Evening Post some time ago and those who read it will especially want to see the screen version. Warner Oland, naturally, will be the clever Chinaman who is head of the Honolulu detective force and who is always talking in those intriguing epigrams of his countrymen. It was a corking good story and should be a good picture.

The Centre County hospital will have a State appropriation of \$29,000 for the ensuing two years, as that is the amount granted in the bill signed by the Governor. The bill as passed by the Legislature was for \$38,000. The appropriation received two years ago was \$12,500, so that this year's is an increase of \$9,500. The Pennsylvania State College was given \$4,000,000 for maintenance and \$120,000 for repairs and building purposes, in addition to \$960,000 given in a special appropriation early in the legislative session, making a total of \$5,060,000.

FIREMEN GRANTED AID IN BUYING NEW PUMPER. Council Appropriates \$4600 to the Logan's for Modern Fire Fighting Apparatus.

Bellefonte is to have another and more modern piece of fire fighting apparatus. This has been made possible through an appropriation of \$4600 granted by borough council, in regular session on Monday evening, to the Logan Fire company, toward the purchase of a new triple pumper manufactured by the Buffalo Fire Fighting Apparatus company. The firemen have investigated four of the leading pumps on the market and are agreed on the Buffalo pumper as the most suitable to the needs of Bellefonte. The price of the pumper is \$11,500, but the company will take the fire company's old White pumper on an allowance of \$2,300, making the net price of the new machine \$9,200. They also agree to return to the borough any money they may receive in excess of \$1400 in the sale of the old pumper. O. B. Malin, chief of the Logan company, presented the matter to council, Monday evening, and stated that the company will pay half the cost of the new pumper, in cash, as soon as it is received, tested and approved by the Underwriter's Association. In the resolution granting the appropriation it was stipulated that the borough will pay its share in cash on December 1st. As it will be well on to three months from the time the order is placed until the pumper can be delivered it will be late in the fall before it will be received.

When council convened a communication from Robert F. Hunter was read by secretary Kelly stating that the Bellefonte marker for aviators, on Reservoir hill, needs painting very badly. The matter was referred to the Street committee with power. Paul S. Fishburn and J. C. Houck, of the Big Spring Motor Company, asked permission to erect an electric sign over the pavement, at the corner of the Hayes building, occupied by the Harter music store. They had started to erect the sign but had been stopped by the burgess. The matter was referred to the Street committee and borough solicitor to determine the right of the borough to grant or refuse permission to erect a sign at that place. The Street committee reported cleaning and repairing streets and getting things in shape to do some oiling.

The Water committee reported the collection of \$450.00 on water taxes and \$19.75 for garage rent, etc. Also that the meter bills for the first quarter have been made out and amount to \$2298.68. The Finance committee reported that the borough department owed the treasurer \$79.55 while there was a balance in the water fund of \$469.54. Notes totaling \$19,600 were approved for renewal and new notes for \$2500 were authorized to meet current bills.

The Sanitary committee presented the monthly report of health officer S. M. Nissley. Borough bills aggregating \$2080.00 and water bills of \$135.16 were approved for payment, after which council adjourned.

UNDINES WIN PRIZES AT FIREMEN'S CONVENTION

The Undine Fire company, of Bellefonte, won three prizes at the annual convention of the Central Pennsylvania District Firemen's Association, at Osceola Mills, last Friday. They won \$25.00 for their best appearing motor driven apparatus, \$25.00 for the second best appearing company, and \$25.00 for the second largest company in attendance, the Undines having 33 men in line. Wetzler's boys band, of Milesburg, which accompanied the Tyrone firemen to the convention, won a prize of \$50.00 for the best band in attendance.

Phillipsburg was selected as the place for holding the convention next year and officers elected were as follows: President, R. H. Graham, Phillipsburg; first vice president, John R. Musser, Barnesboro; second vice president, E. M. McKenna, Kane; third vice president, H. L. Leaman, Patton; secretary, John E. Johnston, DuBois; treasurer, Harry B. Scott, Phillipsburg.

A. H. SLOOP TO TEACH AT BELLEFONTE ACADEMY.

After serving thirteen years as supervising principal of the Bellefonte public schools Arthur H. Sloop, last week, resigned that position to go to the Bellefonte Academy as teacher of science and physics. Before being elected to head the Bellefonte schools Mr. Sloop had taught at the Academy eleven years. Head-master James R. Hughes is confident that the return of Mr. Sloop to the Academy will greatly strengthen the teaching force.

At a meeting of the school board, on Monday evening, Earl K. Stock, who has been principal of the High school the past ten years, was elected supervising principal to succeed Mr. Sloop. The latter's resignation will take effect September 1st, when Mr. Stock will take charge. So far no choice has been made of a principal for the High school and it is likely the position will not be filled until the meeting of the board in August.

KEW GARDEN INN RAIDED, PROPRIETOR ARRESTED.

Last Thursday night county detective Leo Boden, State police and federal officers raided the Kew Garden Inn, along the State Highway south of Bellefonte, and confiscated about a quart of liquor and two 10-gallon containers of beer, as well as a complete set of beer cooling coils, pump, etc. The raid was made after one of the officers had been successful in purchasing a pint of gin.

Joseph Labardo, the proprietor, was placed under arrest and taken to jail but later posted \$750 cash bail for trial at court. Labardo has had charge of the place for more than a year and always contended that he was operating a strictly temperance road house. Prohibition authorities have had the place under surveillance for some time but up until last week they were unable to get any definite evidence of the sale of liquor or beer. The unfortunate circumstance of the suicide of Virgil S. Shuey, out on the hill near the Inn, on May 17th, after he had been a guest there for several hours during the previous night, may have stirred the authorities to more intensive efforts to discover the exact character of the place.

It will be recalled that several years ago the house was opened by "Little Joe" Decinzi and conducted under the name of "The Black Cat." It was later raided and a quantity of liquor and beer confiscated. Decinzi was placed under arrest and gave bail for court, but later jumped his bail and is now a fugitive from justice.

WEST PENN POWER TO USE A NEW BILLING PLAN.

Effective about August 1 the West Penn Power Company will introduce a new plan for billing users of the service. The present custom of sending out all bills at one time will be abandoned and the service area will be divided into nine zones, so that only those patrons in the same zone will receive their bills at the same time.

The change will not affect rates in any way. It is only being made with the thought of insuring greater convenience to consumer and company by relieving the congestion that follows the first few days after monthly bills have been mailed.

It will also accomplish the purpose of giving the consumer a more nearly stable thirty day statement of consumption, for under the present system it is physically impossible for meter readers and accountants to get records out without having one month long and another short at times.

Aside from this the only change that the new system will make is in the case of those using electric service in their homes and business places. If they happen to be located in different zones they will get bills for each at different times. But each will carry its own fifteen day discount period.

A PLEASANT FAMILY PARTY AT WADDLE

On Sunday afternoon, June 28th, a number of the relatives and friends of Mr. and Mrs. H. D. Meek, of State College, gathered at their summer cottage on the old family farm at Waddle, where they were delightfully entertained at a dinner served on the lawn.

Those present were Mr. and Mrs. Philip Waddle; Mr. and Mrs. P. B. Meek, Mrs. Anna Way and Mrs. Mary Parker, of State College; Dr. R. H. Meek and Mrs. Rawleigh, of Avis; Mr. and Mrs. Lester L. Meek and sons, Donald and Richard, of Bellefonte; Mr. and Mrs. F. M. Musser, Mr. and Mrs. S. G. Hartsock and children, Helen and John, of Altoona; Mrs. Eva Clemson, of Stormstown; Mrs. Kathryn Hartsock, Mr. and Mrs. John B. Meek and son Jack and Mr. and Mrs. H. D. Meek, of Waddle.

The hard rain storms, the latter part of last week, played havoc with the Logan Fire company's fair and carnival, held on the High school grounds, and the result was it was continued three nights this week. The fair was to have opened on Thursday night with a big parade. Lewistown firemen came over the mountain for the opening feature but just as the parade began to form on the streets the storm broke and continuing over an hour not only put an end to the parade but also the fair for that evening. On Friday evening the carnival had just opened in good shape when another hard rain storm broke and put an end to the gathering for that evening. Saturday night being the only one with favorable weather a large crowd was in attendance and it was then decided to continue the fair the first three nights of this week. As the fair did not close until Wednesday night it is not yet known how much the firemen made, but Mark Williams, of the Bellefonte Hardware Co., was the lucky person who won the Ford tudor that was given away.

Employees in the Bellefonte postoffice were put on the 44-hour a week schedule on Tuesday of last week, which necessitates giving all the carriers half a day holiday on Saturdays, consequently in the future there will not be any deliveries of mail on Saturday afternoon.

NOTED GEOLOGIST SAYS OIL AND GAS ARE UNDER US.

O. L. Williams, noted oil and gas engineer and geologist, predicts that both oil and gas will soon be found in Centre county.

So sure is he of the fulfillment of his prediction that already Mr. C. V. Hughes, financier, of Philadelphia, with several assistants, has established headquarters in Bellefonte for the Centre County Development Co. This organization has no affiliation with any other group of oil operators. Its financial requirements have been underwritten by outside capital and it has no stock to sell. It is interested only in leasing and drilling.

Soon it will publish a map showing the geologically favorable territory for drilling in Centre county and then leasing under the usual nominal fee plus one-eighth royalty.

We are not in position to say more of the project at this time but next week we will give you all that develops meanwhile.

Fischer-Boyle-Miss Helen Boyle, daughter of the late Hugh J. Boyle, of Hazleton, and Joseph V. Fischer, of Newark, N. J., son of Mr. and Mrs. John G. Fischer, of Erie, were married Tuesday morning at 9 o'clock at the Holy Trinity church in Hazleton.

The bride was attired in a gown of white point desprit over white taffeta, with a veil of plain tulle, the cap caught with orange blossoms. Her bouquet was colonial in style, composed of white roses, sweet peas and lilies of the valley.

Miss Jane Boyle, sister of the bride, and Miss Gladys Stranahan, of Spartansburg, Pa., a college classmate and sorority sister of the bride attended as bridesmaids. They were attired in pink and blue eyelet organdie dresses made after the pattern of old colonial gowns. They wore hats, lace mitts and moire slippers in contrasting shades and carried colonial bouquets of pink roses and corn flowers surrounded by lace.

The flower girl, Ann Tanner, Bellefonte, Pa., was attired in a gown of yellow organdie, also made in colonial style with a bonnet, lace mitts and slippers to match and carried a colonial bouquet of yellow sweet peas and corn flowers.

The wedding breakfast and reception at Mamma Turin's followed the ceremony.

Both Mr. and Mrs. Fischer graduated from Pennsylvania State College with the class of 1929. Mrs. Fischer has been a member of the D. A. Harman teaching staff and Mr. Fischer is assistant manager of the Tontine offices of the I. E. Dupont de Nemours Co., Inc. in New York City.

Denney-Parker.—A wedding of interest to many people in Bellefonte was that, on Monday of this week, of Miss Emily Parker, youngest daughter of Mrs. G. Ross Parker, of New Brunswick, N. J., and Byron Denney, an instructor at Rutgers College, the ceremony having taken place at Perysville, Md. Immediately following the ceremony the young couple went to Watkins Glen, N. Y., where they will be for a week while Mr. Denney is attending to some business affairs at Cornell University.

Business is looking up in one industry in Bellefonte, at least. Last Thursday the C. Y. Wagner and Co., flouring mill had to start twenty-four hour operation in order to keep up with a lot of new orders it has received. While they were only in the nature of trial orders they were very large and Mr. Wagner is hopeful that they will result in enough further business to keep the big mill grinding to capacity for some time.

Ever since the days when the war was on for possession of the rich veins of limestone about Jacksonville Bill has been interested in the development of that section and, naturally, the conversation turned on the probable time that might elapse before Whiteoak and the American Co., will turn to their great reserve fields for stone. That, of course, would mean a railroad from Howard through the Gap to Jacksonville, if a line should not meanwhile be built all the way through little Nittany valley. Just now Howard is more or less agog over the preparation for drilling for oil and gas just south and east of the town.
